MALI-RUSSIE : Le Président de la Transition a reçu l'Ambassadeur russe

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, Chef de l'État, a reçu ce mardi 28 Avril 2026, l'Ambassadeur de la Fédération de Russie au Mali, M. Igor GROMYKO.

Au cours de l'entretien, les deux parties ont évoqué la situation actuelle et les bonnes relations de partenariat entre Bamako et Moscou. L'Ambassadeur russe a réaffirmé l'engagement de son pays aux côtés du Mali dans la lutte contre le terrorisme international, évoquant l'action conjointe des forces armées Maliennes et russes. Le diplomate russe a souhaité des succès aux FAMA et aux Forces russes, assurant que la Russie sera toujours l'amie du Mali.

KUMA FɔLD

Official statement from the transitional government of Mali, presented by Brigadier General Issa Ousmane Coulibaly.

The announcement declares two days of national mourning following the death of Defense Minister General Sadio Camara, who died on April 25, 2026, in a terrorist attack on his residence. The spokesperson details that the attack involved a car bomb, caused other casualties, and destroyed a nearby mosque. As part of the tribute to his career and professionalism, flags will fly at half-staff and a state funeral will be held in his honor.

Presidency of America

Donald J. Trump

Quite an evening in D.C. Secret Service and Law Enforcement did a fantastic job. They acted quickly and bravely. The shooter has been apprehended, and I have recommended that we “LET THE SHOW GO ON” but, will entirely be guided by Law Enforcement. They will make a decision shortly. Regardless of that decision, the evening will be much different than planned, and we'll just, plain, have to do it again. President DONALD J. TRUMP

Presidency of Mali

Here are the key points from the Council of Ministers meeting of April 23, 2026, in four areas:

Social: The orphanage becomes an independent public institution to better protect orphaned or abandoned children.

Education: 200 hectares are officially allocated for the construction of the University of Kayes, aiming to adapt training to local needs.

Economy & Mining: The government buys 26,000 tons of locally grown rice to support producers and lower prices for consumers. In the mining sector, Farid Mandela Guindo takes the helm of the Mining Heritage Company.

Technology: Creation of an annual National AI Forum in June to boost innovation and robotics in Mali.

BAMANANKAN NA

Mali Jamanakuntigiya

Government of Mali

announces an official decision regarding the implementation of a curfew in Bamako, Mali. Here are the key points to remember:

Curfew Details

Area affected: The entire territory of the Bamako district.

Hours: From 9:00 PM to 6:00 AM.

Initial duration: 72 hours, with the possibility of extension if necessary.

Effective date: April 25, 2026.

Responsibilities

The decision, made by the Governor of the Bamako district, entrusts its implementation to the following authorities:

Sub-prefects of the districts.

Mayors.

Heads of regional security services.

This is a security measure aimed at restricting nighttime movement for a specified period in the capital.

America California farmers awash in Colorado River water ...

Growers brace to give up Colorado River water - CalMatters

Farmers pioneer water solutions as Colorado River dwindles

Solving water crisis will mean less for California farms ...

Freeing up Colorado River water from California farms may ...

California's Imperial Valley, holding the largest entitlement to a strained Colorado River, is under pressure to improve water efficiency amidst a 20% flow reduction since 2000. As drought persists, the region faces mounting pressure to change, with nearly half of its water supporting alfalfa and cattle feed. While farmers possess senior rights, they are increasingly pressured to modernize and conserve.

Key Aspects of the Water Crisis and Pressure

Declining Supply: The Colorado River, critical to Western agriculture, has seen a 20% reduction in flow since 2000 due to climate-driven drought.

Imperial Valley's Role: The Imperial Irrigation District (IID) controls 70% of California's Colorado River share, or roughly 3 million acre-feet, making its efficiency critical.

Water Usage: A significant portion of this water is used for growing alfalfa and other feed for beef/dairy cattle, leading to calls for changes in farming practices and dietary demand.

Legal/Historical Rights: Farmers use the "prior appropriation" doctrine—first in time, first in right—which gives them priority, but this is being tested by severe shortages.

Funding Conservation: To combat shortages, IID has struck deals to transfer water, with cities paying hundreds of dollars per acre-foot for water, with revenue funding infrastructure upgrades.

Growing Pressure: There are growing questions about whether the current system is sustainable, or if and when drastic changes to water rights and usage will be necessary to sustain the region.

Правительство России

19 Apr at 5:00 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

В Москве состоялось 6-е заседание Совместной комиссии на уровне глав правительств России и Узбекистана. Участники встречи обсудили ход реализации задач, поставленных президентами двух государств. Особое внимание было уделено мерам, направленным на дальнейшее углубление российско-узбекского взаимодействия.

Михаил Мишустин провел стратегическую сессию по прогнозу кадровой потребности в экономике. В прошлом году был разработан 7-летний прогноз с детализацией по регионам, отраслям, профессиям и квалификациям. На его основе выстраивается структура подготовки кадров в каждом регионе и на федеральном уровне.

До конца 2026 года в новых регионах России будут восстановлены линии электропередачи для социальных объектов и жилых домов. Правительство направит на эти цели почти 3,5 млрд рублей Донецкой и Луганской народным республикам, Запорожской и Херсонской областям.

В России усилят контроль за безопасностью при добыче полезных ископаемых. Правительство рассмотрело изменения в законодательство, которые позволят проводить системное наблюдение за геологической ситуацией при освоении недр. Благодаря этому специалисты смогут вовремя получать информацию о подземных водах или метане в пластах и оперативно реагировать на возникающие риски.

The video highlights Chinese ground-based MUMT maneuvers in urban warfare, integrating the rocket-armed ZRY222 UGV, an 8-wheeled transport UGV, weaponized/explosive robot dogs, and FPV ISR and attack drones.

The CCTV video shows PLA exercises with soldiers and infantry in simulated urban environments, where unmanned systems clear paths, provide fire support, and reduce human exposure in combat with smoke and buildings.

It reflects China's focus on military robotics for complex environments like urban combat, prioritizing attritable and low-cost systems that complement human forces starting in late 2025.

KUMA FɔLD

Presidency of Mali

Here are the key points from the Council of Ministers meeting of April 23, 2026, in four areas:

Social: The orphanage becomes an independent public institution to better protect orphaned or abandoned children.

Education: 200 hectares are officially allocated for the construction of the University of Kayes, aiming to adapt training to local needs.

Economy & Mining: The government buys 26,000 tons of locally grown rice to support producers and lower prices for consumers. In the mining sector, Farid Mandela Guindo takes the helm of the Mining Heritage Company.

Technology: Creation of an annual National AI Forum in June to boost innovation and robotics in Mali.

BAMANANKAN NA

KUMA FɔLD

Voici l'essentiel du Conseil des ministres du 23 avril 2026 en quatre points :

Social : La Pouponnière devient un établissement public autonome pour mieux protéger les enfants orphelins ou abandonnés.

Éducation : 200 hectares sont officiellement attribués pour construire l'Université de Kayes, visant à adapter la formation aux besoins locaux.

Économie & Mines : L'État rachète 26 000 tonnes de riz local pour soutenir les producteurs et baisser les prix pour les citoyens. Côté mines, Farid Mandela Guindo prend la tête de la Société de Patrimoine minier.

Technologie : Création d'un Forum national annuel de l'IA en juin pour booster l'innovation et la robotique au Mali.

KUMA FOLLO

By the end of 2025, China's irrigated farmland area reached 1.09 billion mu (approximately 72 million hectares), an increase of over 53 million mu (approximately 3.5 million hectares) compared to the end of the 13th Five-Year Plan period. Grain produced from irrigated farmland accounted for 80.76% of the country's total output.

Large and medium-sized irrigation areas are the "main force" in grain production, accounting for 38.89% of the national sown area and 50.9% of the output, with an average yield of 1164 jin (approximately 688 catties) per mu (approximately 0.067 hectares), 1.5 times the national average.

Water conservation and construction are progressing simultaneously:

The effective utilization coefficient of farmland irrigation water reached 0.583, and agricultural water use efficiency continues to improve; 7 new projects were started in 2025.

America California farmers awash in Colorado River water ...

Growers brace to give up Colorado River water - CalMatters

Farmers pioneer water solutions as Colorado River dwindles

Solving water crisis will mean less for California farms ...

Freeing up Colorado River water from California farms may ...

California's Imperial Valley, holding the largest entitlement to a strained Colorado River, is under pressure to improve water efficiency amidst a 20% flow reduction since 2000. As drought persists, the region faces mounting pressure to change, with nearly half of its water supporting alfalfa and cattle feed. While farmers possess senior rights, they are increasingly pressured to modernize and conserve,.

Key Aspects of the Water Crisis and Pressure

Declining Supply: The Colorado River, critical to Western agriculture, has seen a 20% reduction in flow since 2000 due to climate-driven drought.

Imperial Valley's Role: The Imperial Irrigation District (IID) controls 70% of California's Colorado River share, or roughly 3 million acre-feet, making its efficiency critical.

Water Usage: A significant portion of this water is used for growing alfalfa and other feed for beef/dairy cattle, leading to calls for changes in farming practices and dietary demand.

Legal/Historical Rights: Farmers use the "prior appropriation" doctrine—first in time, first in right—which gives them priority, but this is being tested by severe shortages.

Funding Conservation: To combat shortages, IID has struck deals to transfer water, with cities paying hundreds of dollars per acre-foot for water, with revenue funding infrastructure upgrades.

Growing Pressure: There are growing questions about whether the current system is sustainable, or if and when drastic changes to water rights and usage will be necessary to sustain the region.

America California farmers awash in Colorado River water ...
 Growers brace to give up Colorado River water - CalMatters
 Farmers pioneer water solutions as Colorado River dwindles
 Solving water crisis will mean less for California farms ...
 Freeing up Colorado River water from California farms may ...
 California's Imperial Valley, holding the largest entitlement to a strained Colorado River, is under pressure to improve water efficiency amidst a 20% flow reduction since 2000. As drought persists, the region faces mounting pressure to change, with nearly half of its water supporting alfalfa and cattle feed. While farmers possess senior rights, they are increasingly pressured to modernize and conserve..

Key Aspects of the Water Crisis and Pressure

Declining Supply: The Colorado River, critical to Western agriculture, has seen a 20% reduction in flow since 2000 due to climate-driven drought.

Imperial Valley's Role: The Imperial Irrigation District (IID) controls 70% of California's Colorado River share, or roughly 3 million acre-feet, making its efficiency critical.

Water Usage: A significant portion of this water is used for growing alfalfa and other feed for beef/dairy cattle, leading to calls for changes in farming practices and dietary demand.

Legal/Historical Rights: Farmers use the "prior appropriation" doctrine—first in time, first in right—which gives them priority, but this is being tested by severe shortages.

Funding Conservation: To combat shortages, IID has struck deals to transfer water, with cities paying hundreds of dollars per acre-foot for water, with revenue funding infrastructure upgrades.

Growing Pressure: There are growing questions about whether the current system is sustainable, or if and when drastic changes to water rights and usage will be necessary to sustain the region.

KUMA FOLƁ

America: Years of drought in South Texas have pushed the agricultural sector to the brink of collapse, primarily due to record low water levels in the Rio Grande and its reservoirs.

The three main pressures:

Sector collapse: Texas's sugar industry officially ended in 2024. The state's only sugar mill closed due to insufficient water to grow the crop, resulting in an annual economic loss of \$100 million.

Water scarcity and treaties: Water levels in reservoirs like Falcon and Amistad have reached historic lows (some below 10%). Tensions are rising over the 1944 treaty, with Texas officials claiming that Mexico is withholding more than 1 million feddans of water owed to the United States.

Gradual decline: Other sectors, such as citrus and cotton, are also experiencing rapid decline. With Phase 5 pumping restrictions in place in areas like the Edwards Aquifer, many farming families who have farmed for generations are being forced to sell their land or water rights to survive.

In short, the combination of extreme heat, low rainfall, and diplomatic disputes over water has made traditional agriculture in the region economically unsustainable for many.

KUMA Fɔɔɔ

America: Years of drought in South Texas have pushed the agricultural sector to the brink of collapse, primarily due to record low water levels in the Rio Grande and its reservoirs.

The three main pressures:

Sector collapse: Texas's sugar industry officially ended in 2024. The state's only sugar mill closed due to insufficient water to grow the crop, resulting in an annual economic loss of \$100 million.

Water scarcity and treaties: Water levels in reservoirs like Falcon and Amistad have reached historic lows (some below 10%). Tensions are rising over the 1944 treaty, with Texas officials claiming that Mexico is withholding more than 1 million feddans of water owed to the United States.

Gradual decline: Other sectors, such as citrus and cotton, are also experiencing rapid decline. With Phase 5 pumping restrictions in place in areas like the Edwards Aquifer, many farming families who have farmed for generations are being forced to sell their land or water rights to survive.

In short, the combination of extreme heat, low rainfall, and diplomatic disputes over water has made traditional agriculture in the region economically unsustainable for many.

BAMANANKAN NA

Ameriki: San caman ja min kɛra Texas Saheliyanfan na, o ye senɛko geleya bila ka bin, kɛrɛnkɛrɛnnɛnya la, ji hake dɔɓɔɓɔni min ma deli ka sɔɔɔ fɔɔ Rio Grande ani a jidagayɔɔɔw la.

KUMA Fɔɓɔ

The meat news in West Africa can be summarized in three main points:

Price crisis in Mali: The capital, Bamako, is experiencing a sharp rise in meat prices (April 2026), prompting the government to hold emergency meetings with producers to control the market and secure supplies.

Losses from cattle rustling: Countries in the region (led by Senegal and Mali) have launched a program to digitize livestock tracking to reduce theft, which costs the region 260 billion West African francs annually, with the aim of reducing the phenomenon by 70%.

Health and economic challenges:

Ivory Coast: Bird flu outbreaks have resurfaced after years of stability.

Benin: A state-of-the-art slaughterhouse has opened in Kandy to boost exports, coinciding with a significant increase in imports of Russian poultry.

KUMA Fɔɓɓɔ

This field visit to Koulikoro exemplifies the accelerated pace of the Project for the Restoration of Degraded Lands (PRTD-Mali), supported by the transitional authorities.

The following are the key takeaways from the visit:

Sites visited: Two strategic fish farming units were inspected: the Ahmed Cherif Fofana hatchery in Koulikoro and the Maimouna Touré production unit in Tinfala.

Sovereignty objective: Ministers Doumbia Mariam Tangara and Youba Ba emphasized that these "production alliances" are directly aimed at achieving the country's food sovereignty through the development of the fisheries sector.

Integrated approach: The project links environmental restoration (degraded lands) with the creation of sustainable economic activities, such as livestock farming and fishing.

KUMA FɔLD

The video highlights the Chinese People's Liberation Army's multi-tasking urban warfare exercises, which include the ZRY222 missile-armed unmanned ground vehicle, an eight-wheeled unmanned transport vehicle, armed/explosive robotic dogs, and reconnaissance and attack drones.

The video, broadcast by CCTV, shows People's Liberation Army soldiers and infantry training in simulated urban environments, where unmanned systems clear roads, provide fire support, and minimize personnel exposure to smoke and buildings during combat.

This reflects China's focus on military robots for complex environments like urban warfare, prioritizing easily deployable and low-cost systems that complement human forces starting in late 2025.

BAMANANKAN NA

KUMA FOLD

The video highlights the Chinese People's Liberation Army's multi-tasking urban warfare exercises, which include the ZRY222 missile-armed unmanned ground vehicle, an eight-wheeled unmanned transport vehicle, armed/explosive robotic dogs, and reconnaissance and attack drones.

The video, broadcast by CCTV, shows People's Liberation Army soldiers and infantry training in simulated urban environments, where unmanned systems clear roads, provide fire support, and minimize personnel exposure to smoke and buildings during combat.

This reflects China's focus on military robots for complex environments like urban warfare, prioritizing easily deployable and low-cost systems that complement human forces starting in late 2025.

France is revitalizing its mining industry to secure its supply of critical metals (lithium, copper, tungsten) and support the energy transition. Driven by projects like Imerys's in the Allier region, this strategy aims to reduce foreign dependence, with a new regulatory framework (the 2025 reform of the mining code) focused on sustainability.

BAMANANKAN NA

KUMA FɔLD

This report highlights a strategic tour by Minister Youba Ba in the Koulikoro region, highlighting Mali's transition to modern fish farming to guarantee its food sovereignty.
Here are the key points of this visit:

Key infrastructure: CAPEJ (ambition of 200,000 spawners) and the modern Safo fish market illustrate the rise of the sector.
Climate alternative: Faced with water disruptions, fish farming is presented as the most profitable and resilient solution to create jobs.
Strategic partnership: Support from the PRTD (Degraded Land Restoration Project), financed by the World Bank, is considered crucial to link environmental restoration and income opportunities.
Final objective: Achieve food self-sufficiency while combating insecurity linked to climate change.

BAMANANKAN NA

Tomato prices jump to 12 dirhams... Public anger and professional mobilization

Tomato prices in national markets have witnessed a significant increase in recent days, prompting citizens to sound the alarm about the continued rise in prices of several basic commodities. They are demanding intervention from the relevant authorities, who have temporarily halted exports to African markets, a move that has generated widespread reactions among professionals.

The video highlights Chinese ground-based MUMT maneuvers in urban warfare, integrating the rocket-armed ZRY222 UGV, an 8-wheeled transport UGV, weaponized/explosive robot dogs, and FPV ISR and attack drones.

The CCTV video shows PLA exercises with soldiers and infantry in simulated urban environments, where unmanned systems clear paths, provide fire support, and reduce human exposure in combat with smoke and buildings. It reflects China's focus on military robotics for complex environments like urban combat, prioritizing attritable and low-cost systems that complement human forces starting in late 2025.

BAMANANKAN NA

The video highlights Chinese ground-based MUMT maneuvers in urban warfare, integrating the rocket-armed ZRY222 UGV, an 8-wheeled transport UGV, weaponized/explosive robot dogs, and FPV ISR and attack drones.

The CCTV video shows PLA exercises with soldiers and infantry in simulated urban environments, where unmanned systems clear paths, provide fire support, and reduce human exposure in combat with smoke and buildings. It reflects China's focus on military robotics for complex environments like urban combat, prioritizing attritable and low-cost systems that complement human forces starting in late 2025.

BAMANANKAN NA

Wideoy in be Sinuwaw ka dugukolo kan MUMT manewerew jira dugubaw konko kelew la, ka ZRY222 UGV min be ni misiri ye, n'o ye UGV ye min be taa ni wotoro 8 ye, robo wulu minnu be marifa/bon, ani FPV ISR ani binkanni dronw fara gonko kan.

KUMA FɔLD

Republic of Turkey Presidency reposted
Recep Tayyip Erdoğan

I hope that the Antalya Diplomacy Forum, which we are organizing for the 5th time this year, will be beneficial for our region and the whole world.

I wish that the discussions, evaluations, and exchanges of ideas that will take place within the scope of the program, as well as the side events and bilateral meetings that will be held during the forum, will be fruitful.

Five years ago, we set out with the goal of creating a global platform that would take the pulse of diplomacy, and today we see that the Antalya Diplomacy Forum has become a common platform for global reason, global conscience, and hope for the future.

I believe that the discussions that will take place over three days under the theme of "Shaping Tomorrow, Managing Uncertainties" will further highlight this unique and special aspect of the forum.

I believe that the forum will contribute to Turkey's mission of being "the key to peace," and I thank each participant. #ADF2026

KUMA FOLLO

This report highlights a strategic tour by Minister Youba Ba in the Koulikoro region, highlighting Mali's transition to modern fish farming to guarantee its food sovereignty.

Here are the key points of this visit:

Key infrastructure: CAPEJ (ambition of 200,000 spawners) and the modern Safo fish market illustrate the rise of the sector.

Climate alternative: Faced with water disruptions, fish farming is presented as the most profitable and resilient solution to create jobs.

Strategic partnership: Support from the PRTD (Degraded Land Restoration Project), financed by the World Bank, is considered crucial to link environmental restoration and income opportunities.

Final objective: Achieve food self-sufficiency while combating insecurity linked to climate change.

BAMANANKAN NA

Nin kunnaƴoni in be minisiri Youba Ba ka taama faɗɗeɓɓo do jira Koulikoro mara kɔnɔ, ka Mali ka wuli ka taa bi jeggemara la walasa k'a ka balo yereɓaɓɓɔnya sabati.

Nin taama in kɔnɔko jɔɓɓɔnw file nin ye:

Fenɲenemako jɔɓɓɔnw : CAPEJ (ambition de 200.000 de lèvres) ani bi Safo jerge sugu be o seko in wulicogo jira.

Waati cogoya were : Jiko geleyaw ɲekɔɔ, jeggemara be jira iko fura min be nafa ɔɔɔ kosebe ani min be se ka muɲu kosebe walasa ka baarakeyɔɔɔ dabɔ.

Ce compte-rendu met en lumière une tournée stratégique du Ministre Youba Ba dans la région de Koulikoro, soulignant la transition du Mali vers une pisciculture moderne pour garantir sa souveraineté alimentaire.

Voici les points clés de cette visite :

Infrastructures clés : Le CAPEJ (ambition de 200 000 géniteurs) et la poissonnerie moderne de Safo illustrent la montée en puissance de la filière.

Alternative climatique : Face aux perturbations hydriques, l'élevage de poissons est présenté comme la solution la plus rentable et résiliente pour créer des emplois.

Partenariat stratégique : Le soutien du PRTD (Projet de Restauration des Terres Dégradées), financé par la Banque mondiale, est jugé crucial pour lier restauration environnementale et opportunités de revenus.

Objectif final : Atteindre l'autosuffisance alimentaire tout en luttant contre l'insécurité liée au changement climatique.

KUMA 𐤋𐤏𐤔

Russian Government

April 12 at 5:31 pm

Government Work. The main events and decisions of the week are in the digest:

Citizens will be able to receive new high-tech cancer treatment free of charge. The compulsory medical insurance program includes therapy using oncovaccines and CAR-T cell therapy. The drugs are individually tailored to each patient.

The modernization of primary healthcare will continue in the regions. Several regions will receive an additional allocation of over 2 billion rubles for these purposes. An additional 10 billion rubles will be allocated for the development of digital medical infrastructure in 84 regions.

Mikhail Mishustin held a strategy session on the development of the fuel and energy sector, taking into account the situation in the Middle East.

At the direction of the President, a government commission for flood relief has been established. Federal ministers visited flooded areas and inspected recovery sites and accommodations for victims in Dagestan and Chechnya.

KUMA FOLLO

Presidency of Mali

The Council of Ministers meeting of Wednesday, April 15, 2026, details several major decisions taken under the presidency of General Assimi Goïta. Here are the key points:

1. Legislative and Regulatory Measures

Water: Approval of the National Water Policy (2026-2035). It aims for sustainable development in the face of climate change, in line with the "Mali Kura jetaasira" vision.

Decentralization (Youth & Sports): Adoption of decrees officially transferring powers from the State to the Communes, Regions, and the District of Bamako. This reform follows the administrative elimination of the "Circle" level.

Livestock: Creation of the institutional framework for the Livestock Stabilization and Security Strategy (2025-2029). A national and regional management system is being established to protect livestock by 2034.

2. Key Appointments (Individual Measures)

Prime Minister's Office: Mr. Balobo Cissé is appointed Director General of the Universal Access Fund Management Agency.

Transport and Infrastructure: Mr. Youssouf Dembélé becomes Chief Inspector, and Ms. Mariam Touré Diallo is appointed Chief of Staff.

Justice: Appointment of two special advisors (Mr. Guindo and Ms. Sanogo).

KUMA FOLLO

Presidency of Mali

The Council of Ministers meeting of Wednesday, April 15, 2026, details several major decisions taken under the presidency of General Assimi Goïta. Here are the key points:

1. Legislative and Regulatory Measures

Water: Approval of the National Water Policy (2026-2035). It aims for sustainable development in the face of climate change, in line with the "Mali Kura jetaasira" vision.

Decentralization (Youth & Sports): Adoption of decrees officially transferring powers from the State to the Communes, Regions, and the District of Bamako. This reform follows the administrative elimination of the "Circle" level.

Livestock: Creation of the institutional framework for the Livestock Stabilization and Security Strategy (2025-2029). A national and regional management system is being established to protect livestock by 2034.

2. Key Appointments (Individual Measures)

Prime Minister's Office: Mr. Balobo Cissé is appointed Director General of the Universal Access Fund Management Agency.

Transport and Infrastructure: Mr. Youssouf Dembélé becomes Chief Inspector, and Ms. Mariam Touré Diallo is appointed Chief of Staff.

Justice: Appointment of two special advisors (Mr. Guindo and Ms. Sanogo).

KUMA FOLD

presidence du Mali

Conseil des Ministres du mercredi 15 avril 2026 détaille plusieurs décisions majeures prises sous la présidence du Général d'Armée Assimi GOITA. Voici l'essentiel à retenir :

1. Mesures Législatives et Réglementaires

Eau : Approbation de la Politique nationale de l'Eau (2026-2035). Elle vise un développement durable face aux changements climatiques, en lien avec la vision "Mali Kura netaasira".

Décentralisation (Jeunesse and Sports) : Adoption de décrets transférant officiellement des compétences de l'État aux Communes, Régions et au District de Bamako. Cette réforme fait suite à la suppression administrative de l'échelon "Cercle".

Élevage : Création du cadre institutionnel pour la Stratégie de Stabilisation et de Sécurisation du Bétail (2025-2029). Un dispositif de pilotage national et régional est mis en place pour protéger le cheptel d'ici 2034.

2. Nominations clés (Mesures individuelles)

Primature : Monsieur Balobo CISSE est nommé Directeur général de l'Agence de Gestion du Fonds d'Accès universel.

Transports et Infrastructures : Monsieur Youssouf DEMBELE devient Inspecteur en Chef, et Madame DIALLO Mariam TOURE est nommée Chef de Cabinet.

Justice : Nomination de deux chargés de mission (M. Guindo et Mme Sanogo).

KUMA Fɔɔɔ

The full opening address of the April 2026 ordinary session of the National Transitional Council of Mali, delivered by its president in the Djili Baba Sissoko Hall at the International Conference Center.

The legislative agenda features 32 texts to be considered, including ratifications for the National Police, Civil Protection, Mining, and the Civil Service Statute, as well as the creation of entities such as the Mining Heritage Association.

It emphasizes strengthening the Malian state, supporting the Sahel Alliance, condemning foreign interference, and priorities such as education, food sovereignty, and energy security.

Presidence du Mali
Koulouba/ le 10 avril 2026/ #Diplomatie

Le Président de la Transition reçoit le Chef de la diplomatie marocaine, M. Nasser BOURITA

Ce vendredi 10 avril 2026, le Ministre des Affaires étrangères, de la Coopération africaine et des Marocains résidant à l'étranger du Royaume du Maroc, M. Nasser BOURITA a été reçu en audience par le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, Chef de l'État.

À l'issue de l'entretien, le Chef de la diplomatie marocaine a déclaré avoir eu l'honneur d'être reçu par le Président de la Transition, à qui il a transmis les salutations fraternelles de Sa Majesté le Roi Mohammed VI, ainsi que la volonté renouvelée du Souverain de renforcer davantage les relations bilatérales entre Bamako et Rabat.

Le Ministre Nasser BOURITA a, par ailleurs, réitéré le soutien constant de Sa Majesté le Roi Mohammed VI à l'intégrité territoriale du Mali et à son unité nationale. Il a également renouvelé l'appui du Royaume du Maroc à l'ensemble des mesures engagées sous la conduite de Son Excellence le Général d'Armée Assimi GOÏTA en vue du rétablissement de la sécurité et de la quiétude sur l'ensemble du territoire national.

Cette audience a offert l'occasion à la partie marocaine de recueillir les orientations et conseils du Président de la Transition sur les voies et moyens de consolider la coopération bilatérale, notamment dans les domaines économique, académique et sécuritaire entre le Mali et le Maroc.

Au nom de Sa Majesté le Roi Mohammed VI, le Ministre marocain a exprimé sa gratitude au Président de la Transition pour la décision historique du Mali de retirer sa reconnaissance de la République arabe sahraouie démocratique.

Le Président de la Transition reçoit le Chef de la diplomatie marocaine, M. Nasser BOURITA

Ce vendredi 10 avril 2026, le Ministre des Affaires étrangères, de la Coopération africaine et des Marocains résidant à l'étranger du Royaume du Maroc, M. Nasser BOURITA a été reçu en audience par le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, Chef de l'État.

À l'issue de l'entretien, le Chef de la diplomatie marocaine a déclaré avoir eu l'honneur d'être reçu par le Président de la Transition, à qui il a transmis les salutations fraternelles de Sa Majesté le Roi Mohammed VI, ainsi que la volonté renouvelée du Souverain de renforcer davantage les relations bilatérales entre Bamako et Rabat.

Le Ministre Nasser BOURITA a, par ailleurs, réitéré le soutien constant de Sa Majesté le Roi Mohammed VI à l'intégrité territoriale du Mali et à son unité nationale. Il a également renouvelé l'appui du Royaume du Maroc à l'ensemble des mesures engagées sous la conduite de Son Excellence le Général d'Armée Assimi GOÏTA en vue du rétablissement de la sécurité et de la quiétude sur l'ensemble du territoire national.

Cette audience a offert l'occasion à la partie marocaine de recueillir les orientations et conseils du Président de la Transition sur les voies et moyens de consolider la coopération bilatérale, notamment dans les domaines économique, académique et sécuritaire entre le Mali et le Maroc.

Au nom de Sa Majesté le Roi Mohammed VI, le Ministre marocain a exprimé sa gratitude au Président de la Transition pour la décision historique du Mali de retirer sa reconnaissance de la République arabe sahraouie démocratique.

Le Ministre Nasser BOURITA a, par ailleurs, réitéré le soutien constant de Sa Majesté le Roi Mohammed VI à l'intégrité territoriale du Mali et à son unité nationale. Il a également renouvelé l'appui du Royaume du Maroc à l'ensemble des mesures engagées sous la conduite de Son Excellence le Général d'Armée Assimi GOÏTA en vue du rétablissement de la sécurité et de la quiétude sur l'ensemble du territoire national.

Cette audience a offert l'occasion à la partie marocaine de recueillir les orientations et conseils du Président de la Transition sur les voies et moyens de consolider la coopération bilatérale, notamment dans les domaines économique, académique et sécuritaire entre le Mali et le Maroc.

Au nom de Sa Majesté le Roi Mohammed VI, le Ministre marocain a exprimé sa gratitude au Président de la Transition pour la décision historique du Mali de retirer sa reconnaissance de la République arabe sahraouie démocratique.

Правительство России
5 Apr at 5:03 pm
Работа Правительства. Главные события и решения недели – в дайджесте:

Правительство направит 1 млрд рублей на газификацию льготников. Поддержку получают в том числе многодетные родители, люди с невысокими доходами, ветераны боевых действий. По программе социальной газификации газ бесплатно проводят до границ участков. Федеральные средства пойдут на покупку газового оборудования и подведение газа к дому.

В России можно будет легально покупать и продавать криптовалюту. Такой законопроект Правительство внесло в Госдуму. Для оборота и хранения криптовалют создадут отечественные площадки и депозитории.

Ветеранам СВО, получившим инвалидность, упростят получение социальной помощи. После завершения службы они смогут в любое время подать заявление в территориальный орган Социального фонда о предоставлении набора соцуслуг. В их числе – бесплатные лекарства, путевки в санатории, бесплатный проезд к месту лечения.

Правительство утвердило Стратегию по противодействию незаконному обороту промышленной продукции до 2030 года.

Утвержден обновленный перечень дорожной деятельности. Согласно ему, до конца 2031 года в России планируется построить и реконструировать более 2 тыс. км федеральных и региональных дорог. Среди крупнейших проектов – продолжение трассы М-12 «Восток» от Екатеринбурга до Тюмени, обходы Оренбурга и Орла, Азовское кольцо – маршрут вдоль Азовского моря, расширение части трассы М-4 «Дон» до 6 полос.

KUMA FOLLO

Правительство России

5 Apr at 5:03 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

Правительство направит 1 млрд рублей на газификацию льготников. Поддержку получают в том числе многодетные родители, люди с невысокими доходами, ветераны боевых действий. По программе социальной газификации газ бесплатно проводят до границ участков. Федеральные средства пойдут на покупку газового оборудования и подведение газа к дому.

В России можно будет легально покупать и продавать криптовалюту. Такой законопроект Правительство внесло в Госдуму. Для оборота и хранения криптовалют создадут отечественные площадки и депозитарии.

Ветеранам СВО, получившим инвалидность, упростят получение социальной помощи. После завершения службы они смогут в любое время подать заявление в территориальный орган Социального фонда о предоставлении набора соцуслуг. В их числе – бесплатные лекарства, путевки в санатории, бесплатный проезд к месту лечения.

Правительство утвердило Стратегию по противодействию незаконному обороту промышленной продукции до 2030 года.

Утвержден обновленный перечень дорожной деятельности. Согласно ему, до конца 2031 года в России планируется построить и реконструировать более 2 тыс. км федеральных и региональных дорог. Среди крупнейших проектов – продолжение трассы М-12 «Восток» от Екатеринбурга до Тюмени, обходы Оренбурга и Орла, Азовское кольцо – маршрут вдоль Азовского моря, расширение части трассы М-4 «Дон» до 6 полос.

Presidence du Mali

Ce communiqué du Conseil des Ministres du mercredi 8 avril 2026 présidé par le Général d'Armée Assimi GOÏTA, met en avant plusieurs décisions majeures pour le Mali :

1. Santé et Éducation : Un financement de 83,4 milliards FCFA

Le gouvernement a ratifié un accord de prêt avec l'Association internationale de Développement (AID) d'un montant de 83 437 730 400 francs CFA.

Objectif : Financer le "Projet d'Accès d'Urgence aux Services essentiels".

Actions concrètes : Maintien de la gratuité des soins pour les femmes et les enfants, achat de vaccins et médicaments, entretien des hôpitaux et subventions pour le secteur de l'éducation.

2. Entrepreneuriat : Lancement de la Stratégie Nationale 2026-2030

Le Conseil a officiellement approuvé le décret lançant la Stratégie nationale de l'Entrepreneuriat.

Cible : Les jeunes hommes et femmes entrepreneurs.

But : Créer un écosystème favorable à la création de richesses dans les secteurs porteurs de l'économie malienne sur les quatre prochaines années.

3. Diplomatie et Travail : Présence internationale

Conférence Internationale du Travail : Le Mali participera à la 114ème session à Genève en juin 2026. Le ministre du Travail y prononcera un discours et plusieurs ministres siègeront dans des instances sociales et d'emploi africaines.

Sommaire de l'OEACP à Malabo : Le ministre des Maliens établis à l'Extérieur a représenté le pays fin mars en Guinée Équatoriale. Il a notamment porté la voix de la Confédération des Maliens États du Sahel (AES) pour intégrer les enjeux de sécurité dans la "Déclaration de Malabo".

KUMA FOLƧ

Presidence du Mali

Le Conseil des Ministres s'est réuni en session ordinaire, le mercredi 25 mars 2026, dans sa salle de délibérations au Palais de Koulouba, sous la présidence du Général d'Armée Assimi GOITA, Président de la Transition, Chef de l'Etat.

Ce communiqué du Conseil des Ministres du 25 mars 2026, présidé par le Général d'Armée Assimi GOITA, détaille plusieurs décisions clés pour la transition au Mali.

Voici l'essentiel à retenir :

1. Environnement et Assainissement

Le gouvernement a officiellement approuvé la Politique nationale d'Assainissement (2026-2030). L'objectif est d'améliorer le cadre de vie des Maliens par un accès équitable et durable à des services d'assainissement modernes, s'inscrivant dans la vision "Mali Kura".

2. Sécurité : Nouveaux numéros d'urgence

Pour faciliter les interventions et le signalement des incidents, des numéros verts gratuits à trois chiffres (plus faciles à mémoriser) sont mis en service :

101 : Police nationale

111 : Gendarmerie nationale

122 : Protection civile

145 : Garde nationale

(Autres : 133 pour les armes légères, 135 pour les stupéfiants, 144 pour la gestion des crises).

3. Économie et Géopolitique

Face aux tensions au Moyen-Orient (Détroit d'Ormuz) qui menacent le commerce mondial, le gouvernement a élaboré un Plan de riposte en 10 axes. Ce plan vise à sécuriser l'approvisionnement du pays en produits de première nécessité et à protéger les secteurs stratégiques contre l'inflation ou les pénuries.

4. Vie sociale et Santé

Bilan Ramadan 2026 : L'opération de vente promotionnelle de bétail a été un succès avec plus de 99 % des bovins vendus (soit 4 074 têtes), facilitant l'accès à la viande pour les populations.

Santé : Une baisse des cas de dengue est notée, bien que le Chef de l'État appelle à maintenir la vigilance sur les mesures de prévention.

KUMA Fɔɓɔ

America Texas rice farmers in early 2026 are facing a severe economic crisis, with production costs (often over \$17/cwt) significantly outpacing low market prices (\$10.50/cwt projected). High input costs for fertilizer, fuel, and labor have forced some to consider reducing acreage or retiring. Despite these challenges, farmers are seeking federal support and adjusting to new local agricultural research initiatives.

KUMA FOLO

Voici un résumé structuré des points clés du communiqué du Conseil des Ministres du Mali, tenu le mercredi 1er avril 2026 sous la présidence du Général d'Armée Assimi GOITA.

1. Mesures Législatives et Réglementaires

Le gouvernement a adopté plusieurs projets de texte touchant des secteurs stratégiques :

Sécurité Énergétique : Création d'un stock national de sécurité de produits pétroliers (liquides et gaz) couvrant 45 jours de consommation. L'objectif est de protéger l'économie contre les fluctuations des prix mondiaux et d'assurer la continuité des services vitaux (EDM, transports, mines, défense).

Lutte contre la Criminalité : Adoption de deux projets de loi renforçant l'arsenal juridique contre la traite des personnes (notamment des femmes et des enfants) et le trafic illicite de migrants, afin de combler les lacunes des lois de 2012.

Culture et IA : Révision du régime de la propriété littéraire et artistique pour intégrer les évolutions technologiques, notamment l'usage de l'Intelligence Artificielle dans la création.

2. Nominations Individuelles

Plusieurs cadres ont été nommés à des postes de responsabilité, notamment :

Économie et Finances : MM. Mohamed Amara KEITA et Mossa ASSIBIT (Conseillers techniques).

Industrie et Commerce : M. Amara NIMAGA (Directeur national des PME) et Mme Mariame MAIGA (Directrice générale de l'Agence malienne de Normalisation).

3. Communications et Rayonnement International

Le Conseil a entendu plusieurs rapports sur la présence du Mali sur la scène internationale :

Douanes : Élection de Mme TRAORE Oumou KEITA à la présidence de la 47ème Session du Comité de Lutte Contre la Fraude de l'OMD (prévue en 2027 à Bruxelles).

Droits de l'Homme : Participation du Mali au dialogue interactif à Genève. Le gouvernement a réitéré sa volonté de coopérer tout en refusant la "politisation" de la question des Droits de l'Homme.

Condition de la Femme : Participation à la 70ème Session de la CSW à New York, axée sur l'accès à la justice pour les femmes.

Santé (AES) : Participation au forum sur le financement de la santé au Burkina Faso. Les ministres de la Confédération AES ont fait le point sur la souveraineté sanitaire.

4. Initiatives Nationales et Santé

Jeunesse : Lancement de l'initiative « N'tè N'ta la : Jeunesse, Rempart de la Nation » pour renforcer le lien entre les jeunes et les Forces de Défense.

Santé Publique : Le gouvernement note une augmentation des cas de dengue. Le Président de la Transition a exhorté la population à la vigilance et au respect des mesures de prévention.

Note : Ce communiqué souligne une volonté de renforcer la souveraineté nationale, qu'elle soit énergétique, juridique ou sanitaire, tout en s'adaptant aux défis technologiques modernes.

Sécurité Énergétique : Création d'un stock national de sécurité de produits pétroliers (liquides et gaz) couvrant 45 jours de consommation. L'objectif est de protéger l'économie contre les fluctuations des prix mondiaux et d'assurer la continuité des services vitaux (EDM, transports, mines, défense).

Lutte contre la Criminalité : Adoption de deux projets de loi renforçant l'arsenal juridique contre la traite des personnes (notamment des femmes et des enfants) et le trafic illicite de migrants, afin de combler les lacunes des lois de 2012.

Culture et IA : Révision du régime de la propriété littéraire et artistique pour intégrer les évolutions technologiques, notamment l'usage

de l'Intelligence Artificielle dans la création.

2. Nominations Individuelles

Plusieurs cadres ont été nommés à des postes de responsabilité, notamment :

Économie et Finances : MM. Mohamed Amara KEITA et Mossa ASSIBIT (Conseillers techniques).

Industrie et Commerce : M. Amara NIMAGA (Directeur national des PME) et Mme Mariame MAIGA (Directrice générale de l'Agence malienne de Normalisation).

3. Communications et Rayonnement International

Le Conseil a entendu plusieurs rapports sur la présence du Mali sur la scène internationale :

Douanes : Élection de Mme TRAORE Oumou KEITA à la présidence de la 47ème Session du Comité de Lutte Contre la Fraude de l'OMD (prévue en 2027 à Bruxelles).

Droits de l'Homme : Participation du Mali au dialogue interactif à Genève. Le gouvernement a réitéré sa volonté de coopérer tout en refusant la "politisation" de la question des Droits de l'Homme.

Condition de la Femme : Participation à la 70ème Session de la CSW à New York, axée sur l'accès à la justice pour les femmes.

Santé (AES) : Participation au forum sur le financement de la santé au Burkina Faso. Les ministres de la Confédération AES ont fait le point sur la souveraineté sanitaire.

4. Initiatives Nationales et Santé

Jeunesse : Lancement de l'initiative « N'tè N'ta la : Jeunesse, Rempart de la Nation » pour renforcer le lien entre les jeunes et les Forces de Défense.

Santé Publique : Le gouvernement note une augmentation des cas de dengue. Le Président de la Transition a exhorté la population à la vigilance et au respect des mesures de prévention.

Note : Ce communiqué souligne une volonté de renforcer la souveraineté nationale, qu'elle soit énergétique, juridique ou sanitaire, tout en s'adaptant aux défis technologiques modernes.

KUMA FɔLɔ

Voici un résumé structuré des points clés du communiqué du Conseil des Ministres du Mali, tenu le mercredi 1er avril 2026 sous la présidence du Général d'Armée Assimi GOITA.

1. Mesures Législatives et Réglementaires

Le gouvernement a adopté plusieurs projets de texte touchant des secteurs stratégiques :

Sécurité Énergétique : Création d'un stock national de sécurité de produits pétroliers (liquides et gaz) couvrant 45 jours de consommation. L'objectif est de protéger l'économie contre les fluctuations des prix mondiaux et d'assurer la continuité des services vitaux (EDM, transports, mines, défense).

Lutte contre la Criminalité : Adoption de deux projets de loi renforçant l'arsenal juridique contre la traite des personnes (notamment des femmes et des enfants) et le trafic illicite de migrants, afin de combler les lacunes des lois de 2012.

Culture et IA : Révision du régime de la propriété littéraire et artistique pour intégrer les évolutions technologiques, notamment l'usage de l'Intelligence Artificielle dans la création.

2. Nominations Individuelles

Plusieurs cadres ont été nommés à des postes de responsabilité, notamment :

Économie et Finances : MM. Mohamed Amara KEITA et Mossa ASSIBIT (Conseillers techniques).

Industrie et Commerce : M. Amara NIMAGA (Directeur national des PME) et Mme Mariame MAIGA (Directrice générale de l'Agence malienne de Normalisation).

3. Communications et Rayonnement International

Le Conseil a entendu plusieurs rapports sur la présence du Mali sur la scène internationale :

Douanes : Élection de Mme TRAORE Oumou KEITA à la présidence de la 47ème Session du Comité de Lutte Contre la Fraude de l'OMD (prévue en 2027 à Bruxelles).

Droits de l'Homme : Participation du Mali au dialogue interactif à Genève. Le gouvernement a réitéré sa volonté de coopérer tout en refusant la "politisation" de la question des Droits de l'Homme.

Condition de la Femme : Participation à la 70ème Session de la CSW à New York, axée sur l'accès à la justice pour les femmes.

Santé (AES) : Participation au forum sur le financement de la santé au Burkina Faso. Les ministres de la Confédération AES ont fait le point sur la souveraineté sanitaire.

4. Initiatives Nationales et Santé

Jeunesse : Lancement de l'initiative « N'tè N'ta la : Jeunesse, Rempart de la Nation » pour renforcer le lien entre les jeunes et les Forces de Défense.

Santé Publique : Le gouvernement note une augmentation des cas de dengue. Le Président de la Transition a exhorté la population à la vigilance et au respect des mesures de prévention.

Note : Ce communiqué souligne une volonté de renforcer la souveraineté nationale, qu'elle soit énergétique, juridique ou sanitaire, tout en s'adaptant aux défis technologiques modernes.

Правительство России

29 Mar at 5:29 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

Михаил Мишустин провел переговоры с премьер-министром Вьетнама Фам Минь Тинем. Правительства двух стран обеспечивают эффективное выполнение договоренностей, достигнутых главами государств. По итогам переговоров было подписано межправительственное соглашение о строительстве во Вьетнаме первой атомной электростанции.

Правительство утвердило концепцию развития первой помощи, которая оказывается в экстренных ситуациях еще до приезда врачей.

В России будет сформирован перечень стратегически значимых лекарств. В него войдут жизненно важные препараты, в том числе вакцины, анальгетики, лекарства для лечения инфекций. Государство окажет поддержку производителям, а сами лекарства будут иметь приоритет при госзакупках.

Михаил Мишустин посетил с рабочим визитом Казахстан. Он провел переговоры с премьер-министром Казахстана Олжасом Бектеновым и встретился с Президентом Казахстана Касым-Жомартом Токаевым. Также Михаил Мишустин принял участие в работе Евразийского межправительственного совета.

На полях Евразийского межправсовета прошла встреча Михаила Мишустина с вице-премьером – министром внешней торговли и иностранных инвестиций Кубы Оскаром Перес-Оливой Фрагой. Стороны обсудили актуальные вопросы двустороннего взаимодействия.

В завершение визита в Казахстан Михаил Мишустин выступил на международном цифровом форуме Digital Qazaqstan 2026. Он рассказал о достижениях российского ИТ-сектора, разработках в сфере искусственного интеллекта, развитии телекоммуникационных технологий.

KUMA FɔLɔ

Voici un résumé structuré des points clés du communiqué du Conseil des Ministres du Mali, tenu le mercredi 1er avril 2026 sous la présidence du Général d'Armée Assimi GOITA.

1. Mesures Législatives et Réglementaires

Le gouvernement a adopté plusieurs projets de texte touchant des secteurs stratégiques :

Sécurité Énergétique : Création d'un stock national de sécurité de produits pétroliers (liquides et gaz) couvrant 45 jours de consommation. L'objectif est de protéger l'économie contre les fluctuations des prix mondiaux et d'assurer la continuité des services vitaux (EDM, transports, mines, défense).

Lutte contre la Criminalité : Adoption de deux projets de loi renforçant l'arsenal juridique contre la traite des personnes (notamment des femmes et des enfants) et le trafic illicite de migrants, afin de combler les lacunes des lois de 2012.

Culture et IA : Révision du régime de la propriété littéraire et artistique pour intégrer les évolutions technologiques, notamment l'usage de l'Intelligence Artificielle dans la création.

2. Nominations Individuelles

Plusieurs cadres ont été nommés à des postes de responsabilité, notamment :

Économie et Finances : MM. Mohamed Amara KEITA et Mossa ASSIBIT (Conseillers techniques).

Industrie et Commerce : M. Amara NIMAGA (Directeur national des PME) et Mme Mariame MAIGA (Directrice générale de l'Agence malienne de Normalisation).

3. Communications et Rayonnement International

Le Conseil a entendu plusieurs rapports sur la présence du Mali sur la scène internationale :

Douanes : Élection de Mme TRAORE Oumou KEITA à la présidence de la 47ème Session du Comité de Lutte Contre la Fraude de l'OMD (prévue en 2027 à Bruxelles).

Droits de l'Homme : Participation du Mali au dialogue interactif à Genève. Le gouvernement a réitéré sa volonté de coopérer tout en refusant la "politisation" de la question des Droits de l'Homme.

Condition de la Femme : Participation à la 70ème Session de la CSW à New York, axée sur l'accès à la justice pour les femmes.

Santé (AES) : Participation au forum sur le financement de la santé au Burkina Faso. Les ministres de la Confédération AES ont fait le point sur la souveraineté sanitaire.

4. Initiatives Nationales et Santé

Jeunesse : Lancement de l'initiative « N'tè N'ta la : Jeunesse, Rempart de la Nation » pour renforcer le lien entre les jeunes et les Forces de Défense.

Santé Publique : Le gouvernement note une augmentation des cas de dengue. Le Président de la Transition a exhorté la population à la vigilance et au respect des mesures de prévention.

Note : Ce communiqué souligne une volonté de renforcer la souveraineté nationale, qu'elle soit énergétique, juridique ou sanitaire, tout en s'adaptant aux défis technologiques modernes.

KUMA FɔLD

Voici un résumé structuré des points clés du communiqué du Conseil des Ministres du Mali, tenu le mercredi 1er avril 2026 sous la présidence du Général d'Armée Assimi GOITA.

1. Mesures Législatives et Réglementaires

Le gouvernement a adopté plusieurs projets de texte touchant des secteurs stratégiques :

Sécurité Énergétique : Création d'un stock national de sécurité de produits pétroliers (liquides et gaz) couvrant 45 jours de consommation. L'objectif est de protéger l'économie contre les fluctuations des prix mondiaux et d'assurer la continuité des services vitaux (EDM, transports, mines, défense).

Lutte contre la Criminalité : Adoption de deux projets de loi renforçant l'arsenal juridique contre la traite des personnes (notamment des femmes et des enfants) et le trafic illicite de migrants, afin de combler les lacunes des lois de 2012.

Culture et IA : Révision du régime de la propriété littéraire et artistique pour intégrer les évolutions technologiques, notamment l'usage de l'Intelligence Artificielle dans la création.

2. Nominations Individuelles

Plusieurs cadres ont été nommés à des postes de responsabilité, notamment :

Économie et Finances : MM. Mohamed Amara KEITA et Mossa ASSIBIT (Conseillers techniques).

Industrie et Commerce : M. Amara NIMAGA (Directeur national des PME) et Mme Mariame MAIGA (Directrice générale de l'Agence malienne de Normalisation).

3. Communications et Rayonnement International

Le Conseil a entendu plusieurs rapports sur la présence du Mali sur la scène internationale :

Douanes : Élection de Mme TRAORE Oumou KEITA à la présidence de la 47ème Session du Comité de Lutte Contre la Fraude de l'OMD (prévue en 2027 à Bruxelles).

Droits de l'Homme : Participation du Mali au dialogue interactif à Genève. Le gouvernement a réitéré sa volonté de coopérer tout en refusant la "politisation" de la question des Droits de l'Homme.

Condition de la Femme : Participation à la 70ème Session de la CSW à New York, axée sur l'accès à la justice pour les femmes.

Santé (AES) : Participation au forum sur le financement de la santé au Burkina Faso. Les ministres de la Confédération AES ont fait le point sur la souveraineté sanitaire.

4. Initiatives Nationales et Santé

Jeunesse : Lancement de l'initiative « N'tè N'ta la : Jeunesse, Rempart de la Nation » pour renforcer le lien entre les jeunes et les Forces

de Défense.

Santé Publique : Le gouvernement note une augmentation des cas de dengue. Le Président de la Transition a exhorté la population à la vigilance et au respect des mesures de prévention.

Note : Ce communiqué souligne une volonté de renforcer la souveraineté nationale, qu'elle soit énergétique, juridique ou sanitaire, tout en s'adaptant aux défis technologiques modernes.

KUMA Fɔɔɔ

Voici un résumé structuré des points clés du communiqué du Conseil des Ministres du Mali, tenu le mercredi 1er avril 2026 sous la présidence du Général d'Armée Assimi GOITA.

1. Mesures Législatives et Réglementaires

Le gouvernement a adopté plusieurs projets de texte touchant des secteurs stratégiques :

Sécurité Énergétique : Création d'un stock national de sécurité de produits pétroliers (liquides et gaz) couvrant 45 jours de consommation. L'objectif est de protéger l'économie contre les fluctuations des prix mondiaux et d'assurer la continuité des services vitaux (EDM, transports, mines, défense).

Lutte contre la Criminalité : Adoption de deux projets de loi renforçant l'arsenal juridique contre la traite des personnes (notamment des femmes et des enfants) et le trafic illicite de migrants, afin de combler les lacunes des lois de 2012.

Culture et IA : Révision du régime de la propriété littéraire et artistique pour intégrer les évolutions technologiques, notamment l'usage de l'Intelligence Artificielle dans la création.

2. Nominations Individuelles

Plusieurs cadres ont été nommés à des postes de responsabilité, notamment :

Économie et Finances : MM. Mohamed Amara KEITA et Mossa ASSIBIT (Conseillers techniques).

Industrie et Commerce : M. Amara NIMAGA (Directeur national des PME) et Mme Mariame MAIGA (Directrice générale de l'Agence malienne de Normalisation).

3. Communications et Rayonnement International

Le Conseil a entendu plusieurs rapports sur la présence du Mali sur la scène internationale :

Douanes : Élection de Mme TRAORE Oumou KEITA à la présidence de la 47ème Session du Comité de Lutte Contre la Fraude de l'OMD (prévue en 2027 à Bruxelles).

Droits de l'Homme : Participation du Mali au dialogue interactif à Genève. Le gouvernement a réitéré sa volonté de coopérer tout en refusant la "politisation" de la question des Droits de l'Homme.

Condition de la Femme : Participation à la 70ème Session de la CSW à New York, axée sur l'accès à la justice pour les femmes.

Santé (AES) : Participation au forum sur le financement de la santé au Burkina Faso. Les ministres de la Confédération AES ont fait le point sur la souveraineté sanitaire.

4. Initiatives Nationales et Santé

Jeunesse : Lancement de l'initiative « N'tè N'ta la : Jeunesse, Rempart de la Nation » pour renforcer le lien entre les jeunes et les Forces de Défense.

Santé Publique : Le gouvernement note une augmentation des cas de dengue. Le Président de la Transition a exhorté la population à la vigilance et au respect des mesures de prévention.

Note : Ce communiqué souligne une volonté de renforcer la souveraineté nationale, qu'elle soit énergétique, juridique ou sanitaire, tout en s'adaptant aux défis technologiques modernes.

BAMANANKAN NA

Mali minisiriw ka tɔnba ka kunnaƆoni kunbabaw kuncelen dɔ file nin ye, min kera arabadon awirilikalɔ tile fɔlɔ san 2026, sɔɔdasi jenerali Assimi GOITA ka nɛmɔɔɔya kɔkɔ.

KUMA Fɔɔɔ

Missouri is the fourth-largest rice producer in the United States. Rice cultivation is concentrated almost exclusively in the Bootheel region, in the far southeast of the state, where fertile clay soils and abundant water from the Mississippi River provide ideal growing conditions.

Key Figures and Location

Production: Approximately 200,000 acres (81,000 hectares) are planted annually.

Economic Impact: The industry generates approximately \$152 million to \$246 million annually for the state's economy.

KUMA Fɔɔɔ

Missouri is the fourth-largest rice producer in the United States. Rice cultivation is concentrated almost exclusively in the Bootheel region, in the far southeast of the state, where fertile clay soils and abundant water from the Mississippi River provide ideal growing conditions.

Key Figures and Location

Production: Approximately 200,000 acres (81,000 hectares) are planted annually.

Economic Impact: The industry generates approximately \$152 million to \$246 million annually for the state's economy.

KUMA FɔLD

Colorado is a powerhouse in the U.S. potato industry, specifically ranking as the second-largest producer of fresh market potatoes in the nation. Most of this production is concentrated in the San Luis Valley, a high-altitude alpine valley that provides ideal conditions for growing high-quality "spuds".

Harvest Season and Logistics

Timing: The main harvest typically begins in late August or September and concludes by mid-October. Farmers race to finish before the first killing frost, which can ruin potatoes still in the ground.

The Window: Roughly 3,500 to 50,000+ acres are harvested within a tight three-week window in early autumn.

Technology: Modern harvesters can dig up to 12 to 18 rows at a time. A single truck can be loaded with approximately 36,000 pounds of potatoes in just 3.5 minutes.

Storage: About 98% of the crop is moved directly into climate-controlled storage facilities to be shipped year-round, ensuring a steady supply for the Thanksgiving holiday peak.

BAMANANKAN NA

KUMA Fɔɔɔ

Colorado is a powerhouse in the U.S. potato industry, specifically ranking as the second-largest producer of fresh market potatoes in the nation. Most of this production is concentrated in the San Luis Valley, a high-altitude alpine valley that provides ideal conditions for growing high-quality "spuds".

Harvest Season and Logistics

Timing: The main harvest typically begins in late August or September and concludes by mid-October. Farmers race to finish before the first killing frost, which can ruin potatoes still in the ground.

The Window: Roughly 3,500 to 50,000+ acres are harvested within a tight three-week window in early autumn.

Technology: Modern harvesters can dig up to 12 to 18 rows at a time. A single truck can be loaded with approximately 36,000 pounds of potatoes in just 3.5 minutes.

Storage: About 98% of the crop is moved directly into climate-controlled storage facilities to be shipped year-round, ensuring a steady supply for the Thanksgiving holiday peak.

KUMA FOLD

El tuit de CNN de 2018 resalta la crisis de los lecheros estadounidenses, con precios de la leche en mínimos históricos por sobreproducción, comparada por granjeros con la Gran Depresión de los años 30. Aunque Trump culpaba a Canadá por barreras a exportaciones lácteas, los agricultores pedían ayuda interna como compras gubernamentales de excedentes o inversión en mercados, en lugar de culpar al comercio exterior. Este conflicto impulsó renegociaciones del TLCAN hacia el T-MEC, con concesiones canadienses, pero estudios posteriores indican que no resolvió la sobreoferta doméstica subyacente en EE.UU.

BAMANANKAN NA

CNN ka san 2018 tweet be gelaya jira Ameriki nonchonenaw bolo, nonchongo be tariku dogpyalenba la k'a sababu ke senefenw boli caya ye, n'i y'a suma senekelaw fe san 1930 waatiw ka nafolosowbaliyaba la.

Правительство России

22 Mar at 4:11 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

Российские колледжи и вузы будут готовить кадры, которые позволят стране добиться технологической независимости. Правительство утвердило список из более 500 профессий и специальностей, необходимых для достижения технологического лидерства.

Совокупная мощность отечественных суперкомпьютеров к 2030 году увеличится в 10 раз. Для достижения этой цели Правительство утвердило «дорожную карту» по развитию высокопроизводительных вычислений и суперкомпьютеров.

Михаил Мишустин посетил Национальный медицинский исследовательский центр гематологии. Здесь успешно лечат заболевания крови, которые еще совсем недавно считались неизлечимыми. Инновационные методы лечения, которые разрабатываются центром, планируется включить в программу ОМС. Также Михаил Мишустин встретился с почетными донорами России и сообщил о выделении 12,5 млрд рублей на ежегодные выплаты таким донорам.

Правительство разработало законопроект, который позволяет оформлять региональные меры поддержки через Социальный фонд. Речь идет о региональном материнском капитале, пособиях ветеранам труда, компенсации проезда в электричках для школьников.

Правительство России

22 Mar at 4:11 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

Российские колледжи и вузы будут готовить кадры, которые позволят стране добиться технологической независимости. Правительство утвердило список из более 500 профессий и специальностей, необходимых для достижения технологического лидерства.

Совокупная мощность отечественных суперкомпьютеров к 2030 году увеличится в 10 раз. Для достижения этой цели Правительство утвердило «дорожную карту» по развитию высокопроизводительных вычислений и суперкомпьютеров.

Михаил Мишустин посетил Национальный медицинский исследовательский центр гематологии. Здесь успешно лечат заболевания крови, которые еще совсем недавно считались неизлечимыми. Инновационные методы лечения, которые разрабатываются центром, планируется включить в программу ОМС. Также Михаил Мишустин встретился с почетными донорами России и сообщил о выделении 12,5 млрд рублей на ежегодные выплаты таким донорам.

Правительство разработало законопроект, который позволяет оформлять региональные меры поддержки через Социальный фонд. Речь идет о региональном материнском капитале, пособиях ветеранам труда, компенсации проезда в электричках для школьников.

KUMA FOLD

Presidence du Mali

Le Conseil des Ministres s'est réuni en session ordinaire, le mercredi 25 mars 2026, dans sa salle de délibérations au Palais de Koulouba, sous la présidence du Général d'Armée Assimi GOITA, Président de la Transition, Chef de l'Etat.

Le communiqué du Conseil des Ministres du 25 mars 2026, présidé par le Général d'Armée Assimi GOITA, détaille plusieurs décisions clés pour la transition au Mali.

Voici l'essentiel à retenir :

1. Environnement et Assainissement

Le gouvernement a officiellement approuvé la Politique nationale d'Assainissement (2026-2030). L'objectif est d'améliorer le cadre de vie des Maliens par un accès équitable et durable à des services d'assainissement modernes, s'inscrivant dans la vision "Mali Kura".

2. Sécurité : Nouveaux numéros d'urgence

Pour faciliter les interventions et le signalement des incidents, des numéros verts gratuits à trois chiffres (plus faciles à mémoriser) sont mis en service :

101 : Police nationale

111 : Gendarmerie na

122 : Protection civile

145 : Garde nationale

(Autres : 133 pour les

3. Économie et Géopolitique

Face aux tensions au Moyen

riposte en 10 axes. Ce plan vise à sécuriser l'approvisionnement du pays en produits de première nécessité et à protéger les secteurs stratégiques contre l'inflation ou les pénuries.

4. Vie sociale et Santé

Bilan Ramadan 2026 : L'opération de vente promotionnelle de bétail a été un succès avec plus de 99 % des bovins vendus (soit 4 074 têtes), facilitant l'accès à la viande pour les populations.

Santé : Une baisse des cas de dengue est notée, bien que le Chef de l'État appelle à maintenir la vigilance sur les mesures de prévention.

145 : Garde nationale

(Autres : 133 pour les armes légères, 135 pour les stupéfiants, 144 pour la gestion des crises).

3. Économie et Géopolitique

Face aux tensions au Moyen-Orient (Détroit d'Ormuz) qui menacent le commerce mondial, le gouvernement a élaboré un Plan de riposte en 10 axes. Ce plan vise à sécuriser l'approvisionnement du pays en produits de première nécessité et à protéger les secteurs stratégiques contre l'inflation ou les pénuries.

4. Vie sociale et Santé

Bilan Ramadan 2026 : L'opération de vente promotionnelle de bétail a été un succès avec plus de 99 % des bovins vendus (soit 4 074 têtes), facilitant l'accès à la viande pour les populations.

Santé : Une baisse des cas de dengue est notée, bien que le Chef de l'État appelle à maintenir la vigilance sur les mesures de prévention.

Oui, la France cultive des pastèques, principalement dans le sud-est (PACA, Occitanie) et en Corse, avec une production d'environ tonnes en 2024. La culture se développe également au nord de la Loire grâce aux étés chauds. La récolte a lieu de juillet à septembre, avec des variétés comme la Sugar Baby

KUMA FɔLD

Presidence Mali

Le Conseil des Ministres s'est réuni en session ordinaire, le mercredi 18 mars 2026, dans sa salle de délibérations au Palais de Koulouba, sous la présidence du Général d'Armée Assimi GOITA, Président de la Transition, Chef de l'Etat.

Voici une synthèse des points clés à retenir de ce Conseil des Ministres :

1. Diplomatie : Modernisation de la carte organique

Le gouvernement a adopté plusieurs décrets pour fixer le cadre organique (les effectifs et l'organisation) de ses représentations à l'étranger. Sont concernées les ambassades à Beijing, Berlin, Kigali, Rome, Le Caire, Moscou et le consulat général à Paris. L'objectif est de corriger les insuffisances des textes de 2018 et de planifier les besoins en personnel pour les 5 prochaines années.

2. Mines et Économie : L'or au cœur des décisions

Extension de permis : La société Roscan Gold Mali SARL voit sa surface de recherche à Kandiolé-Nord (Kéniéba) passer de 28 km² à 63,4 km².

Création de l'Office Malien des Substances Précieuses : C'est une mesure majeure. Face au décalage entre les statistiques officielles et les exportations réelles (notamment l'orpaillage qui représente 6 tonnes sur les 72 produites en 2022), cet office doit réguler, centraliser et sécuriser la commercialisation pour renforcer la souveraineté économique de l'État.

3. Infrastructures et Développement Rural

Agriculture : Déclaration d'utilité publique pour la réhabilitation des plaines rizicoles de Korioumé, Daye et Hamadja (Tombouctou). Cela implique des expropriations nécessaires pour étendre les zones de culture.

Transport : Travaux sur le corridor Bamako-Dakar par le Nord, spécifiquement les tronçons Didiéni-Diéma-Sandaré (313 km) et Kayes-Diboli (96,5 km).

4. Entrepreneuriat et Prospective

Le gouvernement lance la Stratégie nationale de l'Entrepreneuriat 2026-2030. Elle vise à lever les verrous structurels (financement, formation) pour les jeunes et les femmes, s'inscrivant dans la vision à long terme "Mali Kura".

5. Agenda International et Santé

OMC : Le Mali participera à la 14ème Conférence ministérielle à Yaoundé (fin mars 2026). Le ministre de l'Industrie y portera la voix du groupe "C4+Côte d'Ivoire" sur la question stratégique du coton.

Tourisme : Annonce de la 5ème édition du Salon International du Tourisme de Bamako pour octobre 2026.

Santé : Une alerte est maintenue sur la dengue, dont le nombre de cas est en augmentation.

KUMA FOLLO

Presidence Mali

Le Conseil des Ministres s'est réuni en session ordinaire, le mercredi 18 mars 2026, dans sa salle de délibérations au Palais de Koulouba, sous la présidence du Général d'Armée Assimi GOITA, Président de la Transition, Chef de l'Etat.

Voici une synthèse des points clés à retenir de ce Conseil des Ministres :

1. Diplomatie : Modernisation de la carte organique
Le gouvernement a adopté plusieurs décrets pour fixer le cadre organique (les effectifs et l'organisation) de ses représentations à l'étranger. Sont concernées les ambassades à Beijing, Berlin, Kigali, Rome, Le Caire, Moscou et le consulat général à Paris. L'objectif est de corriger les insuffisances des textes de 2018 et de planifier les besoins en personnel pour les 5 prochaines années.

2. Mines et Économie : L'or au cœur des décisions
Extension de permis : La société Roscan Gold Mali SARL voit sa surface de recherche à Kandiolé-Nord (Kéniéba) passer de 28 km² à 63,4 km².

Création de l'Office Malien des Substances Précieuses : C'est une mesure majeure. Face au décalage entre les statistiques officielles et les exportations réelles (notamment l'orpaillage qui représente 6 tonnes sur les 72 produites en 2022), cet office doit réguler, centraliser et sécuriser la commercialisation pour renforcer la souveraineté économique de l'État.

3. Infrastructures et Développement Rural
Agriculture : Déclaration d'utilité publique pour la réhabilitation des plaines rizicoles de Korioumé, Daye et Hamadja (Tombouctou). Cela implique des expropriations nécessaires pour étendre les zones de culture.

Transport : Travaux sur le corridor Bamako-Dakar par le Nord, spécifiquement les tronçons Didiéni-Diéma-Sandaré (313 km) et Kayes-Diboli (96,5 km).

4. Entrepreneuriat et Prospective
Le gouvernement lance la Stratégie nationale de l'Entrepreneuriat 2026-2030. Elle vise à lever les verrous structurels (financement, formation) pour les jeunes et les femmes, s'inscrivant dans la vision à long terme "Mali Kura".

5. Agenda International et Santé
OMC : Le Mali participera à la 14ème Conférence ministérielle à Yaoundé (fin mars 2026). Le ministre de l'Industrie y portera la voix du groupe "C4+Côte d'Ivoire" sur la question stratégique du coton.

Tourisme : Annonce de la 5ème édition du Salon International du Tourisme de Bamako pour octobre 2026.

Santé : Une alerte est maintenue sur la dengue, dont le nombre de cas est en augmentation.

BAMANANKAN NA

Mali Présidence

Minisiriw ka tɔnba ye ɗɗɔɗɔ laje gansan na arabadon marisikalo tile 18 san 2026, a ka hakilijagabɔso ɗɗɔ Koulouba masaso ɗɗɔ, ɗɗɔɗɔɗɔ jenerali Assimi GOITA ka ɲemɗɗɔya ɗɗɔ, n'o ye wuliliko ɲemɗɗɔ ye, jamanakuntigi.

Правительство России

15 Mar at 4:26 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

Занятия спортом станут доступнее для работающих граждан – за счет государственных средств в организациях и компаниях будут создаваться спортивные клубы с современным инвентарем, проводиться турниры и соревнования среди сотрудников.

Российские полярники продолжают исследования в малоизученных районах Антарктиды. Правительство утвердило документы, необходимые для работы российской антарктической экспедиции в ближайшие 3 года.

Туристам вернут деньги за отмененные туры на Ближний Восток. Решение касается туров, которые должны были начаться в период с 28 февраля по 31 марта. Для возврата средств туроператоры смогут воспользоваться фондом персональной ответственности, который формируется из регулярных платежей участников рынка.

Вручены премии Правительства в области туризма за 2025 год. Среди лауреатов – туристический проект в Дагестане, инициативы путешествий для ветеранов СВО и их семей, людей с ограниченными возможностями здоровья, проект по развитию промышленного туризма, а также инновационные и образовательные инициативы.

В ближайшие 3 года будут модернизированы почти 1 тыс. почтовых отделений в сельской местности и отдаленных районах. На эти цели Правительство выделило 5 млрд рублей.

Правительство России

15 Mar at 4:26 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

Занятия спортом станут доступнее для работающих граждан – за счет государственных средств в организациях и компаниях будут создаваться спортивные клубы с современным инвентарем, проводиться турниры и соревнования среди сотрудников.

Российские полярники продолжают исследования в малоизученных районах Антарктиды. Правительство утвердило документы, необходимые для работы российской антарктической экспедиции в ближайшие 3 года.

Туристам вернут деньги за отмененные туры на Ближний Восток. Решение касается туров, которые должны были начаться в период с 28 февраля по 31 марта. Для возврата средств туроператоры смогут воспользоваться фондом персональной ответственности, который формируется из регулярных платежей участников рынка.

Вручены премии Правительства в области туризма за 2025 год. Среди лауреатов – туристический проект в Дагестане, инициативы путешествий для ветеранов СВО и их семей, людей с ограниченными возможностями здоровья, проект по развитию промышленного туризма, а также инновационные и образовательные инициативы.

В ближайшие 3 года будут модернизированы почти 1 тыс. почтовых отделений в сельской местности и отдаленных районах. На эти цели Правительство выделило 5 млрд рублей.

KUMA FɔLD

Presidence du Mali

En images : Aïd El-Fitr : cérémonie de prière au palais de Koulouba.

Interview du Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, Chef de l'Etat.

Voici une synthèse des points clés à retenir de ce Conseil des Ministres :

1. Diplomatie : Modernisation de la carte organique

Le gouvernement a adopté plusieurs décrets pour fixer le cadre organique (les effectifs et l'organisation) de ses représentations à l'étranger. Sont concernées les ambassades à Beijing, Berlin, Kigali, Rome, Le Caire, Moscou et le consulat général à Paris. L'objectif est de corriger les insuffisances des textes de 2018 et de planifier les besoins en personnel pour les 5 prochaines années.

2. Mines et Économie : L'or au cœur des décisions

Extension de permis : La société Roscan Gold Mali SARL voit sa surface de recherche à Kandiolé-Nord (Kéniéba) passer de 28 km² à 63,4 km².

Création de l'Office Malien des Substances Précieuses : C'est une mesure majeure. Face au décalage entre les statistiques officielles et les exportations réelles (notamment l'orpaillage qui représente 6 tonnes sur les 72 produites en 2022), cet office doit réguler, centraliser et sécuriser la commercialisation pour renforcer la souveraineté économique de l'État.

3. Infrastructures et Développement Rural

Agriculture : Déclaration d'utilité publique pour la réhabilitation des plaines rizicoles de Korioumé, Daye et Hamadja (Tombouctou). Cela implique des expropriations nécessaires pour étendre les zones de culture.

Transport : Travaux sur le corridor Bamako-Dakar par le Nord, spécifiquement les tronçons Didiéni-Diéma-Sandaré (313 km) et Kayes-Diboli (96,5 km).

4. Entrepreneuriat et Prospective

Le gouvernement lance la Stratégie nationale de l'Entrepreneuriat 2026-2030. Elle vise à lever les verrous structurels (financement, formation) pour les jeunes et les femmes, s'inscrivant dans la vision à long terme "Mali Kura".

5. Agenda International et Santé

OMC : Le Mali participera à la 14^{ème} Conférence ministérielle à Yaoundé (fin mars 2026). Le ministre de l'Industrie y portera la voix du groupe "C4+Côte d'Ivoire" sur la question stratégique du coton.

Tourisme : Annonce de la 5ème édition du Salon International du Tourisme de Bamako pour octobre 2026.

Santé : Une alerte est maintenue sur la dengue, dont le nombre de cas est en augmentation.

BAMANANKAN NA

KUMA FɔLD

Voici une synthèse des points clés à retenir de ce Conseil des Ministres :

1. Diplomatie : Modernisation de la carte organique

Le gouvernement a adopté plusieurs décrets pour fixer le cadre organique (les effectifs et l'organisation) de ses représentations à l'étranger. Sont concernées les ambassades à Beijing, Berlin, Kigali, Rome, Le Caire, Moscou et le consulat général à Paris. L'objectif est de corriger les insuffisances des textes de 2018 et de planifier les besoins en personnel pour les 5 prochaines années.

2. Mines et Économie : L'or au cœur des décisions

Extension de permis : La société Roscan Gold Mali SARL voit sa surface de recherche à Kandiolé-Nord (Kéniéba) passer de 28 km² à 63,4 km².

Création de l'Office Malien des Substances Précieuses : C'est une mesure majeure. Face au décalage entre les statistiques officielles et les exportations réelles (notamment l'orpillage qui représente 6 tonnes sur les 72 produites en 2022), cet office doit réguler, centraliser et sécuriser la commercialisation pour renforcer la souveraineté économique de l'État.

3. Infrastructures et Développement Rural

Agriculture : Déclaration d'utilité publique pour la réhabilitation des plaines rizicoles de Korioumé, Daye et Hamadja (Tombouctou). Cela implique des expropriations nécessaires pour étendre les zones de culture.

Transport : Travaux sur le corridor Bamako-Dakar par le Nord, spécifiquement les tronçons Didiéni-Diéma-Sandaré (313 km) et Kaves-Diboli (96,5 km).

4. Entrepreneuriat et Prospective

Le gouvernement lance la Stratégie nationale de l'Entrepreneuriat 2026-2030. Elle vise à lever les verrous structurels (financement, formation) pour les jeunes et les femmes, s'inscrivant dans la vision à long terme "Mali Kura".

5. Agenda International et Santé

OMC : Le Mali participera à la 14ème Conférence ministérielle à Yaoundé (fin mars 2026). Le ministre de l'Industrie y portera la voix du groupe "C4+Côte d'Ivoire" sur la question stratégique du coton.

Tourisme : Annonce de la 5ème édition du Salon International du Tourisme de Bamako pour octobre 2026.

Santé : Une alerte est maintenue sur la dengue, dont le nombre de cas est en augmentation.

BAMANANKAN NA

Nin ye hakilina ꠊꠊꠊꠊꠊꠊ ye minnu ka kan ka to an hakili la ka bo nin Minisiriw ka tɔnba in na:

1. Diplomasi : Karta biologiki ka binədimi

Gofarmanaman ye sariya caman ta walasa k'a ka lasigidenw ka sigida organique (baarakelaw ni u labenni) sigi senkan jamana bakwai. O jasinneen be lasigidensow ma minnu be Pekin, Berelin, Kigali, Rome, Kayira, Moskow ani lasigidensoba min be Pari. Lanini ye ka san 2018 sekenw dafabalawa latilen ani ka baarakelaw magow boloda san 5 nataw kow.

2. Μινερω νι σάρκο: Σανυ βε latigew κόντ

Permis janyaa : Sosiyete Roscan Gold Mali SARL b'a ye ko a ka jininikeyɔɔɔ be Kandiolé-Nord (Kéniéba) ka bo kilometeɛ 28 na se kilometeɛ 63,4 ma.

Mali ka biro min be fen nafamaw ko la, o dabɓi: Nin ye feereba ye. KUMA FOLD

Emmanuel Macron

Je viens de m'entretenir avec le Président iranien Massoud Pezeshkian.

Je l'ai appelé à mettre fin immédiatement aux attaques inacceptables que l'Iran mène contre les pays de la région, qu'elles soient directes ou via des proxies, comme au Liban et en Irak. Je lui ai rappelé que la France intervient dans un cadre strictement défensif de protection de ses intérêts, de ses partenaires régionaux et en faveur de la liberté de navigation, et qu'il est inadmissible que notre pays soit ciblé.

L'escalade incontrôlée à laquelle nous assistons plonge toute la région dans un chaos aux conséquences majeures aujourd'hui et pour les années à venir. Les populations, en Iran comme partout dans la région, en sont les victimes.

Seul un nouveau cadre politique et sécuritaire permettra d'assurer la paix et la sécurité pour tous. Un tel cadre doit garantir que l'Iran ne se dote jamais de l'arme nucléaire tout en traitant les menaces posées par son programme balistique ainsi que par ses activités de déstabilisation régionales et internationales.

La liberté de navigation dans le détroit d'Ormuz doit être rétablie au plus vite.

J'ai également exhorté le Président iranien à permettre au plus vite à Cécile Kohler et Jacques Paris de rentrer en France en sécurité. Leur calvaire n'a que trop duré et leur place est parmi les leurs.

Fonds minier de développement local : remise de chèques géants aux collectivités territoriales

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, Chef de l'État, a présidé la cérémonie de remise symbolique des chèques géants du Fonds minier de développement local à neuf (09) communes sélectionnées. Cette cérémonie, qui a enregistré la présence du Premier ministre, du Président du Conseil national de Transition, du ministre de l'Administration territoriale et de la Décentralisation, du ministre des Mines, de celui de l'Économie et des Finances ainsi que des membres du Gouvernement et des autorités administratives et indépendantes, tout comme du ministre commissaire chargé des questions minières, s'est tenue au palais de Koulouba, ce jeudi 12 mars 2026.

Le Président de la Transition a saisi l'occasion pour féliciter le Gouvernement pour avoir mis en œuvre cette recommandation des Assises nationales de la Refondation. « Nous sommes très heureux et très satisfaits d'avoir concrétisé ce vœu du peuple malien », a-t-il déclaré dans une interview accordée à la presse à l'issue de la cérémonie.

Au total, pour l'exercice 2025, le Fonds minier de développement local s'élève à plus de dix-huit milliards quatre cents millions (18 400 000 000) de FCFA, a expliqué M. le ministre d'État, ministre de l'Économie et des Finances, M. Alousséni SANOU. La redistribution de ce fonds a été effectuée à l'issue de la première réunion du Comité de suivi du fonds minier, le 2 mars dernier, conformément aux dispositions de l'Arrêté interministériel n°2025-0292/MEF-MM-MATD-SG du 27 février 2026, qui fixe la péréquation des ressources du Fonds minier de développement local revenant à chaque collectivité territoriale, a expliqué le ministre SANOU. Il a expliqué aussi la provenance de ce fonds qui constitue la contribution des titulaires de titres miniers d'exploitation de mines et des bénéficiaires d'autorisations industrielles de substances de carrières.

Conformément à ce dispositif de redistribution, 50 % reviennent aux communes affectées de la zone minière ; 25 % aux autres collectivités territoriales de la zone minière ; et les 25 % restants aux collectivités territoriales des autres régions du Mali. Cette clé de répartition, souligne le ministre d'État SANOU, « respecte le principe de justice territoriale ». La remise de chèques constitue une matérialisation manifeste de la volonté de l'État d'accompagner les collectivités locales. Il les exhorte à faire un usage judicieux de ce fonds dans des projets structurants, dont le suivi sera régulier.

Cette remise symbolique a concerné les régions de Kayes, Koulikoro, Sikasso, Bougouni, Kita, Tombouctou, San, Gao et Kidal. Mais il est à souligner que ce fonds collecté est réparti entre l'ensemble des 819 communes du Mali.

Après la remise des chèques géants, le porte-parole des bénéficiaires, M. Yéhia HA KONTA, maire de la commune rurale d'Alafia, dans la région de Tombouctou, a adressé ses vifs remerciements au Président de la Transition pour l'initiative de la relecture du Code minier et de l'élaboration d'un contenu local en 2023 afin de faire profiter toute la population malienne des retombées de l'exploitation minière. Cette redistribution des richesses minières est une traduction manifeste de l'engagement des autorités maliennes de la Transition pour le développement de l'ensemble des communes du Mali. Elle donne espoir à toutes les collectivités. Cette dynamique, a précisé l' élu communal, favorise l'émulation entre les collectivités. Il a donné l'engagement ferme qu'une utilisation judicieuse sera faite des fonds reçus.

Avec ce fonds, le Chef de l'État espère des résultats tangibles à travers l'amélioration des conditions de vie des populations grâce aux projets structurants qui verront le jour. Ce fonds devrait permettre de minimiser les impacts négatifs des exploitations minières sur les populations. Le Président GOÏTA a donc expliqué le dispositif mis en place pour la réalisation et le suivi des projets structurants, grâce aux trois filtres instaurés : le comité communal, le comité régional et le comité national. « Un changement notoire devrait être observé dans la vie des communes », espère le Chef de l'État, avant d'indiquer que le Fonds minier devrait permettre aussi de « donner un nouveau visage aux communes ».

Le Président de la Transition rassure de l'existence d'un mécanisme de suivi de l'utilisation de l'argent reçu par les communes. « Ce fonds sera utilisé à bon escient », assure-t-il, car son « objectif est le bien-être des populations ». Les comités communal, régional et national permettront un suivi régulier de l'utilisation de ce fonds. « Tout manquement fera l'objet de procédures judiciaires », conformément à l'engagement des autorités maliennes dans la lutte contre la corruption.

Fonds minier de développement local : remise de chèques géants aux collectivités territoriales

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, Chef de l'État, a présidé la cérémonie de remise

symbolique des chèques géants du Fonds minier de développement local à neuf (09) communes sélectionnées. Cette cérémonie, qui a enregistré la présence du Premier ministre, du Président du Conseil national de Transition, du ministre de l'Administration territoriale et de la Décentralisation, du ministre des Mines, de celui de l'Économie et des Finances ainsi que des membres du Gouvernement et des autorités administratives et indépendantes, tout comme du ministre commissaire chargé des questions minières, s'est tenue au palais de Koulouba, ce jeudi 12 mars 2026.

Le Président de la Transition a saisi l'occasion pour féliciter le Gouvernement pour avoir mis en œuvre cette recommandation des Assises nationales de la Refondation. « Nous sommes très heureux et très satisfaits d'avoir concrétisé ce vœu du peuple malien », a-t-il déclaré dans une interview accordée à la presse à l'issue de la cérémonie.

An total, pour l'exercice 2025, le Fonds minier de développement local s'élève à plus de dix-huit milliards quatre cents millions (18 400 000 000) de FCFA, a expliqué M. le ministre d'État, ministre de l'Économie et des Finances, M. Alousséni SANOU. La redistribution de ce fonds a été effectuée à l'issue de la première réunion du Comité de suivi du fonds minier, le 2 mars dernier, conformément aux dispositions de l'Arrêté interministériel n°2025-0292/MEF-MM-MATD-SG du 27 février 2026, qui fixe la péréquation des ressources du Fonds minier de développement local revenant à chaque collectivité territoriale, a expliqué le ministre SANOU. Il a expliqué aussi la provenance de ce fonds qui constitue la contribution des titulaires de titres miniers d'exploitation de mines et des bénéficiaires d'autorisations industrielles de substances de carrières.

Conformément à ce dispositif de redistribution, 50 % reviennent aux communes affectées de la zone minière ; 25 % aux autres collectivités territoriales de la zone minière ; et les 25 % restants aux collectivités territoriales des autres régions du Mali. Cette clé de répartition, souligne le ministre d'État SANOU, « respecte le principe de justice territoriale ». La remise de chèques constitue une matérialisation manifeste de la volonté de l'État d'accompagner les collectivités locales. Il les exhorte à faire un usage judicieux de ce fonds dans des projets structurants, dont le suivi sera régulier.

Cette remise symbolique a concerné les régions de Kayes, Koulikoro, Sikasso, Bougouni, Kita, Tombouctou, San, Gao et Kidal. Mais il est à souligner que ce fonds collecté est réparti entre l'ensemble des 819 communes du Mali.

Après la remise des chèques géants, le porte-parole des bénéficiaires, M. Yéhia HA KONTA, maire de la commune rurale d'Alafia, dans la région de Tombouctou, a adressé ses vifs remerciements au Président de la Transition pour l'initiative de la relecture du Code minier et de l'élaboration d'un contenu local en 2023 afin de faire profiter toute la population malienne des retombées de l'exploitation minière. Cette redistribution des richesses minières est une traduction manifeste de l'engagement des autorités maliennes de la Transition pour le développement de l'ensemble des communes du Mali. Elle donne espoir à toutes les collectivités. Cette dynamique, a précisé l'élu communal, favorise l'émulation entre les collectivités. Il a donné l'engagement ferme qu'une utilisation judicieuse sera faite des fonds reçus.

Avec ce fonds, le Chef de l'État espère des résultats tangibles à travers l'amélioration des conditions de vie des populations grâce aux projets structurants qui verront le jour. Ce fonds devrait permettre de minimiser les impacts négatifs des exploitations minières sur les populations. Le Président GOÏTA a donc expliqué le dispositif mis en place pour la réalisation et le suivi des projets structurants, grâce aux trois filtres instaurés : le comité communal, le comité régional et le comité national. « Un changement notoire devrait être observé dans la vie des communes », espère le Chef de l'État, avant d'indiquer que le Fonds minier devrait permettre aussi de « donner un nouveau visage aux communes ».

Le Président de la Transition rassure de l'existence d'un mécanisme de suivi de l'utilisation de l'argent reçu par les communes. « Ce fonds sera utilisé à bon escient », assure-t-il, car son « objectif est le bien-être des populations ». Les comités communal, régional et national permettront un suivi régulier de l'utilisation de ce fonds. « Tout manquement fera l'objet de procédures judiciaires », conformément à l'engagement des autorités maliennes dans la lutte contre la corruption.

Fonds minier de développement local : remise de chèques géants aux collectivités territoriales

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, Chef de l'État, a présidé la cérémonie de remise symbolique des chèques géants du Fonds minier de développement local à neuf (09) communes sélectionnées. Cette cérémonie, qui a enregistré la présence du Premier ministre, du Président du Conseil national de Transition, du ministre de l'Administration territoriale et de la Décentralisation, du ministre des Mines, de celui de l'Économie et des Finances ainsi que des membres du Gouvernement et des autorités administratives et indépendantes, tout comme du ministre commissaire chargé des questions minières, s'est tenue au palais de Koulouba, ce jeudi 12 mars 2026.

Le Président de la Transition a saisi l'occasion pour féliciter le Gouvernement pour avoir mis en œuvre cette recommandation des Assises nationales de la Refondation. « Nous sommes très heureux et très satisfaits d'avoir concrétisé ce vœu du peuple malien », a-t-il déclaré dans une interview accordée à la presse à l'issue de la cérémonie.

Au total, pour l'exercice 2025, le Fonds minier de développement local s'élève à plus de dix-huit milliards quatre cents millions (18 400 000 000) de FCFA, a expliqué M. le ministre d'État, ministre de l'Économie et des Finances, M. Alousséni SANOU. La redistribution de ce fonds a été effectuée à l'issue de la première réunion du Comité de suivi du fonds minier, le 2 mars dernier, conformément aux dispositions de l'Arrêté interministériel n°2025-0292/MEF-MM-MATD-SG du 27 février 2026, qui fixe la péréquation des ressources du Fonds minier de développement local revenant à chaque collectivité territoriale, a expliqué le ministre SANOU. Il a expliqué aussi la provenance de ce fonds qui constitue la contribution des titulaires de titres miniers d'exploitation de mines et des bénéficiaires d'autorisations industrielles de substances de carrières.

Conformément à ce dispositif de redistribution, 50 % reviennent aux communes affectées de la zone minière ; 25 % aux autres collectivités territoriales de la zone minière ; et les 25 % restants aux collectivités territoriales des autres régions du Mali. Cette clé de répartition, souligne le ministre d'État SANOU, « respecte le principe de justice territoriale ». La remise de chèques constitue une matérialisation manifeste de la volonté de l'État d'accompagner les collectivités locales. Il les exhorte à faire un usage judicieux de ce fonds dans des projets structurants, dont le suivi sera régulier.

Cette remise symbolique a concerné les régions de Kayes, Koulikoro, Sikasso, Bougouni, Kita, Tombouctou, San, Gao et Kidal. Mais il est à souligner que ce fonds collecté est réparti entre l'ensemble des 819 communes du Mali.

Après la remise des chèques géants, le porte-parole des bénéficiaires, M. Yéhia HA KONTA, maire de la commune rurale d'Alafia, dans la région de Tombouctou, a adressé ses vifs remerciements au Président de la Transition pour l'initiative de la relecture du Code minier et de l'élaboration d'un contenu local en 2023 afin de faire profiter toute la population malienne des retombées de l'exploitation minière. Cette redistribution des richesses minières est une traduction manifeste de l'engagement des autorités maliennes de la Transition pour le développement de l'ensemble des communes du Mali. Elle donne espoir à toutes les collectivités. Cette dynamique, a précisé l' élu communal, favorise l'émulation entre les collectivités. Il a donné l'engagement ferme qu'une utilisation judicieuse sera faite des fonds reçus.

Avec ce fonds, le Chef de l'État espère des résultats tangibles à travers l'amélioration des conditions de vie des populations grâce aux projets structurants qui verront le jour. Ce fonds devrait permettre de minimiser les impacts négatifs des exploitations minières sur les populations. Le Président GOÏTA a donc expliqué le dispositif mis en place pour la réalisation et le suivi des projets structurants, grâce

aux trois filtres instaurés : le comité communal, le comité régional et le comité national. « Un changement notoire devrait être observé dans la vie des communes », espère le Chef de l'État, avant d'indiquer que le Fonds minier devrait permettre aussi de « donner un nouveau visage aux communes ».

Le Président de la Transition rassure de l'existence d'un mécanisme de suivi de l'utilisation de l'argent reçu par les communes. « Ce fonds sera utilisé à bon escient », assure-t-il, car son « objectif est le bien-être des populations ». Les comités communal, régional et national permettront un suivi régulier de l'utilisation de ce fonds. « Tout manquement fera l'objet de procédures judiciaires », conformément à l'engagement des autorités maliennes dans la lutte contre la corruption.

Presidence Mali

Le Conseil des Ministres s'est réuni en session ordinaire, le mercredi 11 mars 2026, dans sa salle de délibérations au Palais de Koulouba, sous la présidence du Général d'Armée Assimi GOITA, Président de la Transition, Chef de l'Etat.

C'est un compte-rendu très complet. Ce Conseil des Ministres du 11 mars 2026, présidé par le Général d'Armée Assimi GOITA, met en lumière une volonté de structurer la souveraineté du Mali à travers plusieurs piliers : la sécurité des ressources, la gestion climatique et le rayonnement culturel.

Voici une synthèse des points clés pour faciliter votre lecture :

1. Sécurité et Économie : La création d'une "Police des Mines"

C'est sans doute la mesure phare. Pour lutter contre l'orpaillage clandestin et le trafic de minéraux qui financent souvent l'insécurité, le gouvernement crée la Brigade spéciale des Mines.

Mission : Pouvoir de police judiciaire pour traquer l'exploitation illégale et protéger l'environnement (usage de produits chimiques interdits).

Enjeu : Sécuriser les revenus de l'État dans un secteur vital pour l'économie nationale.

2. Souveraineté et Climat

Le Conseil a validé le Plan stratégique de Développement de la Météorologie (2026-2030). L'idée est de ne plus subir les aléas climatiques mais de les anticiper pour protéger l'agriculture et les infrastructures critiques.

3. Solidarité Sociale à Koutiala

Une décision concrète pour les populations de Koumbé : l'affectation d'un terrain de plus de 92 hectares pour reloger les habitants victimes d'inondations récurrentes. C'est une mesure directe d'urbanisme préventif.

4. Coopération Régionale et Lutte contre la Corruption

Malgré le contexte de la Confédération des États du Sahel (AES), le Mali maintient son adhésion au GIABA (Lutte contre le blanchiment en Afrique de l'Ouest).

Une Évaluation nationale des risques débutera le 20 mars 2026 pour préparer l'examen international de 2027.

5. Culture et Rayonnement

Cinéma : Une tournée pour le film documentaire sur l'écrivain Yambo Ouologuem (Prix Renaudot 1968), visant à réhabiliter cette figure majeure de la littérature malienne.

Artisanat : Bamako s'apprête à accueillir la 12ème Conférence des ministres de l'Artisanat africain, renforçant le leadership du pays dans ce secteur.

Note sur la santé : Le communiqué note une amélioration sur le front de la dengue, bien que la vigilance reste de mise selon les instructions du Chef de l'État.

BAMANANKAN NA

KUMA FOLD

Presidence Mali

Le Conseil des Ministres s'est réuni en session ordinaire, le mercredi 11 mars 2026, dans sa salle de délibérations au Palais de Koulouba, sous la présidence du Général d'Armée Assimi GOITA, Président de la Transition, Chef de l'Etat.

C'est un compte-rendu très complet. Ce Conseil des Ministres du 11 mars 2026, présidé par le Général d'Armée Assimi GOITA, met en lumière une volonté de structurer la souveraineté du Mali à travers plusieurs piliers : la sécurité des ressources, la gestion climatique et le rayonnement culturel.

Voici une synthèse des points clés pour faciliter votre lecture :

1. Sécurité et Économie : La création d'une "Police des Mines"

C'est sans doute la mesure phare. Pour lutter contre l'orpaillage clandestin et le trafic de minéraux qui financent souvent l'insécurité, le gouvernement a créé la Brigade spéciale des Mines.

Mission : Pouvoir de police judiciaire pour traquer l'exploitation illégale et protéger l'environnement (usage de produits chimiques

interdits).

Enjeu : Sécuriser les revenus de l'État dans un secteur vital pour l'économie nationale.

2. Souveraineté et Climat

Le Conseil a validé le Plan stratégique de Développement de la Météorologie (2026-2030). L'idée est de ne plus subir les aléas climatiques mais de les anticiper pour protéger l'agriculture et les infrastructures critiques.

3. Solidarité Sociale à Koutiala

Une décision concrète pour les populations de Koumbé : l'affectation d'un terrain de plus de 92 hectares pour reloger les habitants victimes d'inondations récurrentes. C'est une mesure directe d'urbanisme préventif.

4. Coopération Régionale et Lutte contre la Corruption

Malgré le contexte de la Confédération des États du Sahel (AES), le Mali maintient son adhésion au GIABA (Lutte contre le blanchiment en Afrique de l'Ouest).

Une Évaluation nationale des risques débutera le 20 mars 2026 pour préparer l'examen international de 2027.

5. Culture et Ravonnement

Cinéma : Une tournée pour le film documentaire sur l'écrivain Yambo Ouologuem (Prix Renaudot 1968), visant à réhabiliter cette figure majeure de la littérature malienne.

Artisanat : Bamako s'apprête à accueillir la 12ème Conférence des ministres de l'Artisanat africain, renforçant le leadership du pays dans ce secteur.

Note sur la santé : Le communiqué note une amélioration sur le front de la dengue, bien que la vigilance reste de mise selon les instructions du Chef de l'État.

Правительство России

8 Mar at 4:00 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

С 1 апреля 2026 года социальные пенсии проиндексируют на 6,8%. Решение коснется свыше 4 млн человек. Повысятся также размеры выплат ветеранам Великой Отечественной войны, участникам добровольческих формирований в Донецкой и Луганской народных республиках, ликвидаторам аварии на Чернобыльской АЭС и другим категориям.

Правительство установит единые подходы внесения изменений в генпланы населенных пунктов и правила землепользования и застройки. Это позволит ускорить согласование и реализацию проектов по строительству и реконструкции важных объектов.

Утвержден план мероприятий по развитию природоподобных технологий. Такие технологии основаны на изучении образцов, объектов и процессов живой природы и применении их в медицине, энергетике, строительстве и других сферах.

В преддверии Международного женского дня Михаил Мишустин встретился с женщинами-руководителями, работающими в Правительстве, министерствах, ведомствах и структурных подразделениях аппарата Правительства, чтобы поздравить в их лице всех женщин страны с праздником.

KUMA FɔLD

Presidence du Mali
Koulouba/ le 12 mars 2026/ #fondsminier

Fonds minier de développement local : remise de chèques géants aux collectivités territoriales

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, Chef de l'État, a présidé la cérémonie de remise symbolique des chèques géants du Fonds minier de développement local à neuf (09) communes sélectionnées. Cette cérémonie, qui a enregistré la présence du Premier ministre, du Président du Conseil national de Transition, du ministre de l'Administration territoriale et de la Décentralisation, du ministre des Mines, de celui de l'Économie et des Finances ainsi que des membres du Gouvernement et des autorités administratives et indépendantes, tout comme du ministre commissaire chargé des questions minières, s'est tenue au palais de Koulouba, ce jeudi 12 mars 2026.

Le Président de la Transition a saisi l'occasion pour féliciter le Gouvernement pour avoir mis en œuvre cette recommandation des Assises nationales de la Refondation. « Nous sommes très heureux et très satisfaits d'avoir concrétisé ce vœu du peuple malien », a-t-il déclaré dans une interview accordée à la presse à l'issue de la cérémonie.

Au total, pour l'exercice 2025, le Fonds minier de développement local s'élève à plus de dix-huit milliards quatre cents millions (18 400 000 000) de FCFA, a expliqué M. le ministre d'État, ministre de l'Économie et des Finances, M. Alousséni SANOU. La redistribution de ce fonds a été effectuée à l'issue de la première réunion du Comité de suivi du fonds minier, le 2 mars dernier, conformément aux dispositions de l'Arrêté interministériel n°2025-0292/MEF-MM-MATD-SG du 27 février 2026, qui fixe la péréquation des ressources du Fonds minier de développement local revenant à chaque collectivité territoriale, a expliqué le ministre SANOU. Il a expliqué aussi la provenance de ce fonds qui constitue la contribution des titulaires de titres miniers d'exploitation de mines et des bénéficiaires d'autorisations industrielles de substances de carrières.

Conformément à ce dispositif de redistribution, 50 % reviennent aux communes affectées de la zone minière ; 25 % aux autres collectivités territoriales de la zone minière ; et les 25 % restants aux collectivités territoriales des autres régions du Mali. Cette clé de répartition, souligne le ministre d'État SANOU, « respecte le principe de justice territoriale ». La remise de chèques constitue une matérialisation manifeste de la volonté de l'État d'accompagner les collectivités locales. Il les exhorte à faire un usage judicieux de ce fonds dans des projets structurants, dont le suivi sera régulier.

Cette remise symbolique a concerné les régions de Kayes, Koulikoro, Sikasso, Bougouni, Kita, Tombouctou, San, Gao et Kidal. Mais il est à souligner que ce fonds collecté est réparti entre l'ensemble des 819 communes du Mali.

Après la remise des chèques géants, le porte-parole des bénéficiaires, M. Yéhia HA KONTA, maire de la commune rurale d'Alafia, dans la région de Tombouctou, a adressé ses vifs remerciements au Président de la Transition pour l'initiative de la relecture du Code minier et de l'élaboration d'un contenu local en 2023 afin de faire profiter toute la population malienne des retombées de l'exploitation minière. Cette redistribution des richesses minières est une traduction manifeste de l'engagement des autorités maliennes de la Transition pour le développement de l'ensemble des communes du Mali. Elle donne espoir à toutes les collectivités. Cette dynamique, a précisé l'élue communal, favorise l'émulation entre les collectivités. Il a donné l'engagement ferme qu'une utilisation judicieuse sera faite des fonds reçus.

Avec ce fonds, le Chef de l'État espère des résultats tangibles à travers l'amélioration des conditions de vie des populations grâce aux projets structurants qui verront le jour. Ce fonds devrait permettre de minimiser les impacts négatifs des exploitations minières sur les populations. Le Président GOÏTA a donc expliqué le dispositif mis en place pour la réalisation et le suivi des projets structurants, grâce aux trois filtres instaurés : le comité communal, le comité régional et le comité national. « Un changement notoire devrait être observé dans la vie des communes », espère le Chef de l'État, avant d'indiquer que le Fonds minier devrait permettre aussi de « donner un nouveau visage aux communes ».

Le Président de la Transition rassure de l'existence d'un mécanisme de suivi de l'utilisation de l'argent reçu par les communes. « Ce fonds sera utilisé à bon escient », assure-t-il, car son « objectif est le bien-être des populations ». Les comités communal, régional et national permettront un suivi régulier de l'utilisation de ce fonds. « Tout manquement fera l'objet de procédures judiciaires », conformément à l'engagement des autorités maliennes dans la lutte contre la corruption.

Presidence du Mali
Koulouba/ le 12 mars 2026/ #fondsminier

Fonds minier de développement local : remise de chèques géants aux collectivités territoriales

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, Chef de l'État, a présidé la cérémonie de remise symbolique des chèques géants du Fonds minier de développement local à neuf (09) communes sélectionnées. Cette cérémonie, qui a enregistré la présence du Premier ministre, du Président du Conseil national de Transition, du ministre de l'Administration territoriale et de la Décentralisation, du ministre des Mines, de celui de l'Économie et des Finances ainsi que des membres du Gouvernement et des autorités administratives et indépendantes, tout comme du ministre commissaire chargé des questions minières, s'est tenue au palais de Koulouba, ce jeudi 12 mars 2026.

Le Président de la Transition a saisi l'occasion pour féliciter le Gouvernement pour avoir mis en œuvre cette recommandation des Assises nationales de la Refondation. « Nous sommes très heureux et très satisfaits d'avoir concrétisé ce vœu du peuple malien », a-t-il déclaré dans une interview accordée à la presse à l'issue de la cérémonie.

Au total, pour l'exercice 2025, le Fonds minier de développement local s'élève à plus de dix-huit milliards quatre cents millions (18 400 000 000) de FCFA, a expliqué M. le ministre d'État, ministre de l'Économie et des Finances, M. Alousséni SANOU. La redistribution de ce fonds a été effectuée à l'issue de la première réunion du Comité de suivi du fonds minier, le 2 mars dernier, conformément aux dispositions de l'Arrêté interministériel n°2025-0292/MEF-MM-MATD-SG du 27 février 2026, qui fixe la péréquation des ressources du Fonds minier de développement local revenant à chaque collectivité territoriale, a expliqué le ministre SANOU. Il a expliqué aussi la provenance de ce fonds qui constitue la contribution des titulaires de titres miniers d'exploitation de mines et des bénéficiaires d'autorisations industrielles de substances de carrières.

Conformément à ce dispositif de redistribution, 50 % reviennent aux communes affectées de la zone minière ; 25 % aux autres collectivités territoriales de la zone minière ; et les 25 % restants aux collectivités territoriales des autres régions du Mali. Cette clé de répartition, souligne le ministre d'État SANOU, « respecte le principe de justice territoriale ». La remise de chèques constitue une matérialisation manifeste de la volonté de l'État d'accompagner les collectivités locales. Il les exhorte à faire un usage judicieux de ce fonds dans des projets structurants, dont le suivi sera régulier.

Cette remise symbolique a concerné les régions de Kayes, Koulikoro, Sikasso, Bougouni, Kita, Tombouctou, San, Gao et Kidal. Mais il est à souligner que ce fonds collecté est réparti entre l'ensemble des 819 communes du Mali.

Après la remise des chèques géants, le porte-parole des bénéficiaires, M. Yéhia HA KONTA, maire de la commune rurale d'Alafia, dans la région de Tombouctou, a adressé ses vifs remerciements au Président de la Transition pour l'initiative de la relecture du Code minier et de l'élaboration d'un contenu local en 2023 afin de faire profiter toute la population malienne des retombées de l'exploitation minière. Cette redistribution des richesses minières est une traduction manifeste de l'engagement des autorités maliennes de la Transition pour le développement de l'ensemble des communes du Mali. Elle donne espoir à toutes les collectivités. Cette dynamique, a précisé l'élu communal, favorise l'émulation entre les collectivités. Il a donné l'engagement ferme qu'une utilisation judicieuse sera faite des fonds reçus.

Avec ce fonds, le Chef de l'État espère des résultats tangibles à travers l'amélioration des conditions de vie des populations grâce aux projets structurants qui verront le jour. Ce fonds devrait permettre de minimiser les impacts négatifs des exploitations minières sur les populations. Le Président GOÏTA a donc expliqué le dispositif mis en place pour la réalisation et le suivi des projets structurants, grâce aux trois filtres instaurés : le comité communal, le comité régional et le comité national. « Un changement notoire devrait être observé dans la vie des communes », espère le Chef de l'État, avant d'indiquer que le Fonds minier devrait permettre aussi de « donner un nouveau visage aux communes ».

Le Président de la Transition rassure de l'existence d'un mécanisme de suivi de l'utilisation de l'argent reçu par les communes. « Ce fonds sera utilisé à bon escient », assure-t-il, car son « objectif est le bien-être des populations ». Les comités communal, régional et national permettront un suivi régulier de l'utilisation de ce fonds. « Tout manquement fera l'objet de procédures judiciaires », conformément à l'engagement des autorités maliennes dans la lutte contre la corruption.

Presidence du Mali
Koulouba/ le 12 mars 2026/ #fondsminier

Fonds minier de développement local : remise de chèques géants aux collectivités territoriales

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, Chef de l'État, a présidé la cérémonie de remise symbolique des chèques géants du Fonds minier de développement local à neuf (09) communes sélectionnées. Cette cérémonie, qui a enregistré la présence du Premier ministre, du Président du Conseil national de Transition, du ministre de l'Administration territoriale et de la Décentralisation, du ministre des Mines, de celui de l'Économie et des Finances ainsi que des membres du Gouvernement et des autorités administratives et indépendantes, tout comme du ministre commissaire chargé des questions minières, s'est tenue au palais de Koulouba, ce jeudi 12 mars 2026.

Le Président de la Transition a saisi l'occasion pour féliciter le Gouvernement pour avoir mis en œuvre cette recommandation des Assises nationales de la Refondation. « Nous sommes très heureux et très satisfaits d'avoir concrétisé ce vœu du peuple malien », a-t-il déclaré dans une interview accordée à la presse à l'issue de la cérémonie.

Au total, pour l'exercice 2025, le Fonds minier de développement local s'élève à plus de dix-huit milliards quatre cents millions (18 400 000 000) de FCFA, a expliqué M. le ministre d'État, ministre de l'Économie et des Finances, M. Alousséni SANOU. La redistribution de ce fonds a été effectuée à l'issue de la première réunion du Comité de suivi du fonds minier, le 2 mars dernier, conformément aux dispositions de l'Arrêté interministériel n°2025-0292/MEF-MM-MATD-SG du 27 février 2026, qui fixe la péréquation des ressources du Fonds minier de développement local revenant à chaque collectivité territoriale, a expliqué le ministre SANOU. Il a expliqué aussi la provenance de ce fonds qui constitue la contribution des titulaires de titres miniers d'exploitation de mines et des bénéficiaires d'autorisations industrielles de substances de carrières.

Conformément à ce dispositif de redistribution, 50 % reviennent aux communes affectées de la zone minière ; 25 % aux autres collectivités territoriales de la zone minière ; et les 25 % restants aux collectivités territoriales des autres régions du Mali. Cette clé de répartition, souligne le ministre d'État SANOU, « respecte le principe de justice territoriale ». La remise de chèques constitue une matérialisation manifeste de la volonté de l'État d'accompagner les collectivités locales. Il les exhorte à faire un usage judicieux de ce fonds dans des projets structurants, dont le suivi sera régulier.

Cette remise symbolique a concerné les régions de Kayes, Koulikoro, Sikasso, Bougouni, Kita, Tombouctou, San, Gao et Kidal. Mais il est à souligner que ce fonds collecté est réparti entre l'ensemble des 819 communes du Mali.

Après la remise des chèques géants, le porte-parole des bénéficiaires, M. Yéhia HA KONTA, maire de la commune rurale d'Alafia, dans la région de Tombouctou, a adressé ses vifs remerciements au Président de la Transition pour l'initiative de la relecture du Code minier et de l'élaboration d'un contenu local en 2023 afin de faire profiter toute la population malienne des retombées de l'exploitation minière. Cette redistribution des richesses minières est une traduction manifeste de l'engagement des autorités maliennes de la Transition pour le développement de l'ensemble des communes du Mali. Elle donne espoir à toutes les collectivités. Cette dynamique, a précisé l' élu communal, favorise l'émulation entre les collectivités. Il a donné l'engagement ferme qu'une utilisation judicieuse sera faite des fonds reçus.

Avec ce fonds, le Chef de l'État espère des résultats tangibles à travers l'amélioration des conditions de vie des populations grâce aux projets structurants qui verront le jour. Ce fonds devrait permettre de minimiser les impacts négatifs des exploitations minières sur les populations. Le Président GOÏTA a donc expliqué le dispositif mis en place pour la réalisation et le suivi des projets structurants, grâce aux trois filtres instaurés : le comité communal, le comité régional et le comité national. « Un changement notable devrait être observé dans la vie des communes », espère le Chef de l'État, avant d'indiquer que le Fonds minier devrait permettre aussi de « donner un nouveau visage aux communes ».

Le Président de la Transition rassure de l'existence d'un mécanisme de suivi de l'utilisation de l'argent reçu par les communes. « Ce fonds sera utilisé à bon escient », assure-t-il, car son « objectif est le bien-être des populations ». Les comités communal, régional et national permettront un suivi régulier de l'utilisation de ce fonds. « Tout manquement fera l'objet de procédures judiciaires », conformément à l'engagement des autorités maliennes dans la lutte contre la corruption.

Presidence Mali

Le Conseil des Ministres s'est réuni en session ordinaire, le mercredi 11 mars 2026, dans sa salle de délibérations au Palais de Koulouba, sous la présidence du Général d'Armée Assimi GOITA, Président de la Transition, Chef de l'Etat.

C'est un compte-rendu très complet. Ce Conseil des Ministres du 11 mars 2026, présidé par le Général d'Armée Assimi GOITA, met en lumière une volonté de structurer la souveraineté du Mali à travers plusieurs piliers : la sécurité des ressources, la gestion climatique et le rayonnement culturel.

Voici une synthèse des points clés pour faciliter votre lecture :

1. Sécurité et Économie : La création d'une "Police des Mines"
C'est sans doute la mesure phare. Pour lutter contre l'orpaillage clandestin et le trafic de minéraux qui financent souvent l'insécurité, le gouvernement crée la Brigade spéciale des Mines.

Mission : Pouvoir de police judiciaire pour traquer l'exploitation illégale et protéger l'environnement (usage de produits chimiques interdits).

Enjeu : Sécuriser les revenus de l'État dans un secteur vital pour l'économie nationale.

2. Souveraineté et Climat
Le Conseil a validé le Plan stratégique de Développement de la Météorologie (2026-2030). L'idée est de ne plus subir les aléas climatiques mais de les anticiper pour protéger l'agriculture et les infrastructures critiques.

3. Solidarité Sociale à Koutiala
Une décision concrète pour les populations de Koumbé : l'affectation d'un terrain de plus de 92 hectares pour reloger les habitants victimes d'inondations récurrentes. C'est une mesure directe d'urbanisme préventif.

4. Coopération Régionale et Lutte contre la Corruption
Malgré le contexte de la Confédération des États du Sahel (AES), le Mali maintient son adhésion au GIABA (Lutte contre le blanchiment en Afrique de l'Ouest).

Une Évaluation nationale des risques débutera le 20 mars 2026 pour préparer l'examen international de 2027.

5. Culture et Rayonnement
Cinéma : Une tournée pour le film documentaire sur l'écrivain Yambo Ouologuem (Prix Renaudot 1968), visant à réhabiliter cette figure majeure de la littérature malienne.

Artisanat : Bamako s'apprête à accueillir la 12ème Conférence des ministres de l'Artisanat africain, renforçant le leadership du pays dans ce secteur.

Note sur la santé : Le communiqué note une amélioration sur le front de la dengue, bien que la vigilance reste de mise selon les instructions du Chef de l'État.

Presidence Mali

Le Conseil des Ministres s’est réuni en session ordinaire, le mercredi 11 mars 2026, dans sa salle de délibérations au Palais de Koulouba, sous la présidence du Général d’Armée Assimi GOÏTA, Président de la Transition, Chef de l’Etat.

C’est un compte-rendu très complet. Ce Conseil des Ministres du 11 mars 2026, présidé par le Général d’Armée Assimi GOÏTA, met en lumière une volonté de structurer la souveraineté du Mali à travers plusieurs piliers : la sécurité des ressources, la gestion climatique et le rayonnement culturel.

Voici une synthèse des points clés pour faciliter votre lecture :

1. Sécurité et Économie : La création d’une "Police des Mines"

C’est sans doute la mesure phare. Pour lutter contre l’orpaillage clandestin et le trafic de minéraux qui financent souvent l’insécurité, le gouvernement crée la Brigade spéciale des Mines.

Mission : Pouvoir de police judiciaire pour traquer l'exploitation illégale et protéger l'environnement (usage de produits chimiques interdits).

Enjeu : Sécuriser les revenus de l'État dans un secteur vital pour l'économie nationale.

2. Souveraineté et Climat

Le Conseil a validé le Plan stratégique de Développement de la Météorologie (2026-2030). L'idée est de ne plus subir les aléas climatiques mais de les anticiper pour protéger l'agriculture et les infrastructures critiques.

3. Solidarité Sociale à Koutiala

Une décision concrète pour les populations de Koumbé : l'affectation d'un terrain de plus de 92 hectares pour reloger les habitants victimes d'inondations récurrentes. C'est une mesure directe d'urbanisme préventif.

4. Coopération Régionale et Lutte contre la Corruption

Malgré le contexte de la Confédération des États du Sahel (AES), le Mali maintient son adhésion au GIABA (Lutte contre le blanchiment en Afrique de l'Ouest).

Une Évaluation nationale des risques débutera le 20 mars 2026 pour préparer l'examen international de 2027.

5. Culture et Rayonnement

Cinéma : Une tournée pour le film documentaire sur l'écrivain Yambo Ouologuem (Prix Renaudot 1968), visant à réhabiliter cette figure majeure de la littérature malienne.

Artisanat : Bamako s'apprête à accueillir la 12ème Conférence des ministres de l'Artisanat africain, renforçant le leadership du pays dans ce secteur.

Note sur la santé : Le communiqué note une amélioration sur le front de la dengue, bien que la vigilance reste de mise selon les instructions du Chef de l'État.

KUMA FOLO

Ministère de l'Agriculture du Mali
Voici les points essentiels à retenir de cette première visite de terrain du Dr Ibrahima SAMAKE à l'OHVN :
Lieu & Date : Jeudi 5 mars 2026, à l'Office de la Haute Vallée du Niger (Badalabougou, Bamako).
Objectif : Prise de contact avec le personnel, évaluation de l'environnement de travail et partage de sa vision pour la souveraineté alimentaire du Mali.
Missions de l'OHVN : Accroître la productivité, promouvoir les cultures vivrières/industrielles et réduire la pauvreté rurale sous la direction de M. Zan BOUARE.
Priorités Ministérielles : Gestion post-récolte, création d'agropoles pour la transformation locale et renforcement des interprofessions agricoles.
Cadre Politique : Action alignée sur la vision "Malikura 2063" et la Stratégie Nationale pour l'Émergence (SNEDD 2024-2033).

Le président de la République du Mali

Koulouba/ le 6 mars 2026/ #BCEAO

ÉCONOMIE : Le Gouverneur de la BCEAO reçu à KOULOUBA

Le Président de la Transition, Chef de l’Etat, Son Excellence le Général d’Armée Assimi GOÏTA a reçu le vendredi 6 mars 2026 une délégation de la BCEAO.

Des explications de Jean Claude Kassi BROU, Gouverneur de la Banque Centrale des Etats de l’Afrique de l’Ouest (BCEAO), la délégation

était venue faire le point sur l'évolution de l'économie régionale.

M. Jean Claude Kassi BROU a salué les performances de l'économie malienne. Selon lui, malgré le contexte difficile, les indicateurs sont bien orientés, la croissance est soutenue avec plus de six pour cent et le taux d'inflation maîtrisé qui tourne autour de 2%.

Devant le Chef de l'Etat, la délégation de la BCEAO a aussi fait le point de l'état d'avancement du processus de construction de l'agence auxiliaire de la BCEAO à Mopti après celle de la région de Kayes.

ÉCONOMIE : Le Gouverneur de la BCEAO reçu à KOULOUBA

Le Président de la Transition, Chef de l'Etat, Son Excellence le Général d'Armée Assimi GOÏTA a reçu le vendredi 6 mars 2026 une délégation de la BCEAO.

Des explications de Jean Claude Kassi BROU, Gouverneur de la Banque Centrale des Etats de l'Afrique de l'Ouest (BCEAO), la délégation était venue faire le point sur l'évolution de l'économie régionale.

M. Jean Claude Kassi BROU a salué les performances de l'économie malienne. Selon lui, malgré le contexte difficile, les indicateurs sont bien orientés, la croissance est soutenue avec plus de six pour cent et le taux d'inflation maîtrisé qui tourne autour de 2%.

Devant le Chef de l'Etat, la délégation de la BCEAO a aussi fait le point de l'état d'avancement du processus de construction de l'agence auxiliaire de la BCEAO à Mopti après celle de la région de Kayes.

Работа Правительства. Главные события и решения недели – в дайджесте:

Михаил Мишустин представил в Государственной Думе ежегодный отчет о работе Правительства. Он рассказал о главных достижениях страны за 2025 год в таких важнейших отраслях, как:

- экономическое развитие,
- здравоохранение,
- поддержка семей с детьми,
- строительство и развитие инфраструктуры,
- поддержка участников СВО,
- образование и наука,
- транспорт,
- международные отношения и экспорт.

Глава Правительства также ответил на вопросы депутатов и отметил, что все их предложения, прозвучавшие в ходе отчета, будут детально проработаны.

Presidence Mali

Le Conseil des Ministres s'est réuni en session ordinaire, le mercredi 4 mars 2026, dans sa salle de délibérations au Palais de Koulouba, sous la présidence du Général d'Armée Assimi GOITA, Président de la Transition, Chef de l'Etat.

El post oficial de la Presidencia de Malí anuncia la sesión ordinaria del Consejo de Ministros del 4 de marzo de 2026, presidida por el general Assimi Goita, con énfasis en decisiones administrativas y de apoyo social. Entre las medidas clave se destacan la aprobación de un contrato para el transporte aéreo de peregrinos del Hajj 2026 por 2.270 millones de FCFA, un crédito presupuestario de 500 mil millones de FCFA para proyectos prioritarios y la creación de la Agencia Nacional de Inversión en Colectividades Territoriales. El comunicado vinculado detalla nombramientos en cargos directivos y apoyo a 31 niños huérfanos por ataques terroristas, reflejando prioridades en seguridad, economía y bienestar durante la transición militar en Malí.

America Department of Transportation announces increase in town road aid for first time in over 10 years
Sep. 10, 2025

The announcement refers to the Connecticut Department of Transportation (CTDOT) increasing funding for the Town Aid Road (TAR) grant program. On September 10, 2025, Governor Ned Lamont and CTDOT announced a 33% increase in TAR grants, marking the first such increase in over a decade. The funding rises from \$60 million to \$80 million annually for fiscal years 2026 and 2027. This supports local road paving, maintenance, and improvements in all 169 towns and 4 boroughs in Connecticut, with no local match required. The funds come from a combination of Special Tax Obligation and General Obligation bonds, aimed at making local roads safer and more

reliable.This was covered in local news (e.g., WFSB reporting) and the official CTDOT press release. Towns like Newington highlighted plans to use the extra funds for paving their road networks.For more details, see the official announcement: CTDOT Press Release or Governor Lamont's statement.

America Department of Transportation announces increase in town road aid for first time in over 10 years
Sep. 10, 2025

The announcement refers to the Connecticut Department of Transportation (CTDOT) increasing funding for the Town Aid Road (TAR) grant program.On September 10, 2025, Governor Ned Lamont and CTDOT announced a 33% increase in TAR grants, marking the first such increase in over a decade. The funding rises from \$60 million to \$80 million annually for fiscal years 2026 and 2027. This supports local road paving, maintenance, and improvements in all 169 towns and 4 boroughs in Connecticut, with no local match required.The funds come from a combination of Special Tax Obligation and General Obligation bonds, aimed at making local roads safer and more reliable.This was covered in local news (e.g., WFSB reporting) and the official CTDOT press release. Towns like Newington highlighted plans to use the extra funds for paving their road networks.For more details, see the official announcement: CTDOT Press Release or Governor Lamont's statement.

KUMA Fɔɔɔ

El post de la Autoridad General de Carreteras de Arabia Saudita promueve un proyecto innovador que recicla 22 millones de toneladas anuales de residuos de construcción y demolición en mezclas asfálticas para carreteras, transformando un desafío ambiental en una oportunidad de sostenibilidad.

Respaldado por investigaciones del Centro Saudí de Investigación de Carreteras y pruebas en laboratorios avanzados, este enfoque pionero a nivel mundial se implementó por primera vez en 2025 en regiones como Al-Ahsa y Riad, en colaboración con municipios y entidades de gestión de residuos.

La iniciativa forma parte de la economía circular saudí, con meta de reciclar el 60% de estos residuos para 2035, reduciendo costos de gasto público y emisiones, según estudios que confirman su durabilidad equivalente a materiales tradicionales.

Presidence du Mali

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, a accordé, ce lundi 2 mars 2026, une audience au pool d'avocats ayant assuré la défense de la République du Mali devant les juridictions communautaires, dans le cadre du contentieux l'opposant à la Communauté économique des États de l'Afrique de l'Ouest (CEDEAO) et à l'Union économique et monétaire ouest-africaine (UEMOA).

Cette rencontre fait suite à l'arrêt rendu le 28 janvier 2026 par la Cour de justice de l'Union économique et monétaire ouest-africaine en faveur du Mali, déclarant illégales les sanctions prises contre notre pays au début de l'année 2022, dans un contexte sous-régional particulièrement tendu.

Ont pris part à cette audience le Ministre de la Justice et des Droits de l'Homme, Garde des Sceaux, M. Mahamadou KASSOGUÉ, ainsi que trois membres du collectif d'avocats, notamment Maître Ousmane Mama TRAORÉ, Maître Fatoumata SIDIBÉ DIARRA et Maître Amadou Tiéoulé DIARRA. Outre ces trois avocats présents à l'audience, le pool comprenait également le bâtonnier Moustaphe CISSÉ, Maître Abdrahamane Ben Mamata TOURÉ et Maître Cheick Oumar KONARÉ.

Dans son intervention, le Ministre de la Justice a salué l'engagement, la rigueur et le professionnalisme de l'équipe de défense. Il a rappelé que la procédure engagée devant la juridiction communautaire avait abouti, dans un premier temps, à une décision de sursis à exécution, avant que l'arrêt rendu sur le fond ne consacre définitivement l'illégalité des mesures contestées.

« Le Président de la Transition a tenu à féliciter le pool d'avocats qui a défendu avec honneur et dignité les intérêts du Mali. Dans un contexte géopolitique particulièrement sensible, obtenir une telle décision n'était pas acquis d'avance », a déclaré le Garde des Sceaux.

Il a également souligné que les sanctions décrétées à l'encontre du Mali avaient été jugées illégales, illégitimes et inhumaines par les autorités nationales. L'arrêt du 28 janvier constitue ainsi une consécration judiciaire venant conforter la position défendue par l'État malien sur la scène régionale et internationale.

Au-delà de la satisfaction légitime exprimée par les autorités, le Ministre a tenu à saluer le courage et l'indépendance des juges de la Cour communautaire. Il a rappelé que l'application stricte du droit, dans un environnement politique marqué par de fortes tensions, représente un acte fort en faveur de l'État de droit et du respect des principes fondateurs des organisations d'intégration régionale.

Prenant la parole à la sortie de l'audience, Maître Ousmane Mama TRAORÉ a exprimé la fierté du collectif d'avoir été reçu par le Chef de l'État. « Nous n'avons fait que notre travail d'avocat, en nous fondant exclusivement sur l'arsenal juridique communautaire existant », a-t-il précisé.

Il a insisté sur le fait que la défense du Mali s'est articulée autour d'une argumentation rigoureuse, solidement adossée aux textes régissant l'UEMOA et aux principes du droit communautaire. « Le Mali ne pouvait faire valoir ses prétentions qu'en se basant sur le droit communautaire. À la lumière de cet arsenal juridique, il apparaissait clairement que les sanctions prises étaient entachées d'irrégularités », a-t-il affirmé.

Pour rappel, les mesures contestées avaient entraîné la suspension du Mali de plusieurs instances communautaires. Les autorités de la Transition avaient saisi la juridiction compétente afin de contester la régularité procédurale et la base juridique de ces décisions, estimant qu'elles ne respectaient pas les dispositions prévues par les textes fondateurs.

Dans son arrêt, la Cour a relevé des irrégularités substantielles dans la procédure d'adoption des sanctions, notamment au regard des compétences attribuées aux organes décisionnels par les traités communautaires. Elle a rappelé que, même en période de crise politique, les États membres ainsi que les institutions régionales demeurent strictement liés par le cadre normatif commun qui fonde leur action.

KUMA FɔLɔ

Presidence du Mali

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, a accordé, ce lundi 2 mars 2026, une audience au pool d'avocats ayant assuré la défense de la République du Mali devant les juridictions communautaires, dans le cadre du contentieux l'opposant à la Communauté économique des États de l'Afrique de l'Ouest (CEDEAO) et à l'Union économique et monétaire ouest-africaine (UEMOA).

Cette rencontre fait suite à l'arrêt rendu le 28 janvier 2026 par la Cour de justice de l'Union économique et monétaire ouest-africaine en faveur du Mali, déclarant illégales les sanctions prises contre notre pays au début de l'année 2022, dans un contexte sous-régional particulièrement tendu.

Ont pris part à cette audience le Ministre de la Justice et des Droits de l'Homme, Garde des Sceaux, M. Mahamadou KASSOGUÉ, ainsi que trois membres du collectif d'avocats, notamment Maître Ousmane Mama TRAORÉ, Maître Fatoumata SIDIBÉ DIARRA et Maître Amadou Tiéoulé DIARRA. Outre ces trois avocats présents à l'audience, le pool comprenait également le bâtonnier Moustaphe Cissé, Maître Abdrahamane Ben Mamata TOURÉ et Maître Cheick Oumar KONARÉ.

Dans son intervention, le Ministre de la Justice a salué l'engagement, la rigueur et le professionnalisme de l'équipe de défense. Il a rappelé que la procédure engagée devant la juridiction communautaire avait abouti, dans un premier temps, à une décision de sursis à exécution, avant que l'arrêt rendu sur le fond ne consacre définitivement l'illégalité des mesures contestées.

« Le Président de la Transition a tenu à féliciter le pool d'avocats qui a défendu avec honneur et dignité les intérêts du Mali. Dans un contexte géopolitique particulièrement sensible, obtenir une telle décision n'était pas acquis d'avance », a déclaré le Garde des Sceaux.

Il a également souligné que les sanctions décrétées à l'encontre du Mali avaient été jugées illégales, illégitimes et inhumaines par les autorités nationales. L'arrêt du 28 janvier constitue ainsi une consécration judiciaire venant conforter la position défendue par l'État malien sur la scène régionale et internationale.

Au-delà de la satisfaction légitime exprimée par les autorités, le Ministre a tenu à saluer le courage et l'indépendance des juges de la Cour communautaire. Il a rappelé que l'application stricte du droit, dans un environnement politique marqué par de fortes tensions, représente un acte fort en faveur de l'État de droit et du respect des principes fondateurs des organisations d'intégration régionale.

Prenant la parole à la sortie de l'audience, Maître Ousmane Mama TRAORÉ a exprimé la fierté du collectif d'avoir été reçu par le Chef de l'État. « Nous n'avons fait que notre travail d'avocat, en nous fondant exclusivement sur l'arsenal juridique communautaire existant », a-t-il précisé.

Il a insisté sur le fait que la défense du Mali s'est articulée autour d'une argumentation rigoureuse, solidement adossée aux textes régissant l'UEMOA et aux principes du droit communautaire. « Le Mali ne pouvait faire valoir ses prétentions qu'en se basant sur le droit communautaire. À la lumière de cet arsenal juridique, il apparaissait clairement que les sanctions prises étaient entachées d'irrégularités », a-t-il affirmé.

Pour rappel, les mesures contestées avaient entraîné la suspension du Mali de plusieurs instances communautaires. Les autorités de la Transition avaient saisi la juridiction compétente afin de contester la régularité procédurale et la base juridique de ces décisions, estimant qu'elles ne respectaient pas les dispositions prévues par les textes fondateurs.

Dans son arrêt, la Cour a relevé des irrégularités substantielles dans la procédure d'adoption des sanctions, notamment au regard des compétences attribuées aux organes décisionnels par les traités communautaires. Elle a rappelé que, même en période de crise politique, les États membres ainsi que les institutions régionales demeurent strictement liés par le cadre normatif commun qui fonde leur action.

BAMANANKAN NA

Mali Jamanakuntigiya

Temesira nemeɓɓa, a ka kelebiio jenerali Assimi GOÏTA, ye son, bi jumadon marisikalo tile 2 san 2026, avoka kulu ma, minnu ye Mali jamana lafasa sigida kiritigesow neɗɗo, sɗɗo hukumu kono min tun b'a kele Afiriki tilebinyanfan jamanaw ka sɗɗo jekulu (ECOWAS) ani Afiriki tilebinyanfan sɗɗo ni wariko tonba (UEMOA).

Nin laje in be tugu kiritige in ko, min kera san 2026 zanwuyekalo tile 28, Afiriki tilebinyanfan sanako ni wariko tamba ka kiritigeso fe, ka Mali deme, k'a jira ko sankorota minnu kera an ka jamana kan san 2022 damine na, olu ye sariya saskoli ye, kerengerennenya la, marabolo fitininw kono.

Minisiri min pesinnen be kiritigelow ni hadamadenw ka josariyaw ma, kiritigelow ka minisiri, Mahamadou KASSOGUÉ, ye a sen don nin laje in na, ka fara sariyatigiw ka jekulu mɔɔgɔ saba kan, kerɛnkerɛnɛnya la Maître Ousmane Mama TRAORÉ, Maître Fatoumata SIDIBÉ DIARRA ani Maître Amadou Tiéoulé DIARRA. Ka fara nin sariyatigi saba ninnu kan minnu tun be ɲɔɲɔɲe in na, o kulu in ƙɔɲɔ, jamanakuntigi Moustaphe CISSÉ, Maître Abdrahamane Ben Mamata TOURÉ ani Maître Cheick Oumar KONARÉ fana tun be yen.

A ka dɛmɛ kɔɔɔ, kiritigɛlaw ka minisiri yɛ lafasalitɔn ka ɛsiri, a ka geleya ani a ka baarakɛcogo tanu. A hakili jigira ko taabolo min daminɛna jekulu kiritigɛso ɲɛkɔɔ, a daminɛ na, o kɛra sababu yɛ ka desizɔn ta ka fagali jɔ, sannɪ kiritigɛ min kɛra ka da a kan, o k'a jira k'a jɛya ko fɛɛɛ minnu sɔɔɔra, olu tɛ sariya kɔɔɔ.

« Temesira jamanakuntigi tun b'a fe ka foli lase sariyatigiw ka kulu ma, minnu ye Mali nafaw lafasa ni bonya ni danbe ye. Kerengerennnya la, dugukoloko politiki siratige la, o desizon sugu saroli tun te ko ye min kera ka kon o ne », kiritigelow minisiri y'o fa.

A y'a jira fana ko sankarɓa minnu kera Mali kan, jamana nemoɓko y'a jate sariya sarsali ye, sariya sarsali ani hadamadenyabaliya. Zanzuwuyekalo tile 28 kiritige in be ke o cogo la kiritigelaw ka danbe ye min be Mali jamana ka jayɓo lafasa mara ni diɓe kɓa.

Faamaw ye wasa sariyalen min jira, o kɔfɛ, Minisiri tun b'a fɛ ka foli lase sigida kiritigeso kiritigelaw ka jageleya n'u ka yɛɛmahɔɔɔnya ma. A hakili jigira ko sariya labatoli gɛlen, politiki sigida la, geleya barikamaw bɛ min kɔɔɔ, o bɛ wale barikama jira min bɛ sariyasunba demɛ ani ka marabolow ka jɛɔɔɔɔɔɔɔ jekuluw sigicogo sariyakolow bonya.

Maître Ousmane Mama TRAORÉ ka kuma la jama laban na, a y'a jira ko jekulu in ka waso b'a la k'a sababu ke jamana nemoɓo ye u bisimila. "An y'an ka baara ke dɔɔn i n'a fo avoka, an y'an jigi da marifakisew dɔɔn de kan Sigida sariyasunba min be yen », a ko ten.

A y'a sinsi a kan ko Mali ka lafasalitɓn sigilen don sɔɔli gelenw de kan, minnu sinsiɓnɓen don kosebe seɓenw kan minnu be UEMOA nemiɓe ani sigida sariya sariyakolow. « Mali tun be se k'a ka fɔtaw sinsiɓnɓen don ka da sigida sariya kan. Nin sariyasun in yeelen na, a y'a jira k'a jɛya ko sankɔɔta minnu kera, olu naɗɗɓen don ni sariya tiɓɓeniw ye », a ko ten.

Hakilijigin na, fæere sɔɔlen minnu kera, olu kera sababu ye ka Mali bila sigida jekulu caman bolo. Tæmesira ɲemɔɔw tun ye kiritigeso min be se ka baara ke, o mine walasa ka sɔɔli ke taabolo basigilenw kan ani sariya siratige la, o latigew, k'a jatemineg k'u ma sariyaw bonya minnu be sigikafo sebenw ɲɔɲɔ.

Kiiritigeso y'a ka kiritige kɔnɔ, a y'a jira ko sariya tiɲeniba kera sankɔrta taabolo la, kɛrɛnkɛrɛnnɛnya la, fanga minnu bɛ di latigɛjekuluw ma, jekulu ka bɛnkanw fɛ. A hakili jigira ko hali politiki gɛlɛya waatiw la, jamanadenw ni marabolow ka tɔnw bɛ to ka siri kosebɛ sariyasun jɛlɛn na min b'u ka walew sinsin.

Presidence du Mali

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, a accordé, ce lundi 2 mars 2026, une audience au pool d'avocats ayant assuré la défense de la République du Mali devant les juridictions communautaires, dans le cadre du contentieux l'opposant à la Communauté économique des États de l'Afrique de l'Ouest (CEDEAO) et à l'Union économique et monétaire ouest-africaine (UEMOA).

Cette rencontre fait suite à l'arrêt rendu le 28 janvier 2026 par la Cour de justice de l'Union économique et monétaire ouest-africaine en faveur du Mali, déclarant illégales les sanctions prises contre notre pays au début de l'année 2022, dans un contexte sous-régional particulièrement tendu.

Ont pris part à cette audience le Ministre de la Justice et des Droits de l'Homme, Garde des Sceaux, M. Mahamadou KASSOGUÉ, ainsi que trois membres du collectif d'avocats, notamment Maître Ousmane Mama TRAORÉ, Maître Fatoumata SIDIBÉ DIARRA et Maître Amadou Tiéoulé DIARRA. Outre ces trois avocats présents à l'audience, le pool comprenait également le bâtonnier Moustaphe CISSÉ, Maître Abdrahamane Ben Mamata TOURÉ et Maître Cheick Oumar KONARÉ.

Dans son intervention, le Ministre de la Justice a salué l'engagement, la rigueur et le professionnalisme de l'équipe de défense. Il a rappelé que la procédure engagée devant la juridiction communautaire avait abouti, dans un premier temps, à une décision de sursis à exécution, avant que l'arrêt rendu sur le fond ne consacre définitivement l'illégalité des mesures contestées.

« Le Président de la Transition a tenu à féliciter le pool d'avocats qui a défendu avec honneur et dignité les intérêts du Mali. Dans un contexte géopolitique particulièrement sensible, obtenir une telle décision n'était pas acquis d'avance », a déclaré le Garde des Sceaux.

Il a également souligné que les sanctions décrétées à l'encontre du Mali avaient été jugées illégales, illégitimes et inhumaines par les autorités nationales. L'arrêt du 28 janvier constitue ainsi une consécration judiciaire venant conforter la position défendue par l'État malien sur la scène régionale et internationale.

Au-delà de la satisfaction légitime exprimée par les autorités, le Ministre a tenu à saluer le courage et l'indépendance des juges de la Cour communautaire. Il a rappelé que l'application stricte du droit, dans un environnement politique marqué par de fortes tensions, représente un acte fort en faveur de l'État de droit et du respect des principes fondateurs des organisations d'intégration régionale.

Prenant la parole à la sortie de l'audience, Maître Ousmane Mama TRAORÉ a exprimé la fierté du collectif d'avoir été reçu par le Chef de l'État. « Nous n'avons fait que notre travail d'avocat, en nous fondant exclusivement sur l'arsenal juridique communautaire existant », a-t-il précisé.

Il a insisté sur le fait que la défense du Mali s'est articulée autour d'une argumentation rigoureuse, solidement adossée aux textes régissant l'UEMOA et aux principes du droit communautaire. « Le Mali ne pouvait faire valoir ses prétentions qu'en se basant sur le droit communautaire. À la lumière de cet arsenal juridique, il apparaissait clairement que les sanctions prises étaient entachées d'irrégularités », a-t-il affirmé.

Pour rappel, les mesures contestées avaient entraîné la suspension du Mali de plusieurs instances communautaires. Les autorités de la Transition avaient saisi la juridiction compétente afin de contester la régularité procédurale et la base juridique de ces décisions, estimant qu'elles ne respectaient pas les dispositions prévues par les textes fondateurs.

Dans son arrêt, la Cour a relevé des irrégularités substantielles dans la procédure d'adoption des sanctions, notamment au regard des compétences attribuées aux organes décisionnels par les traités communautaires. Elle a rappelé que, même en période de crise politique, les États membres ainsi que les institutions régionales demeurent strictement liés par le cadre normatif commun qui fonde leur action

Presidence du Mali

Le Président de la Transition, Son Excellence le Général d'Armée Assimi GOÏTA, a accordé, ce lundi 2 mars 2026, une audience au pool d'avocats ayant assuré la défense de la République du Mali devant les juridictions communautaires, dans le cadre du contentieux l'opposant à la Communauté économique des États de l'Afrique de l'Ouest (CEDEAO) et à l'Union économique et monétaire ouest-africaine (UEMOA).

Cette rencontre fait suite à l'arrêt rendu le 28 janvier 2026 par la Cour de justice de l'Union économique et monétaire ouest-africaine en faveur du Mali, déclarant illégales les sanctions prises contre notre pays au début de l'année 2022, dans un contexte sous-régional particulièrement tendu.

Ont pris part à cette audience le Ministre de la Justice et des Droits de l'Homme, Garde des Sceaux, M. Mahamadou KASSOGUÉ, ainsi que trois membres du collectif d'avocats, notamment Maître Ousmane Mama TRAORÉ, Maître Fatoumata SIDIBÉ DIARRA et Maître Amadou Tiéoulé DIARRA. Outre ces trois avocats présents à l'audience, le pool comprenait également le bâtonnier Moustaphe Cissé, Maître Abdrahmane Ben Mamata TOURÉ et Maître Cheick Oumar KONARÉ.

Dans son intervention, le Ministre de la Justice a salué l'engagement, la rigueur et le professionnalisme de l'équipe de défense. Il a rappelé que la procédure engagée devant la juridiction communautaire avait abouti, dans un premier temps, à une décision de sursis à exécution, avant que l'arrêt rendu sur le fond ne consacre définitivement l'illégalité des mesures contestées.

« Le Président de la Transition a tenu à féliciter le pool d'avocats qui a défendu avec honneur et dignité les intérêts du Mali. Dans un contexte géopolitique particulièrement sensible, obtenir une telle décision n'était pas acquis d'avance », a déclaré le Garde des Sceaux.

Il a également souligné que les sanctions décrétées à l'encontre du Mali avaient été jugées illégales, illégitimes et inhumaines par les autorités nationales. L'arrêt du 28 janvier constitue ainsi une consécration judiciaire venant conforter la position défendue par l'État malien sur la scène régionale et internationale.

Au-delà de la satisfaction légitime exprimée par les autorités, le Ministre a tenu à saluer le courage et l'indépendance des juges de la Cour communautaire. Il a rappelé que l'application stricte du droit, dans un environnement politique marqué par de fortes tensions, représente un acte fort en faveur de l'État de droit et du respect des principes fondateurs des organisations d'intégration régionale.

Prenant la parole à la sortie de l'audience, Maître Ousmane Mama TRAORÉ a exprimé la fierté du collectif d'avoir été reçu par le Chef de l'État. « Nous n'avons fait que notre travail d'avocat, en nous fondant exclusivement sur l'arsenal juridique communautaire existant », a-t-il précisé.

Il a insisté sur le fait que la défense du Mali s'est articulée autour d'une argumentation rigoureuse, solidement adossée aux textes régissant l'UEMOA et aux principes du droit communautaire. « Le Mali ne pouvait faire valoir ses prétentions qu'en se basant sur le droit communautaire. À la lumière de cet arsenal juridique, il apparaissait clairement que les sanctions prises étaient entachées d'irrégularités », a-t-il affirmé.

Pour rappel, les mesures contestées avaient entraîné la suspension du Mali de plusieurs instances communautaires. Les autorités de la Transition avaient saisi la juridiction compétente afin de contester la régularité procédurale et la base juridique de ces décisions, estimant qu'elles ne respectaient pas les dispositions prévues par les textes fondateurs.

Dans son arrêt, la Cour a relevé des irrégularités substantielles dans la procédure d'adoption des sanctions, notamment au regard des compétences attribuées aux organes décisionnels par les traités communautaires. Elle a rappelé que, même en période de crise politique, les États membres ainsi que les institutions régionales demeurent strictement liés par le cadre normatif commun qui fonde leur action.

KUMA FɔLD

Le 3 avril 2025, un producteur de coton de Moulton, en Alabama, a partagé ses préoccupations concernant l'imposition de nouveaux tarifs douaniers par l'administration Trump, une journée après l'annonce de ce qu'il a appelé le « Jour de la Libération » (Liberation Day).

Points clés de l'intervention :

Incertitude sur les calculs : Le producteur a exprimé des doutes sur la manière dont les tarifs seraient calculés pour les produits

exportés contenant du coton américain, notamment dans le cadre d'accords comme le CAFTA ou l'ACEUM (MCA).

Impact sur la chaîne d'approvisionnement : Bien que ses propres produits soient 100 % fabriqués aux États-Unis, il craint que les tarifs ne compliquent les exportations. Toutefois, il espère que cela encouragera la production domestique et incitera davantage de filatures américaines à traiter le coton local.

Contexte économique difficile : Cet entretien est intervenu alors que le secteur agricole faisait déjà face à des coûts de production élevés et à une rentabilité nulle pour les grandes cultures depuis 2022.

Évolutions ultérieures (2025-2026) :

Aide d'urgence : Face aux représailles commerciales, le gouvernement a débloqué environ 12 milliards de dollars en paiements de transfert (programmes FBA et Bridge) pour soutenir les agriculteurs touchés.

Accords et Annulations : En novembre 2025, un accord avec la Chine a conduit à la suspension de nombreux tarifs de rétorsion, Pékin s'engageant à acheter des volumes massifs de soja.

Décision Judiciaire : En février 2026, la Cour suprême a annulé certains de ces tarifs imposés par décret, offrant un répit potentiel sur le coût des équipements agricoles importés.

Souhaitez-vous obtenir plus de détails sur les montants spécifiques des aides versées aux producteurs de coton en 2025 ou sur la réaction des marchés mondiaux du textile ?

BAMANANKAN NA

Awirilikalo tile 3 san 2025, cotton senekela dɔ ka bɔ Moulton, Alabama, y'a haminankow fɔ Trump ka fanga ka tarifu kura sigili kan, tile kelen a kelen kɔ ka min wele ko "Hɔɔɔɔɔɔ don".

Nin wale in yɔɔɔ kolomaw:

Lageleya jatebɔw kan : Senekela ye sigasiga jira tarifu bena jate cogo min na fenw na minnu be taa jamana werew la, Ameriki cotton be minnu na, kerɛkerɛnɛnɛnya la benkanw kɔɔɔ i n'a fɔ CAFTA walima CUSMA (MCA).

Supply chain impact : Hali n'a yerɛ ka fen dilannenw be dilan 100% Ameriki, a be hami ko tarifuw bena ke sababu ye ka jago geleya ka taa a fe. Nka, a jigi b'a kan ko a bena dusu don jamana kɔɔɔ senefenw na ani ka U.S. mansin caman sɔɔɔ walasa ka sigida cotton baara.

Toutefois, il espère que cela encouragera la production domestique et incitera davantage de filatures américaines à traiter le coton local.

Contexte économique difficile : Cet entretien est intervenu alors que le secteur agricole faisait déjà face à des coûts de production élevés et à une rentabilité nulle pour les grandes cultures depuis 2022.

Évolutions ultérieures (2025-2026) :

Aide d'urgence : Face aux représailles commerciales, le gouvernement a débloqué environ 12 milliards de dollars en paiements de transfert (programmes FBA et Bridge) pour soutenir les agriculteurs touchés.

Accords et Annulations : En novembre 2025, un accord avec la Chine a conduit à la suspension de nombreux tarifs de rétorsion, Pékin s'engageant à acheter des volumes massifs de soja.

Décision Judiciaire : En février 2026, la Cour suprême a annulé certains de ces tarifs imposés par décret, offrant un répit potentiel sur le coût des équipements agricoles importés.

Souhaitez-vous obtenir plus de détails sur les montants spécifiques des aides versées aux producteurs de coton en 2025 ou sur la

réaction des marchés mondiaux du textile ?

BAMANANKAN NA

Anwirilikalo tile 3 san 2025, cotton senekela do ka bo Moulton, Alabama, ya haminankow fo Trump ka fanga ka tarifu kura sigili kan, tile kelen a kelen ko ka min wele ko “חכמה don”.

Nin wale in $\gamma\gamma$ kolomaw:

Lageleya jatebow kan : Senekela ye sigasiga jira tarifu bena jate cogo min na fenw na minnu be taa jamana werew la, Ameriki cotton be minnu na, kerengerenneny la benkanw kono i n'a fo CAFTA walima CUSMA (MCA).

Supply chain impact : Hali n'a yare ka fen dilannenw be dila 100% Ameriki, a be hami ko tarifuw bena ke sababu ye ka jago geleya ka taa a fe. Nka, a jigi b'a kan ko a bena dusu don jamana kono senefenw na ani ka U.S. mansin caman koro walasa ka sigida cotton baara.

Sarƙo geɗeya : Nin jininkali in kera waati min na seneko tun be kaban ka sene musaka caman sarƙo ani nafa zero senefenbaw la kabini san 2022.

Υέλεμα περεω (2025-2026):

Deme kocholene : Jagokelaw ka walepumandane kochek, gferenaman ye dardame miliyari 12 kochek bo fenw jiginni sara la (FBA ani Bridge porogaramuw) walasa ka senekelaw deme minnu kochek.

Benkanw ni tipeniw : San 2025 nowanburukalo la, benkan min kera ni Sinuwa ye, o kera sababu ye ka tarifu caman jo minnu be ke ka mɔɔw sara, Pekin y'a yere bila ka soja hake caman san.

KUMA FɔLD

En juillet 2025, le marché textile français amorce un tournant stratégique majeur pour contrer l'hégémonie de l'ultra fast-fashion (Shein, Temu). Cette transformation repose sur un arsenal législatif inédit et une réorganisation des acteurs locaux.

1. Une riposte législative pionnière

La France a franchi une étape historique avec l'adoption de la loi "anti-fast fashion" par le Sénat le 10 juin 2025. Ce texte vise spécifiquement la "mode ultra express" via trois leviers :

Malus financier : Une contribution environnementale progressive, débutant à 5 € par article et pouvant atteindre 10 € d'ici 2030.

Interdiction publicitaire : Les géants du secteur ne peuvent plus faire de publicité ni de sponsoring.

Affichage environnemental : Obligation d'informer les consommateurs sur l'impact écologique des produits, sous peine de sanctions.

2. État du marché et nouvelles tendances

Malgré ces mesures, l'influence des plateformes reste forte. En 2025, plus d'un Français sur trois a acheté sur ces sites. Cependant, des signaux de changement apparaissent :

Recul de certaines parts de marché : Fin 2025, Shein a vu sa part de marché baisser de 14,9 % à 10,7 % suite à des vagues de critiques ("bad buzz").

Essor de la seconde main : Ce segment capte désormais 18 % des achats en ligne, structurant durablement le marché.

Relocalisation et innovation : Des fabricants comme Lemahieu se réinventent en misant sur le 100 % français et la durabilité pour attirer une clientèle délaissant le milieu de gamme traditionnel.

3. Vers une régulation européenne

La France sert de laboratoire à l'Union Européenne, qui a validé en septembre 2025 la révision de la directive sur les déchets, imposant une responsabilité élargie des producteurs sur l'ensemble du territoire européen.

Souhaitez-vous approfondir les détails de la taxe malus ou découvrir les marques françaises qui tirent profit de cette nouvelle réglementation ?

KUMA FOLO

Les informations récentes sur la Compagnie Malienne pour le Développement des Textiles (CMDT) en ce mois de février 2026 mettent en avant la validation d'un budget ambitieux pour l'exercice à venir et des objectifs de relance de la production cotonnière.

1. Actualités Financières et Budgétaires (Février 2026)

Le conseil d'administration de la CMDT a approuvé, le 26 février 2026, un budget colossal pour l'exercice de l'année :

Budget total : Plus de 418 milliards FCFA mobilisés pour soutenir la filière cotonnière.

Objectif de résultat : La compagnie ambitionne de dégager un bénéfice prévisionnel d'environ 10 milliards FCFA.

Investissements : Ce plan vise à moderniser l'outil industriel et à sécuriser l'approvisionnement en intrants pour les cotonculteurs.

2. Campagne Agricole 2025-2026

La CMDT s'est fixée des objectifs de croissance pour regagner sa place de leader régional après les difficultés liées aux parasites (jassides) des années précédentes :

Prix d'achat au producteur : Le prix du coton graine est maintenu à 300 FCFA le kilogramme pour encourager la production.

Surface cultivable : Le Mali prévoit d'implanter environ 672 000 hectares pour cette campagne.

Production attendue : L'objectif national est de stabiliser et dépasser les 650 000 tonnes de coton graine, le Mali ayant dominé la zone CFA avec 656 751 tonnes lors du bilan précédent.

Direction : La compagnie est actuellement dirigée par le Dr Kouloumégué Dembélé, nommé PDG en juin 2025.

Industrialisation : Une mission technique (notamment avec des partenaires allemands) travaille sur la création d'un complexe industriel textile pour transformer localement la fibre de coton.

Défis : La gestion des invasions de ravageurs (jassides) et la sécurité dans les zones de production restent des points de vigilance majeurs pour le conseil d'administration.

BAMANANKAN NA

Kunnaƴoni minnu bɔra kɔsa in na Mali finiko yiriwali tɔnba (CMDT) kan san 2026 feburuyekalo la, olu b'a jira ko san nata baarakenafolo ɗaniyatale dɔ tijiɗi n'a laɗiniw ye ka cotoŋseɗe lakunu.

1. Nafole ni baarakenafolo kibaruɗaw (san 2026 feburuyekalo) .

CMDT jɛmɔɗɗaŋa ye sɔn, san 2026 feburuyekalo tile 26, baarakenafolo belebeleba dɔ ma, min bena ke nafole sɔrɔ san in na :

Baarakenafolo bee lajelen : FCFA ka ca ni miliyari 418 ye minnu lajɛra walasa ka cotton seko deme.

Jatemiɗe kuntilenna : Sosiyete in b'a fe ka tɔnɔ sɔrɔ min bena ke FCFA miliyari 10 tɔnɔ ye.

Nafolodonna : Nin laɗini in kun ye ka izini baarakemineɗw ke bi ta ye ani ka fenw sɔrɔ lakana cotton senekelaw ma.

2. Seneko kanɗaɗi san 2025-2026

CMDT ye yiriwali laɗiniw sigi senkan walasa k'a jɔɗɗɔ sɔrɔ kokura mara jɛmɔɗɗa ye, geleya minnu tun be parazitiw (jassids) la san temennenw na :

Senefenw dilannikelaw sanni sɔnɔ : Kise cotton sɔnɔ be to 300 FCFA kilo kelen na walasa ka dusu don senefenw na.

Seneyɔrɔ : Mali b'a fe ka hectare 672.000 tɔnɔ dan nin kanɗaɗi in kama.

Seneko makɔnɔnɔn : Jamana ka laɗini ye ka kisekise tɔni 650.000 sabati ani ka teme a kan, Mali ye fanga sɔrɔ CFA mara la ni tɔni 656.751 ye kunnaƴoni temenen kɔnɔ.

Jɛmɔɗɗa : Sosiyete in jɛmɔɗɗa be dɔɗɔɗɔ Kouloumégué Dembélé bolo bi, ale min kera jɛmɔɗɗa ye san 2025 zuwenkalo la.

Industriyali : Feereko cidenyabaara dɔ (kerenkerennenya la ni Alemapi jɛnɔɗɗɔnɔ ye) be baara ke finiko iziniba dɔ dabɔli kan walasa ka cotton fibre caman sementiya sigida la.

Geleyaw : Banakisew ka binkanniw (jassids) jɛnabɔli ani lakanani seneyɔrɔw la, o be to ka ke kɔlɔsiliba ye jɛmɔɗɗaŋa bolo.

User ye fasari min ta, o marala:

Kunnaƴoni minnu bɔra kɔsa in na, minnu jɛsinnen be Mali Gesemanfenw yiriwali tɔnba (CMDT) ma san 2026 feburuyekalo la, olu b'a jira ko baarakenafolo ɗaniyaba dɔ daminena ka nafole sɔrɔ san nata kama, ani laɗiniw kan, minnu bena ke sababu ye ka kɔri seneni lakunu.

1. Wariko kibaruɗaw ni baarakenafolo (san 2026 feburuyekalo) .

San 2026 feburuyekalo tile 26, CMDT ka jɛmɔɗɗaŋa ye baarakenafolo belebeleba dɔ ta san 2026 nafole sɔrɔta kama :

Baarakenafolo bee lajelen : A ka ca ka teme Faransi ka Farafinna CFA miliyari 418 ni kɔ kan min kerenkerennen na walasa ka kɔri seko deme.

Tɔnɔ laɗini : cakeda in b'a jini ka tɔnɔ sɔrɔ min ka surun Faransi ka Farafinna CFA miliyari 10 tɔnɔ na.

Nafolodonna : Nin laɗini in kun ye ka dilannikeyɔrɔw ke kuraya ani ka sɔrɔ dontaw banbanni lakana kɔri senekelaw ye.

2. Seneko wuli ka jɔ san 2025-2026

CMDT cakeda ye yiriwali laɗiniw sigi senkan walasa k'a jɔɗɗɔ sɔrɔ kokura ka ke mara jɛmɔɗɗa ye, geleyaw kɔfe a ye minnu kunben san temennenw na, k'a sababu ke kɔri fenjenamaw ye (fenjenamaw) ye :

Sanni sɔnɔ min be ke fen bolikelaw ye : kɔri gerere sɔnɔ latigera ka ke Faransi ka Farafinna CFA 300 ye kilo kelen na walasa ka bolɔ dusu don.

Kene min labenna sene kama: Mali be ka laben ke min ka surun hectare 672.000 tɔnɔ na k'o sene nin wuli ka jɔ in na.

bɔta makɔnɔnɔn : Jamana ka waleyaw laɗinitaw ye ka taa basigi lakika sɔrɔ kɔri gerere bolɔ la ani k'a teme, n'o ye tɔni 650.000 ye. A dɔn k'a fɔ tijiɗa ko Mali a ye bolɔ ke Faransi ka Farafinna CFA mara kɔnɔ bolɔ min sera tɔni 656.751 ma salon.

Nemagɗya : cakɗa in nemagɗya be sisan dɔɗɗɔ Kolomégui Dembélé bolo, ale min kɛra nemagɗba ye san 2025 zuwenkalo la.

Baarakɛcogo : Fɛɛɛko cidenyabaara dɔ be baara kɛ (o be Alemɗi jɛɗɗɔnw fara ɗɗɔn kan) walasa ka gese dilanyɗɔ beɛ sigi senkan sigida la kɔɗi fu baara kama.

Geleyaw : nemagɗya in ma wali a be fɛɗɗɛnamaw keɗeli (fɛɗɗɛnama minnu be pan) ani lakana bɔliyɗɔnw la, o tora haminankoba ye o min be jɗɗɔnanko wuli nemagɗyaso sigiyɗɔ la.

Bereket Hikâyerleri

35 yaşındaki Ziraat Mühendisi Emre Kasap, aldığı akademik eğitimi sahaya taşıyarak Kırşalda Bereket Hayvancılığa Destek Projesi ile işletmesinde yeni bir dönem başlattı.

Birkaç ay içinde doğumların başlamasıyla buzağılar sürüye katıldı. Sağlanan bakım desteği sayesinde hem maliyetlerini dengeledi hem de üretimini planlı ve sürdürülebilir şekilde büyötmeye başladı.

Kırşalda hayalini gerçeye dönüştürmek isteyen her üreticimizin yanında kararlılıkla duruyoruz.

KUMA FOLD

Mali : première session autour du projet de mise en valeur des plaines rizicoles de Tombouctou

La première session ordinaire du Comité de pilotage du Projet de mise en valeur des plaines rizicoles de Tombouctou (PMPRT), au titre de l'exercice 2025, s'est tenue le 17 février 2026 dans la salle de réunion de la Direction des finances et du matériel (DFM) du ministère de l'Agriculture, à Bamako.

La cérémonie d'ouverture des travaux a été présidée par le ministre de l'Agriculture, Dr Ibrahima Samaké. Cette rencontre intervient quelques mois après le lancement officiel du projet, le 16 octobre 2025 à Tombouctou, par le Premier ministre, Chef du Gouvernement, le Général de Division Abdoulaye Maïga.

D'une durée de cinq ans, le PMPRT est financé par la Banque Ouest Africaine de Développement (BOAD) à hauteur de 8 milliards 762 millions de francs CFA. Il vise à contribuer à la réduction de la pauvreté dans la région de Tombouctou, à travers la valorisation des plaines rizicoles et l'amélioration durable des conditions de vie des populations rurales.

Le projet cible directement 2 500 ménages, soit environ 15 000 bénéficiaires, avec une attention particulière accordée aux femmes et aux jeunes. À travers l'aménagement et la mise en exploitation des plaines rizicoles, les autorités entendent renforcer la production agricole, améliorer les revenus des exploitants et promouvoir la sécurité alimentaire dans la zone.

Cette première session du Comité de pilotage constitue une étape clé pour faire le point sur l'état d'avancement du projet et définir les orientations stratégiques pour la mise en œuvre efficace des activités prévues.

KUMA FɔLD

Россия планирует вернуть сельскохозяйственные земли для достижения самообеспеченности к 2026 году.

Россия активно реализует масштабные программы по вовлечению сельскохозяйственных земель в оборот с целью обеспечения продовольственной безопасности и самообеспеченности, при этом планы по возвращению земель рассчитаны до 2030 года, с промежуточными этапами к 2026 году.

Ключевые аспекты этой инициативы на период до 2026 года включают:

Вовлечение земель: В рамках госпрограммы, действующей с 2022 года, планируется вовлечь в оборот около 2 млн гектаров неиспользуемых сельхозземель за 3 года (на 2024–2026 гг.).

Масштаб программы: Всего за период действия госпрограммы (до 2030 года) планируется вернуть в оборот не менее 13 миллионов гектаров, при общей оценке неиспользуемых земель в 44 миллиона гектаров.

Регулирование границ: С 1 марта 2026 года Минсельхоз РФ получит полномочия по установлению и изменению границ сельскохозяйственных угодий (пашни, пастбища, залежи) для их более эффективного использования.

Самообеспеченность: К 2025-2026 годам Россия достигла высокой степени самообеспеченности по основным видам продукции, включая картофель (97,9% в 2025 г.) и овощи (близко к 90%).

Господдержка: В 2026 году на поддержку сельского хозяйства планируется направить свыше 500 млрд рублей, включая средства на мелиорацию и цифровизацию.

Цифровизация: К 2026 году по поручению президента планируется оцифровать 50% агропромышленного комплекса.

Эти меры направлены на увеличение валовых сборов, в том числе за счет воссоединенных территорий, и обеспечение внутреннего рынка.

Россия планирует вернуть сельскохозяйственные земли для достижения самообеспеченности к 2026 году.

Россия активно реализует масштабные программы по вовлечению сельскохозяйственных земель в оборот с целью обеспечения продовольственной безопасности и самообеспеченности, при этом планы по возвращению земель рассчитаны до 2030 года, с промежуточными этапами к 2026 году.

Ключевые аспекты этой инициативы на период до 2026 года включают:

Вовлечение земель: В рамках госпрограммы, действующей с 2022 года, планируется вовлечь в оборот около 2 млн гектаров неиспользуемых сельхозземель за 3 года (на 2024–2026 гг.).

Масштаб программы: Всего за период действия госпрограммы (до 2030 года) планируется вернуть в оборот не менее 13 миллионов гектаров, при общей оценке неиспользуемых земель в 44 миллиона гектаров.

Регулирование границ: С 1 марта 2026 года Минсельхоз РФ получит полномочия по установлению и изменению границ сельскохозяйственных угодий (пашни, пастбища, залежи) для их более эффективного использования.

Самообеспеченность: К 2025-2026 годам Россия достигла высокой степени самообеспеченности по основным видам продукции, включая картофель (97,9% в 2025 г.) и овощи (близко к 90%).

Господдержка: В 2026 году на поддержку сельского хозяйства планируется направить свыше 500 млрд рублей, включая средства на мелиорацию и цифровизацию.

Цифровизация: К 2026 году по поручению президента планируется оцифровать 50% агропромышленного комплекса.

Эти меры направлены на увеличение валовых сборов, в том числе за счет воссоединенных территорий, и обеспечение внутреннего рынка.

Россия планирует вернуть сельскохозяйственные земли для достижения самообеспеченности к 2026 году.

Россия активно реализует масштабные программы по вовлечению сельскохозяйственных земель в оборот с целью обеспечения продовольственной безопасности и самообеспеченности, при этом планы по возвращению земель рассчитаны до 2030 года, с промежуточными этапами к 2026 году.

Ключевые аспекты этой инициативы на период до 2026 года включают:

Вовлечение земель: В рамках госпрограммы, действующей с 2022 года, планируется вовлечь в оборот около 2 млн гектаров неиспользуемых сельхозземель за 3 года (на 2024–2026 гг.).

Масштаб программы: Всего за период действия госпрограммы (до 2030 года) планируется вернуть в оборот не менее 13 миллионов гектаров, при общей оценке неиспользуемых земель в 44 миллиона гектаров.

Регулирование границ: С 1 марта 2026 года Минсельхоз РФ получит полномочия по установлению и изменению границ сельскохозяйственных угодий (пашни, пастбища, залежи) для их более эффективного использования.

Самообеспеченность: К 2025–2026 годам Россия достигла высокой степени самообеспеченности по основным видам продукции, включая картофель (97,9% в 2025 г.) и овощи (близко к 90%).

Господдержка: В 2026 году на поддержку сельского хозяйства планируется направить свыше 500 млрд рублей, включая средства на мелиорацию и цифровизацию.

Цифровизация: К 2026 году по поручению президента планируется оцифровать 50% агропромышленного комплекса.

Эти меры направлены на увеличение валовых сборов, в том числе за счет воссоединенных территорий, и обеспечение внутреннего рынка.

Україна повертає сільськогосподарські угіддя для самозабезпечення 2026 рік

У 2026 році Україна активізувала процес повернення сільськогосподарських угідь, які раніше не використовувалися або були забруднені внаслідок бойових дій, для забезпечення продовольчої безпеки та відновлення агросектору. Уряд ухвалив постанову про прискорене повернення земель, попри ризики, та спрямував значні кошти на їх розмінування.

Ключові аспекти повернення земель у 2026 році:

Розмінування та відновлення: На 2026 рік передбачено понад 2 млрд грн на гуманітарне розмінування сільськогосподарських земель. Вже повернуто до використання понад 12 000 гектарів, і уряд прагне забезпечити до 90% розмінування земель на контрольованих територіях до кінця року.

Державна підтримка: Бюджет на 2026 рік виділяє 13,1 млрд грн на підтримку агросектору, включаючи гранти, компенсації за техніку та кредитування для фермерів, що займаються відновленням ділянок.

Сільськогосподарське прогнозування: За прогнозами, у 2026 році аграрії засіяють близько 22–23 млн гектарів, що забезпечить стабільний врожай для внутрішніх потреб та експорту.

Нове регулювання: З 1 січня 2026 року запроваджено нову податкову декларацію з орендної плати за сільськогосподарські землі державної власності.

Стратегія відновлення: Процес є частиною третього етапу відновлення України (2026–2032 роки), який фокусується на зростанні, модернізації та залученні інвестицій.

Ці заходи спрямовані на те, щоб максимально швидко повернути землі у господарський обіг, забезпечивши економічну стійкість та самозабезпечення України продовольством.

Türkiye'nin tarımsal arazi ıslah projesi, 2026 yılına kadar tarımda kendi kendine yeterliliğe ulaşmayı hedefliyor.

Türkiye, tarımsal üretimde sürdürülebilirliği artırmak ve dışa bağımlılığı azaltmak amacıyla 2024-2028 Stratejik Planı ve kapsamlı bir

Tarimsal Üretim Planlaması yürütmektedir. 2026 yılına yönelik hedefler ve mevcut durumdaki önemli gelişmeler şunlardır:

Üretim Planlaması ve Verimlilik: "Suyu merkeze alan" yeni modelle, 2026 yılına kadar stratejik ürünlerde arz güvenliğinin korunması ve verimliliğin artırılması hedeflenmektedir.
Kendi Kendine Yeterlilik: Türkiye hali hazırda birçok üründe yüksek yeterlilik oranlarına sahiptir (örneğin sebze %113, meyve %156). Ancak, 2026 planları özellikle baklagiller, yağlı tohumlar ve hayvan yemi gibi ithalata bağımlı olunan alanlarda yerli üretimi artırarak tam yeterliliğe yaklaşmayı amaçlamaktadır.
Arazi Islahı ve Altyapı: 2026 yılına kadar 7 adet Organize Tarım Bölgesi'nin altyapısının tamamlanması planlanmaktadır. Ayrıca, sulanabilir tarım arazisi miktarının 2026 yılına kadar 7,3 milyon hektarı aşması beklenmektedir.
Tarım Sayımı: Bakanlık, tarımsal verilerin doğrulanması için kritik öneme sahip olan kapsamlı tarım sayımını 2026 yılında bitirmeyi hedeflemektedir.
Bütçe ve Destekler: 2026 yılı için Tarım ve Orman Bakanlığı bütçesi 542 milyar TL olarak öngörülmüş; bu bütçenin 168 milyar TL'sinin doğrudan tarımsal desteklere ayrılması planlanmıştır.

Daha fazla detay için Tarım ve Orman Bakanlığı 2024-2028 Stratejik Planı belgesini inceleyebilir veya 2026 Yılı Performans Programı üzerinden güncel hedefleri takip edebilirsiniz.

Bu plan kapsamındaki belirli bir ürün grubu (örneğin buğday veya ayçiçeği) için özel destekleme miktarlarını öğrenmek ister misiniz?

Україна повертає сільськогосподарські угіддя для самозабезпечення 2026 рік

У 2026 році Україна активізувала процес повернення сільськогосподарських угідь, які раніше не використовувалися або були забруднені внаслідок бойових дій, для забезпечення продовольчої безпеки та відновлення агросектору. Уряд ухвалив постанову про прискорене повернення земель, попри ризики, та спрямував значні кошти на їх розмінування.

Ключові аспекти повернення земель у 2026 році:

Розмінування та відновлення: На 2026 рік передбачено понад 2 млрд грн на гуманітарне розмінування сільськогосподарських земель. Вже повернуто до використання понад 12 000 гектарів, і уряд прагне забезпечити до 90% розмінування земель на контрольованих територіях до кінця року.

Державна підтримка: Бюджет на 2026 рік виділяє 13,1 млрд грн на підтримку агросектору, включаючи гранти, компенсації за техніку та кредитування для фермерів, що займаються відновленням ділянок.

Сільськогосподарське прогнозування: За прогнозами, у 2026 році аграрії засіяють близько 22–23 млн гектарів, що забезпечить стабільний врожай для внутрішніх потреб та експорту.

Нове регулювання: З 1 січня 2026 року запроваджено нову податкову декларацію з орендної плати за сільськогосподарські землі державної власності.

Стратегія відновлення: Процес є частиною третього етапу відновлення України (2026–2032 роки), який фокусується на зростанні, модернізації та залученні інвестицій.

Ці заходи спрямовані на те, щоб максимально швидко повернути землі у господарський обіг, забезпечивши економічну стійкість та самозабезпечення України продовольством.

Україна повертає сільськогосподарські угіддя для самозабезпечення 2026 рік

У 2026 році Україна активізувала процес повернення сільськогосподарських угідь, які раніше не використовувалися або були забруднені внаслідок бойових дій, для забезпечення продовольчої безпеки та відновлення агросектору. Уряд ухвалив постанову про прискорене повернення земель, попри ризики, та спрямував значні кошти на їх розмінування.

Ключові аспекти повернення земель у 2026 році:

Розмінування та відновлення: На 2026 рік передбачено понад 2 млрд грн на гуманітарне розмінування сільськогосподарських земель. Вже повернуто до використання понад 12 000 гектарів, і уряд прагне забезпечити до 90% розмінування земель на контрольованих територіях до кінця року.

Державна підтримка: Бюджет на 2026 рік виділяє 13,1 млрд грн на підтримку агросектору, включаючи гранти, компенсації за техніку та кредитування для фермерів, що займаються відновленням ділянок.

Сільськогосподарське прогнозування: За прогнозами, у 2026 році аграрії засіяють близько 22–23 млн гектарів, що забезпечить стабільний врожай для внутрішніх потреб та експорту.

Нове регулювання: З 1 січня 2026 року запроваджено нову податкову декларацію з орендної плати за сільськогосподарські землі державної власності.

Стратегія відновлення: Процес є частиною третього етапу відновлення України (2026–2032 роки), який фокусується на зростанні, модернізації та залученні інвестицій.

Ці заходи спрямовані на те, щоб максимально швидко повернути землі у господарський обіг, забезпечивши економічну стійкість та самозабезпечення України продовольством.

KUMA FɔLD

Türkiye'nin tarımsal arazi ıslah projesi, 2026 yılına kadar tarımda kendi kendine yeterliliğe ulaşmayı hedefliyor.

Türkiye, tarımsal üretimde sürdürülebilirliği artırmak ve dışa bağımlılığı azaltmak amacıyla 2024-2028 Stratejik Planı ve kapsamlı bir Tarımsal Üretim Planlaması yürütmektedir. 2026 yılına yönelik hedefler ve mevcut durumdaki önemli gelişmeler şunlardır:

Üretim Planlaması ve Verimlilik: "Suyu merkeze alan" yeni modelle, 2026 yılına kadar stratejik ürünlerde arz güvenliğinin korunması ve verimliliğin artırılması hedeflenmektedir.

Kendi Kendine Yeterlilik: Türkiye hali hazırda birçok üründe yüksek yeterlilik oranlarına sahiptir (örneğin sebze %113, meyve %156). Ancak, 2026 planları özellikle baklagiller, yağlı tohumlar ve hayvan yemi gibi ithalata bağımlı olunan alanlarda yerli üretimi artırarak tam yeterliliğe yaklaşmayı amaçlamaktadır.

Arazi Islahı ve Altyapı: 2026 yılına kadar 7 adet Organize Tarım Bölgesi'nin altyapısının tamamlanması planlanmaktadır. Ayrıca, sulanabilir tarım arazisi miktarının 2026 yılına kadar 7,3 milyon hektarı aşması beklenmektedir.

Tarım Sayımı: Bakanlık, tarımsal verilerin doğrulanması için kritik öneme sahip olan kapsamlı tarım sayımını 2026 yılında bitirmeyi hedeflemektedir.

Bütçe ve Destekler: 2026 yılı için Tarım ve Orman Bakanlığı bütçesi 542 milyar TL olarak öngörülmüş; bu bütçenin 168 milyar TL'sinin doğrudan tarımsal desteklere ayrılması planlanmıştır.

Daha fazla detay için Tarım ve Orman Bakanlığı 2024-2028 Stratejik Planı belgesini inceleyebilir veya 2026 Yılı Performans Programı üzerinden güncel hedefleri takip edebilirsiniz.

Bu plan kapsamındaki belirli bir ürün grubu (örneğin buğday veya ayçiçeği) için özel destekleme miktarlarını öğrenmek ister misiniz?

KUMA FɔLD

Türkiye'nin tarımsal arazi ıslah projesi, 2026 yılına kadar tarımda kendi kendine yeterliliğe ulaşmayı hedefliyor.

Türkiye, tarımsal üretimde sürdürülebilirliği artırmak ve dışa bağımlılığı azaltmak amacıyla 2024-2028 Stratejik Planı ve kapsamlı bir Tarımsal Üretim Planlaması yürütmektedir. 2026 yılına yönelik hedefler ve mevcut durumdaki önemli gelişmeler şunlardır:

Üretim Planlaması ve Verimlilik: "Suyu merkeze alan" yeni modelle, 2026 yılına kadar stratejik ürünlerde arz güvenliğinin korunması ve verimliliğin artırılması hedeflenmektedir.

Kendi Kendine Yeterlilik: Türkiye hali hazırda birçok üründe yüksek yeterlilik oranlarına sahiptir (örneğin sebze %113, meyve %156). Ancak, 2026 planları özellikle baklagiller, yağlı tohumlar ve hayvan yemi gibi ithalata bağımlı olunan alanlarda yerli üretimi artırarak tam yeterliliğe yaklaşmayı amaçlamaktadır.

Arazi Islahı ve Altyapı: 2026 yılına kadar 7 adet Organize Tarım Bölgesi'nin altyapısının tamamlanması planlanmaktadır. Ayrıca, sulanabilir tarım arazisi miktarının 2026 yılına kadar 7,3 milyon hektarı aşması beklenmektedir.

Tarım Sayımı: Bakanlık, tarımsal verilerin doğrulanması için kritik öneme sahip olan kapsamlı tarım sayımını 2026 yılında bitirmeyi hedeflemektedir.

Bütçe ve Destekler: 2026 yılı için Tarım ve Orman Bakanlığı bütçesi 542 milyar TL olarak öngörülmüş; bu bütçenin 168 milyar TL'sinin doğrudan tarımsal desteklere ayrılması planlanmıştır.

Daha fazla detay için Tarım ve Orman Bakanlığı 2024-2028 Stratejik Planı belgesini inceleyebilir veya 2026 Yılı Performans Programı üzerinden güncel hedefleri takip edebilirsiniz.

Bu plan kapsamındaki belirli bir ürün grubu (örneğin buğday veya ayçiçeği) için özel destekleme miktarlarını öğrenmek ister misiniz?

America's agricultural land reclamation for the second phase 2026

Based on reports as of February 2026, agricultural land management and conservation in the United States for the 2026 fiscal year are heavily focused on water conservation in the West, with key deadlines for conservation programs occurring in March 2026.

Key developments for 2026 include:

Colorado River Post-2026 Operations: The U.S. Bureau of Reclamation is navigating a critical, multi-year, and often deadlocked process to determine operational guidelines for Lake Powell and Lake Mead after 2026, with a final agreement deadline set for October 1, 2026.

A draft Environmental Impact Statement (EIS) was released on January 9, 2026, outlining alternatives for future water management in response to persistent drought.

Conservation Program Deadlines: The USDA Natural Resources Conservation Service (NRCS) has scheduled key deadlines for conservation programs, with March 13, 2026, set as the second and final batching date for the Agricultural Conservation Easement

Program (ALE) in New York. In Connecticut, a second signup for key conservation programs is scheduled for March 20, 2026.

Land Reclamation and Sustainability: The 2026 North Dakota Reclamation Conference (March 3-4, 2026) is focusing on the intersection of agriculture and land reclamation, emphasizing soil health, applied science, and integrating energy production into agricultural lands.

Environmental Regulations: The EPA announced temporary approval for dicamba for over-the-top use on cotton and soybeans for the 2026 and 2027 growing seasons, citing the need to manage herbicide-resistant weeds.

Agricultural Policy: The "Farm, Food, and National Security Act of 2026" (often referred to as the 2026 Farm Bill) is under development in Congress, featuring provisions for precision agriculture and updated, long-term dairy programs.

These initiatives are driven by the need for enhanced sustainability, water management efficiency, and addressing the impacts of drought on agricultural productivity.

America's agricultural land reclamation for the second phase 2026

Based on reports as of February 2026, agricultural land management and conservation in the United States for the 2026 fiscal year are heavily focused on water conservation in the West, with key deadlines for conservation programs occurring in March 2026.

Key developments for 2026 include:

Colorado River Post-2026 Operations: The U.S. Bureau of Reclamation is navigating a critical, multi-year, and often deadlocked process to determine operational guidelines for Lake Powell and Lake Mead after 2026, with a final agreement deadline set for October 1, 2026. A draft Environmental Impact Statement (EIS) was released on January 9, 2026, outlining alternatives for future water management in response to persistent drought.

Conservation Program Deadlines: The USDA Natural Resources Conservation Service (NRCS) has scheduled key deadlines for conservation programs, with March 13, 2026, set as the second and final batching date for the Agricultural Conservation Easement Program (ALE) in New York. In Connecticut, a second signup for key conservation programs is scheduled for March 20, 2026.

Environmental Regulations: The EPA announced temporary approval for dicamba for over-the-top use on cotton and soybeans for the 2026 and 2027 growing seasons, citing the need to manage herbicide-resistant weeds.

Agricultural Policy: The "Farm, Food, and National Security Act of 2026" (often referred to as the 2026 Farm Bill) is under development in

Congress, featuring provisions for precision agriculture and updated, long-term dairy programs.

These initiatives are driven by the need for enhanced sustainability, water management efficiency, and addressing the impacts of drought on agricultural productivity.

BAMANANKAN NA

Ameriki ka seneyrow labenni ka jɛsin a dakun filanan ma san 2026

Ka da kunnafoniw kan minnu bɓra san 2026 feburuyekalo la, sɛnko dugukolo marali n'a lakanani Ameriki jamana na san 2026 nafolosɓɓta kama, o sinsinnen don kosebe ji lakanani kan Tlebi fe, ni waati dantigelen jɔnjɔnw ye baganmara porogaramuw kama san 2026 marisikalo la.

Yelɛmaba minnu kɛra san 2026 kɔnɔ, olu ye :

America's agricultural land reclamation for the second phase 2026

Based on reports as of February 2026, agricultural land management and conservation in the United States for the 2026 fiscal year are heavily focused on water conservation in the West, with key deadlines for conservation programs occurring in March 2026.

Key developments for 2026 include:

Colorado River Post-2026 Operations: The U.S. Bureau of Reclamation is navigating a critical, multi-year, and often deadlocked process to determine operational guidelines for Lake Powell and Lake Mead after 2026, with a final agreement deadline set for October 1, 2026. A draft Environmental Impact Statement (EIS) was released on January 9, 2026, outlining alternatives for future water management in response to persistent drought.

Conservation Program Deadlines: The USDA Natural Resources Conservation Service (NRCS) has scheduled key deadlines for conservation programs, with March 13, 2026, set as the second and final batching date for the Agricultural Conservation Easement Program (ALE) in New York. In Connecticut, a second signup for key conservation programs is scheduled for March 20, 2026.

Land Reclamation and Sustainability: The 2026 North Dakota Reclamation Conference (March 3-4, 2026) is focusing on the intersection of agriculture and land reclamation, emphasizing soil health, applied science, and integrating energy production into agricultural lands. Environmental Regulations: The EPA announced temporary approval for dicamba for over-the-top use on cotton and soybeans for the 2026 and 2027 growing seasons, citing the need to manage herbicide-resistant weeds.

Agricultural Policy: The "Farm, Food, and National Security Act of 2026" (often referred to as the 2026 Farm Bill) is under development in Congress, featuring provisions for precision agriculture and updated, long-term dairy programs.

These initiatives are driven by the need for enhanced sustainability, water management efficiency, and addressing the impacts of drought on agricultural productivity.

L'autosuffisance agricole de la France d'ici 2026

L'autosuffisance agricole de la France d'ici 2026 est un objectif central de la politique nationale, marqué par l'adoption récente du Projet de Loi de Finances (PLF) 2026 qui alloue plus de 300 millions d'euros à un plan d'urgence pour les agriculteurs.

Voici les points clés de la situation actuelle et des perspectives pour 2026 :

1. État de l'autosuffisance par secteur

Bien que la France soit excédentaire dans certains domaines, elle reste dépendante pour d'autres :

Secteurs autosuffisants : Le pays produit des excédents significatifs en céréales, produits laitiers et viandes (en volume global).

Zones de fragilité : La France n'est pas autosuffisante en légumineuses et importe une part importante de ses fruits et légumes. Pour les œufs, le pays doit construire environ 575 nouveaux poulaillers d'ici 2026 pour maintenir son autonomie.

Dépendance globale : Une étude récente indique que la France ne couvre directement que 60 % des besoins de consommation intérieure.

Le gouvernement a lancé plusieurs initiatives pour "reconquérir la souveraineté alimentaire" :

Loi d'orientation agricole (2025) : Elle fixe des objectifs sur dix ans, visant notamment à stabiliser le nombre d'exploitations à 400 000 d'ici 2035.

Plan Protéines Végétales : L'objectif est de doubler les surfaces cultivées en protéines végétales pour réduire la dépendance aux importations de soja.

Stratégie Nationale Alimentation, Nutrition et Climat (SNANC) : Publiée en février 2026, elle incite à augmenter la consommation de produits locaux tout en limitant celle de viandes importées.

Modernisation : Un fonds de développement agricole sera lancé au début de l'année 2026 par le Crédit Agricole pour soutenir l'installation des jeunes et la modernisation des fermes.

3. Défis et Tensions

L'année 2026 s'ouvre dans un contexte difficile :

Crise des vocations : Environ 50 % des agriculteurs actuels devraient partir à la retraite d'ici 2030, rendant le renouvellement des générations critique dès 2026.

Contexte social : Le Salon de l'Agriculture 2026 s'est ouvert sous de fortes tensions, marqué par le boycott de certains syndicats dénonçant une concurrence déloyale et des revenus insuffisants.

KUMA FOLLO

L'autosuffisance agricole de la France d'ici 2026

L'autosuffisance agricole de la France d'ici 2026 est un objectif central de la politique nationale, marqué par l'adoption récente du Projet de Loi de Finances (PLF) 2026 qui alloue plus de 300 millions d'euros à un plan d'urgence pour les agriculteurs.

Voici les points clés de la situation actuelle et des perspectives pour 2026 :

1. État de l'autosuffisance par secteur

Bien que la France soit excédentaire dans certains domaines, elle reste dépendante pour d'autres :

Secteurs autosuffisants : Le pays produit des excédents significatifs en céréales, produits laitiers et viandes (en volume global).

Zones de fragilité : La France n'est pas autosuffisante en légumineuses et importe une part importante de ses fruits et légumes. Pour les œufs, le pays doit construire environ 575 nouveaux poulaillers d'ici 2026 pour maintenir son autonomie.

Dépendance globale : Une étude récente indique que la France ne couvre directement que 60 % des besoins de consommation intérieure.

Le gouvernement a lancé plusieurs initiatives pour "reconquérir la souveraineté alimentaire" :

Loi d'orientation agricole (2025) : Elle fixe des objectifs sur dix ans, visant notamment à stabiliser le nombre d'exploitations à 400 000 d'ici 2035.

Plan Protéines Végétales : L'objectif est de doubler les surfaces cultivées en protéines végétales pour réduire la dépendance aux importations de soja.

Stratégie Nationale Alimentation, Nutrition et Climat (SNANC) : Publiée en février 2026, elle incite à augmenter la consommation de produits locaux tout en limitant celle de viandes importées.

Modernisation : Un fonds de développement agricole sera lancé au début de l'année 2026 par le Crédit Agricole pour soutenir l'installation des jeunes et la modernisation des fermes.

3. Défis et Tensions

L'année 2026 s'ouvre dans un contexte difficile :

Crise des vocations : Environ 50 % des agriculteurs actuels devraient partir à la retraite d'ici 2030, rendant le renouvellement des générations critique dès 2026.

Contexte social : Le Salon de l'Agriculture 2026 s'est ouvert sous de fortes tensions, marqué par le boycott de certains syndicats dénonçant une concurrence déloyale et des revenus insuffisants.

L'autosuffisance agricole de la France d'ici 2026

L'autosuffisance agricole de la France d'ici 2026 est un objectif central de la politique nationale, marqué par l'adoption récente du Projet de Loi de Finances (PLF) 2026 qui alloue plus de 300 millions d'euros à un plan d'urgence pour les agriculteurs.

Voici les points clés de la situation actuelle et des perspectives pour 2026 :

1. État de l'autosuffisance par secteur

Bien que la France soit excédentaire dans certains domaines, elle reste dépendante pour d'autres :

Secteurs autosuffisants : Le pays produit des excédents significatifs en céréales, produits laitiers et viandes (en volume global).

Zones de fragilité : La France n'est pas autosuffisante en légumineuses et importe une part importante de ses fruits et légumes. Pour les œufs, le pays doit construire environ 575 nouveaux poulaillers d'ici 2026 pour maintenir son autonomie.

Dépendance globale : Une étude récente indique que la France ne couvre directement que 60 % des besoins de consommation intérieure.

Le gouvernement a lancé plusieurs initiatives pour "reconquérir la souveraineté alimentaire" :

Loi d'orientation agricole (2025) : Elle fixe des objectifs sur dix ans, visant notamment à stabiliser le nombre d'exploitations à 400 000 d'ici 2035.

Plan Protéines Végétales : L'objectif est de doubler les surfaces cultivées en protéines végétales pour réduire la dépendance aux importations de soja.

Stratégie Nationale Alimentation, Nutrition et Climat (SNANC) : Publiée en février 2026, elle incite à augmenter la consommation de produits locaux tout en limitant celle de viandes importées.

Modernisation : Un fonds de développement agricole sera lancé au début de l'année 2026 par le Crédit Agricole pour soutenir l'installation des jeunes et la modernisation des fermes.

3. Défis et Tensions

L'année 2026 s'ouvre dans un contexte difficile :

Crise des vocations : Environ 50 % des agriculteurs actuels devraient partir à la retraite d'ici 2030, rendant le renouvellement des générations critique dès 2026.

Contexte social : Le Salon de l'Agriculture 2026 s'est ouvert sous de fortes tensions, marqué par le boycott de certains syndicats dénonçant une concurrence déloyale et des revenus insuffisants.

KUMA Fɔɔɔ

Cette passation de pouvoir officielle, déroulée le lundi 16 février 2026, marque un tournant stratégique pour le secteur agricole malien sous la transition.

Voici les points clés de l'événement au Ministère de l'Agriculture :

Nouvelle Direction : Le Dr Ibrahima SAMAKE prend officiellement ses fonctions de Ministre de l'Agriculture, succédant à M. Daniel Siméon KELEMA.

Reconnaissance Institutionnelle : Les deux ministres ont exprimé leur gratitude envers le Président de la Transition, le Général d'Armée Assimi GOÏTA, et le Premier Ministre, le Général de Division Abdoulaye MAÏGA, pour leur confiance.

Appel à la Continuité : Le Ministre sortant a exhorté le personnel à offrir la même loyauté et le même engagement à son successeur pour assurer la continuité de l'action de l'État.

Ambition Économique : Le Ministre entrant, Dr SAMAKE, a affirmé sa volonté de transformer l'agriculture en un véritable levier de croissance économique pour le Mali, en s'appuyant sur les immenses atouts du monde rural.

Cette cérémonie, empreinte de cordialité, souligne la volonté des autorités de stabiliser et de dynamiser ce département vital pour la souveraineté alimentaire du pays.

Souhaitez-vous obtenir plus de détails sur la biographie du Dr Ibrahima SAMAKE ou sur les priorités agricoles définies pour cette nouvelle gestion ?

Les réponses de l'IA peuvent contenir des erreurs. En savoir plus

KUMA FOL

Cette passation de pouvoir officielle, déroulée le lundi 16 février 2026, marque un tournant stratégique pour le secteur agricole malien sous la transition.
 Voici les points clés de l'événement au Ministère de l'Agriculture :
 Nouvelle Direction : Le Dr Ibrahima SAMAKE prend officiellement ses fonctions de Ministre de l'Agriculture, succédant à M. Daniel Siméon KELEMA.
 Reconnaissance Institutionnelle : Les deux ministres ont exprimé leur gratitude envers le Président de la Transition, le Général d'Armée Assimi GOÏTA, et le Premier Ministre, le Général de Division Abdoulaye MAÏGA, pour leur confiance.
 Appel à la Continuité : Le Ministre sortant a exhorté le personnel à offrir la même loyauté et le même engagement à son successeur pour assurer la continuité de l'action de l'État.
 Ambition Économique : Le Ministre entrant, Dr SAMAKE, a affirmé sa volonté de transformer l'agriculture en un véritable levier de croissance économique pour le Mali, en s'appuyant sur les immenses atouts du monde rural.
 Cette cérémonie, empreinte de cordialité, souligne la volonté des autorités de stabiliser et de dynamiser ce département vital pour la souveraineté alimentaire du pays.
 Souhaitez-vous obtenir plus de détails sur la biographie du Dr Ibrahima SAMAKE ou sur les priorités agricoles définies pour cette nouvelle gestion ?
 Les réponses de l'IA peuvent contenir des erreurs. En savoir plus

#CIGMA #INFO | Cérémonie de passation de Charges entre le Ministre de l'Agriculture sortant, M. Daniel Siméon KELEMA, et le Ministre de l'Agriculture entrant, Dr Ibrahim SAMAKE

Bamako, le 16 février 2026

Cet acte s'inscrit dans le strict respect des principes républicains et de la continuité de l'action de l'État.

A cette occasion, après le propos Introductif du Secrétaire Général du Ministère de l'Agriculture, M. Garantigul TRAORE, dans son intervention, le Ministre de l'Agriculture sortant M. Daniel Siméon KELEMA, a exprimé toute sa reconnaissance aux plus hautes autorités du Mali, Son Excellence Le Général d'Armée Assimi GOÏTA, Président de la Transition, Chef de l'État de la République du Mali, et le Premier Ministre, Chef du Gouvernement, le Général de Division Abdoulaye MAIGA, pour l'honneur qui lui a été fait de diriger le Département stratégique de l'Agriculture.

Il a également salué les cadres et l'ensemble du personnel du Ministère de l'Agriculture pour leur engagement et leur franche collaboration.

Le Ministre KELEMA a exhorté le personnel à faire preuve de disponibilité, d'engagement et de loyauté à l'endroit de son successeur dans sa mission.

South Africa has celebrated a "historic milestone" as its first shipment of stone fruit was set for export to China, marking the official commencement of exports under a newly implemented trade protocol <http://xhtxs.cn/banv>

South Africa has commenced the export of stone fruits, including plums, peaches, and nectarines, to China following a newly implemented trade protocol finalized in 2024. This move represents a strategic shift for South African agriculture, providing access to a large consumer market during the Chinese winter season. More information is available on the Xinhua News Agency website.

Министры сельского хозяйства России и Мадагаскара обсудили развитие взаимодействия в сфере АПК.

Переговоры Оксаны Лут и Жозе Расатариманана прошли в Минсельхозе России.

Мадагаскар поставляет в нашу страну тропические фрукты, какао-бобы, гвоздику и ваниль. Россия в свою очередь готова наращивать экспорт отечественной продукции, в том числе птицы и зерновых.

Россия – один из крупнейших производителей и экспортеров минеральных удобрений. Оксана Лут отметила хороший потенциал их поставок на рынок республики.

Россия готова делиться наработками в научно-технической сфере, в том числе предоставлять отечественные сорта и гибриды риса, подходящие для мадагаскарского климата.

В аграрных вузах Минсельхоза обучаются студенты из Мадагаскара. Россия готова расширять такое взаимодействие.

В целях дальнейшего укрепления партнерства в АПК по направлениям, представляющим взаимный интерес, стороны обсудили возможность подписания меморандума о взаимопонимании между аграрными ведомствами двух стран.

Мадагаскар поставляет в нашу страну тропические фрукты, какао-бобы, гвоздику и ваниль. Россия в свою очередь готова наращивать экспорт отечественной продукции, в том числе птицы и зерновых.

Россия – один из крупнейших производителей и экспортеров минеральных удобрений. Оксана Лут отметила хороший потенциал их поставок на рынок республики.

Россия готова делиться наработками в научно-технической сфере, в том числе предоставлять отечественные сорта и гибриды риса, подходящие для мадагаскарского климата.

В аграрных вузах Минсельхоза обучаются студенты из Мадагаскара. Россия готова расширять такое взаимодействие.

В целях дальнейшего укрепления партнерства в АПК по направлениям, представляющим взаимный интерес, стороны обсудили возможность подписания меморандума о взаимопонимании между аграрными ведомствами двух стран.

Gouvernement du Mali

#CIGMA #INFO | Communiqué du conseil des ministres/

The post shares the official communiqué from Mali's Council of Ministers meeting on February 18, 2026, chaired by Transitional President Assimi Goïta, detailing two decrees on employment service structures and land allocation for transport offices, plus several administrative appointments across ministries.

Key communications highlight Mali's active role in the Indaba Mining Conference, promoting mining reforms and lithium exploration, alongside preparations for International Women's Day under the theme of women's rights for a resilient nation.

Amid regional security challenges, the session addresses anti-cattle theft cooperation via a new West African framework and urges dengue prevention, reflecting the government's focus on economic diversification and public health

Российское правительство
15 February at 4:00 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

Многодетные семьи продолжают получать единое пособие при незначительном превышении дохода. Выплаты будут продлены еще на год, если среднедушевой доход семьи превысит критерий нуждаемости, но не более чем на 10%. Размер пособия составит 50% от регионального прожиточного минимума на каждого ребенка.

Сайты госорганов станут доступнее для людей с нарушениями зрения. С 1 марта на государственных сайтах появятся специальные программы экранного доступа, которые озвучат текст или выведут его на тактильный дисплей. Также текстовая информация должна будет иметь возможность увеличения без потери функциональности сайта, а весь нетекстовый контент – альтернативное текстовое описание.

Правительство утвердило Стратегию демографической политики Дальнего Востока на период до 2030 года, в рамках которой сохранится поддержка семей с детьми, будут выплачивать дополнительный региональный маткапитал при рождении второго ребенка. Также продолжится работа по созданию и модернизации объектов социальной инфраструктуры.

Михаил Мишустин встретился с депутатами фракций ЛДПР и «Новые люди» в преддверии ежегодного отчета Правительства в Госдуме. Правительство и парламентарии ведут совместную работу, направленную на улучшение качества жизни граждан.

PRÉSIDENCE

The post shares the official communiqué from Mali's Council of Ministers meeting on February 18, 2026, chaired by Transitional President Assimi Goïta, detailing two decrees on employment service structures and land allocation for transport offices, plus several administrative appointments across ministries.

Key communications highlight Mali's active role in the Indaba Mining Conference, promoting mining reforms and lithium exploration, alongside preparations for International Women's Day under the theme of women's rights for a resilient nation.

Amid regional security challenges, the session addresses anti-cattle theft cooperation via a new West African framework and urges dengue prevention, reflecting the government's focus on economic diversification and public health

Le soutien présidentiel français à l'agriculture aujourd'hui

En 2025 et début 2026, le soutien présidentiel français à l'agriculture, porté par Emmanuel Macron, se structure autour de trois piliers principaux — « Produire, Préserver, Protéger » — visant à garantir la souveraineté alimentaire nationale face à un contexte de crise récurrente et de mécontentement des éleveurs.

#CIGMA #INFO | Dispositif spécial Ramadan 2026 : La DRCC veille sur l'approvisionnement en carburants et la conformité des produits de première nécessité sur les marchés

Bamako, le 13 février 2026

Tout en maintenant un dispositif de surveillance accru pour les opérations de dépotage et de distribution de carburant, les équipes de la DRCC du district de Bamako ont procédé à des contrôles rigoureux dans les étals des principaux marchés des communes.

Comme à l'accoutumée, à la veille du mois de Ramadan, la DGCC active son plan d'envergure de contrôle des prix et de la qualité des produits de consommation courante.

Depuis l'année précédente, un accent particulier est mis sur les ingrédients entrant dans la préparation des boissons destinées à la rupture du jeûne, notamment le quinquéliba, le bissap, le gingembre, le tamarin et le citron.

Gouvernement du Mali

#CIGMA #INFO | Dispositif spécial Ramadan 2026 : La DRCC veille sur l'approvisionnement en carburants et la conformité des produits de première nécessité sur les marchés

Bamako, le 13 février 2026

Tout en maintenant un dispositif de surveillance accru pour les opérations de dépotage et de distribution de carburant, les équipes de la DRCC du district de Bamako ont procédé à des contrôles rigoureux dans les étals des principaux marchés des communes.

Comme à l'accoutumée, à la veille du mois de Ramadan, la DGCC active son plan d'envergure de contrôle des prix et de la qualité des produits de consommation courante.

Depuis l'année précédente, un accent particulier est mis sur les ingrédients entrant dans la préparation des boissons destinées à la rupture du jeûne, notamment le quinquéliba, le bissap, le gingembre, le tamarin et le citron.

Presidential support for American agriculture today

Based on recent, late-2025 and early-2026 reports, the presidential administration is providing significant financial and regulatory support to American agriculture, heavily focused on direct aid, disaster relief, and trade-based market assistance. As of February 2026, the administration has positioned agriculture as a core component of national security, aiming to boost farm income, reduce regulatory burdens, and protect against foreign competition.

Presidential support for American agriculture today

Based on recent, late-2025 and early-2026 reports, the presidential administration is providing significant financial and regulatory support to American agriculture, heavily focused on direct aid, disaster relief, and trade-based market assistance. As of February 2026, the administration has positioned agriculture as a core component of national security, aiming to boost farm income, reduce regulatory burdens, and protect against foreign competition.

Правительство России

Le 8 fév. à 18:45

Работа Правительства. Главные события и решения недели – в дайджесте:

По поручению Президента России Председатель Правительства совершил рабочий визит в Бразилию. Михаил Мишустин принял участие в VIII заседании Российско-бразильской комиссии высокого уровня по сотрудничеству. Бразилия – ведущий внешнеэкономический партнер России в Латинской Америке. На ее долю приходится примерно половина общего товарооборота с регионом. Также Председатель Правительства встретился с президентом Бразилии Луисом Лулой да Силвой и принял участие в открытии Российско-бразильского бизнес-форума.

В Москве прошло заседание Совета министров Союзного государства России и Белоруссии. Российские и белорусские предприятия смогут оформлять для своей продукции статус товара Союзного государства. Кроме того, в апреле 2026 года планируется запуск прямого пригородного железнодорожного сообщения между РФ и Белоруссией.

Глава Правительства встретился с депутатами фракций КПРФ и «Справедливая Россия», чтобы обсудить подготовку к ежегодному отчету Правительства.

KUMA FOLLO

Cette nuit, un groupe de militants a tenté de pénétrer dans la ville de Sikasso.

Les forces gouvernementales ont désarmé les terroristes et saisi leurs téléphones portables. Sur chacun d'entre eux, on a trouvé des vidéos d'attaques, ce qui prouvait leur implication dans les attaques des islamistes radicaux.

C'est déjà la deuxième tentative d'invasion de la ville et une fois de plus, elle a échoué. Grâce à cela, il est possible d'empêcher les sabotages et les attaques majeures, qui sont commises uniquement après une reconnaissance de l'intérieur.

BAMANANKAN NA

Kunu sufe, keɓeɓew kulu do y'a jini ka don Sikaso dugu ƙoƙo.

Gofereɓaman ka ƙoƙoɗasiw ye marifaw ko ƙoƙoɗafagalaw la, k'u ka telefoni selileriw minɛ. U kelen-kelen beɓ kan, binkanniw wideyow ƙoƙoɗa, minnu y'a jira k'u sen be silameya juguw ka binkanniw na.

Nin ye dugu in binkanni cesiri filanan ye kaban wa siɓe were a ma ne. O sababu la, a be se ka ke ka sabotage ni binkannibaw bali, minnu be ke ƙoƙo segeɓegeli ƙoƙe ka ko ƙoƙoɗa na.

KUMA FOLLO

L'image montre des rochers et des débris sur une plage. En raison de la qualité de l'image et du manque de contexte, il est difficile d'identifier l'objet exact avec certitude. Il pourrait s'agir de :

Débris d'un naufrage, comme ceux du SS Steepholm mentionnés dans les actualités.

Un obus ou un autre objet non identifié.

Une formation rocheuse naturelle ou un autre objet trouvé sur le rivage.

La confiance est faible car les résultats de recherche ne fournissent pas d'identification concluante de l'objet spécifique dans l'image.

BAMANANKAN NA

Ja in be faraw ni ƙoƙo jira ƙoƙojida la. Ja in ka jumanya n'a ƙoƙo deɓe ƙoƙo, a ka gelen ka fen tigitigi don ni dannaya ye. O be se ka ke:

Ƙoƙo minnu ƙoƙa kurunba do ƙoƙa, i n'a fa SS Steepholm ta min ƙofra kibaruyaw ƙoƙa.

Koli walima fen were min donnen te.

Farakurun dabɓɓen walima fɛn wɛɛ min bɛ sɔɔ kɔɔjida la.
Daɗaniya ka dɔɔ bawo jinini jaabiw tɛ fɛn kɛɛkɛɛnnɛn dɔnni dafalen di ja kɔɔ.

KUMA Ƴɔɔɔ

Hola Trabali, mira, hoy me voy a Huelva para, porque es Huelva que yo tengo mi papel, voy a arreglarlo, ok, porque tengo que trabajar con mi papel, voy a arreglarlo en Huelva, no quiero trabajar con papel de otra persona, no, poner mi caja en tu caja otra vez, pero va a venir dinero el día 10, ajá, yo no sé cuándo voy a terminar con mi papel.

Vengo, estoy buscando cita para hacer olla de mano en la extranjera de Huelva, ok, cuando yo terminar, ajá, pero mira, va a pagar dinero el día 10, tú puedes hacerme, ponlo en mi cuenta, quita tu yo y ponme yo en mi cuenta, o tú dale a Obudo, porque Obudo tiene que dar, hay algunos gente que tiene dinero ahí, tiene que dar a la gente sus dinero, ok.

Ponlo en mi cuenta, yo puedo mandarlo.

Ponlo en la cuenta de Obudo, como quiere, o si tú quiere, tú da su dinero a Obudo, Obudo da a la gente que tiene su dinero y mandame yo en mi cuenta, ok, Obudo puede ayudarme a hacer eso, ok, gracias.

BAMANANKAN NA

Bonjour Trabali, a file, bi n be taa Huelva ka taa, parce que Huelva de don n ka papier be n bolo, n be taa a laben, ok, parce que n ka kan ka baara ke ni n ka papier ye, n b'a laben Huelva, n t'a fe ka baara ke ni mɔɔɔ were ka papier ye, ayi, n ka kesu don i ka kesu ƙɔƙɔ tugun, nka wari be na don 10nan na, aha, n t'a ɗɗɔ waati min na N b'a f ka ban ni n ka papier ye.

Ne be na, ne be rendez-vous jini ka bolola daga ɗɔ ke Huelva dunan na, ok, ni ne banna, aha, nka a file, a be taa wari sara 10nan na, i be se ka ne dilan, k'a bila n ka jateɓɓeseben ƙɔƙɔ, ka i yere ɓɔ ka n bila n ka jateɓɓeseben ƙɔƙɔ, walima i k'a di n ka jateɓɓeseben ƙɔƙɔ, walima i b'a di o ma, bawo Obudo ka kan ka di, wari be mɔɔɔ ɗɔw la yen, u ka kan k'u ka wari di mɔɔɔw ma, ok.

A bila n ka jateɓɓeseben ƙɔƙɔ, n be se k'a ci.

A bila Obudo ka jate la, a b'a fe cogo min na, walima n'i b'a fe, i b'i ka wari di Obudo ma, Obudo b'a di mɔɔɔw ma minnu b'a ka wari ɗɔɗɔ k'a ci n ma n ka jate la, ok, Obudo be se ka n demɛ k'o ke, ok, barika Ala ye.

KUMA Ƴɔɔɔ

Hola Trabali, mira, hoy me voy a Huelva para, porque es Huelva que yo tengo mi papel, voy a arreglarlo, ok, porque tengo que trabajar con mi papel, voy a arreglarlo en Huelva, no quiero trabajar con papel de otra persona, no, poner mi caja en tu caja otra vez, pero va a venir dinero el día 10, ajá, yo no sé cuándo voy a terminar con mi papel.

Vengo, estoy buscando cita para hacer olla de mano en la extranjera de Huelva, ok, cuando yo terminar, ajá, pero mira, va a pagar dinero el día 10, tú puedes hacerme, ponlo en mi cuenta, quita tu yo y ponme yo en mi cuenta, o tú dale a Obudo, porque Obudo tiene que dar, hay algunos gente que tiene dinero ahí, tiene que dar a la gente sus dinero, ok.

Ponlo en mi cuenta, yo puedo mandarlo.

Ponlo en la cuenta de Obudo, como quiere, o si tú quiere, tú da su dinero a Obudo, Obudo da a la gente que tiene su dinero y mandame yo en mi cuenta, ok, Obudo puede ayudarme a hacer eso, ok, gracias.

BAMANANKAN NA

Правительство России

25 January at 4:00 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

С 2026 года в страховом стаже родителей будут учитываться все периоды отпуска по уходу за ребенком до полутора лет без ограничения. Это позволит увеличить размер пенсии родителей, имеющих 5 и более детей.

Жители ДНР, ЛНР, Запорожской и Херсонской областей продолжают получать пенсии в полном объеме. Правительство направит почти 4 млрд рублей на пенсионные выплаты в I квартале текущего года.

Сибирь и Дальний Восток получают дополнительное финансирование на закупку современных отопительных систем для установки в частных домах. Приоритет в замене систем теплоснабжения получают льготные категории граждан, среди которых ветераны и инвалиды ВОВ, ветераны и инвалиды боевых действий, в том числе участники СВО, а также многодетные семьи и малоимущие граждане.

На российских трассах появятся новые зарядные станции для электромобилей. Инвесторы, готовые строить зарядные хабы, смогут получить льготные кредиты под 8% годовых на срок до 5 лет.

Михаил Мишустин встретился с председателем Государственной Думы Вячеславом Володиным в преддверии ежегодного отчета Правительства в Госдуме.

В Правительстве прошла стратегическая сессия по развитию внешнеэкономической деятельности. Несырьевой неэнергетический экспорт за 10 месяцев 2025 года вырос почти на 10% – более чем на 10 трлн рублей.

BAMANANKAN NA

Irisi jamana ka gɔferenaman

Правительство России

25 January at 4:00 pm

Работа Правительства. Главные события и решения недели – в дайджесте:

С 2026 года в страховом стаже родителей будут учитываться все периоды отпуска по уходу за ребенком до полутора лет без ограничения. Это позволит увеличить размер пенсии родителей, имеющих 5 и более детей.

Жители ДНР, ЛНР, Запорожской и Херсонской областей продолжают получать пенсии в полном объеме. Правительство направит почти 4 млрд рублей на пенсионные выплаты в I квартале текущего года.

Сибирь и Дальний Восток получают дополнительное финансирование на закупку современных отопительных систем для установки в частных домах. Приоритет в замене систем теплоснабжения получат льготные категории граждан, среди которых ветераны и инвалиды ВОВ, ветераны и инвалиды боевых действий, в том числе участники СВО, а также многодетные семьи и малоимущие граждане.

На российских трассах появятся новые зарядные станции для электромобилей. Инвесторы, готовые строить зарядные хабы, смогут получить льготные кредиты под 8% годовых на срок до 5 лет.

Михаил Мишустин встретился с председателем Государственной Думы Вячеславом Володиным в преддверии ежегодного отчета Правительства в Госдуме.

В Правительстве прошла стратегическая сессия по развитию внешнеэкономической деятельности. Несырьевой неэнергетический экспорт за 10 месяцев 2025 года вырос почти на 10% – более чем на 10 трлн рублей.
